MOUNT ABU HIGH SCHOOL.

This European High School, for boys only, has recently been entirely reorganized, and placed under direct Government control. There is a competent staff of both Masters and Lady Teachers, with a Medical attendant, an experienced Matron and a Sergeant.

The School works by the Revised Code of Regulations for European Schools, prescribed by the Government of Bombay, and prepares boys for the High School Examination, the Matriculation Examination of the University of Bombay, and for the Bombay School of Art. The fees are very moderate, and there are several scholarships open to competition.

SUCCESSES FOR 1908.

Two passed Matriculation—University of Bombay. Seven passed First Grade Drawing examination of the School of Art.

The School further offers all the advantages of a healthy climate, in a fine situation; besides two large play-grounds for cricket, football and hockey, it has both natural Swimming Bath and Rifle Range on its own estate.

An excellent Tonga service makes it accessible from Abu Road Station (B., B. and C. I. Railway) in about three hours. A Motor service has also been recently started.

For particulars, apply to Revd. P. S Grove, Honorary Secretary, Government Board of Control, Mount Abu, Rajputana.

NORTH-WEST FRONTIER PROVINCE—PUBLIC WORKS DEPARTMENT—IRRIGATION BRANCH.

RESOLUTION—By the Hon'ble the Chief Commissioner, North-West Frontier Province.

The 19th January 1909.

READ—

Revenue Report by the Chief Engineer for Irrigation, North-West Frontier Province, of the Canals in the Province for the Triennial period ending 1907-1908.

RESOLUTION.—During the triennium, the project estimate of the Upper Swat River Canal was submitted to the Government of India, and received the sanction of the Secretary of State for India in Council in March 1906. To supervise the construction of this Canal, the Swat River Canals Circle of Superintendence was formed in October 1907, and the Lower Swat River and Kabul River Canals were at the same time transferred to it from the Lower Jhelum Canal Circle. The Paharpur Canal remains under the control of the Superintending Engineer, Lower Jhelum Canal Circle.

2. During the period under review, the Lower Swat and the Kabul River Canals were transferred to Budget Head 49—Capital (Imperial) and classed as Productive Public Works: the Lower Swat River Canal, on 1st April 1906, from Budget Head 35—Protective (Imperial) and the Kabul River Canal, on 1st April 1907, from Budget Head 35—Minor Works and Navigation.

3. On the Lower Swat River Canal the average net revenue realized was R4,29,457, the average percentage on Capital outlay was 10·20 and the average areas irrigated in Kharif and Rabi were 59,376 and 93,823 acres, respectively. All these figures are below those of the previous triennium. The falling off is due partly to the increase in the average annual working expenses on account of special works, and partly to the decrease in the area irrigated, consequent upon the reduction made in the water-supply, in order to minimise the evil effects of over-irrigation and to prevent water-logging.

4. The operations on the Kabul River Canal resulted in an average net revenue of R42,331, or 4·32 per cent. on the capital expended, against an average net revenue of R85,272 or 16·11 per cent in the previous triennium. The large decrease in percentage

on capital is due to the large increase in Capital outlay on account of the construction of the Hazar Khani Branch, which at present is mainly a non-productive channel, and also to a temporary increase in the working expenses owing to the enlargement of the Main Canal which has been necessitated by the construction of the new Branch. The areas irrigated, both in the Kharif and Rabi, exceed those recorded in the previous triennium, and this is due to the opening of the Hazar Khani Branch.

5. The construction of the Pahapur Canal has been nearly completed. The upper portion of the Main Canal and the Kot Hafiz Distributary were opened for irrigation during Kharif 1907, the area irrigated in this, its first year, being 14,875 acres. The working expenses amount to R10,926 and give an average rate of R0·74 per acre.

6. Besides surveys on the Michni-Dalazak and Doaba-Sholgirah District Canals, the supervision of which has been taken over by the Irrigation Department, considerable surveys were carried out in connection with the Gumal Dam Scheme. An Irrigation Officer was deputed to the Civil Department in connection with improvements to the Bannu Canals.

7. The Bara weir was carried away during the floods of 1906, and guide walls to replace the weir were constructed during the year 1907-08. The revenue management of the Bara River Canals continues to be in the hands of the Civil Department, and reports of area irrigated and revenue earned are not sent to the Irrigation Department.

By order of the Hon'ble the Chief Commissioner.

J. J. MULLALY,
Secretary for Irrigation, North-West Frontier Province.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Rainfall summary for the seven days ending at 8 hrs. on Thursday, the 28th January 1909, based on the Indian Daily Weather Reports of the period.

Weather was unsettled at the commencement of the week in north-east India and rain was reported on the 22nd from Chota Nagpur and the east of the United Provinces and on the 23rd from Assam. The approach of a diffused area of low pressure from Persia on the 23rd inaugurated another period of disturbed weather in north-west India and precipitation fell during the next three days in Baluchistan, lower Sind, Kashmir and over nearly the whole of the Punjab and the North-West Frontier Province. As this disturbance moved eastwards, it caused thunderstorms in the central parts of the country and on the 28th a few light showers were recorded in Chota Nagpur. At the close of the week pressure rose very rapidly in north-west India and skies cleared from Baluchistan to Assam. The week has been one of feebly unsettled weather over the whole of northern India and light precipitation occurred in nearly every rainfall division in this region.

Burma.—Very little cloud was reported during the week, and temperature was normal, except for an excess in parts of upper Burma from the 23rd to the 25th.

North-east India including Orissa.—Thunderstorms in some cases accompanied by hail occurred in Chota Nagpur and the neighbouring districts on several days and on the 24th rainfall was reported as having been nearly general in Assam. Skies were moderately to heavily clouded at the beginning of the week, but on the 24th they cleared and then remained clear over the greater part of the division. Temperature was steadily in excess at night, but did not differ much from normal in the day time.

The United Provinces, Central India and the Central Provinces.—Thunderstorms gave local precipitation over a large part of the division on the 27th. The following stations reported amounts of over a tenth of an inch : Benares, Roorkee, Dehra Dun, Chakrata, Muktesar, Sutna, Seoni and Pendra. In the south of the Central Provinces skies were cloudless, but cloud was present on most days in the north of the Central Provinces, Central India and the United Provinces. Temperature was higher than usual on the last three days of the week.

North-west India.—On the 25th snowfall in the hills and rainfall in the plains were nearly general in the Frontier Province, the Punjab and Kashmir. During the week precipitation also occurred in Baluchistan and at Kurrachee. Skies were cloudy on most days, especially in the hills and submontane districts. Temperature was normal or in defect, the deficiency occurring chiefly during the latter part of the week and in the area of precipitation.

The Peninsula.—Skies were practically free from cloud except in the south, and temperature was approximately normal.

The following are the most important amounts of precipitation as reported at 8 hrs. each day, snow being expressed in equivalent amounts of rain :

January 22nd. Hazaribagh 1·96" and Ranchi 0·69".

" 24th. Dibrugarh 1·28", Sibsagar 0·86" and Minimarg 0·85".

" 25th. Chakrata 0·90", Lahore 0·70", Ludhiana 0·35" and Sialkot 0·42".

" 27th. Pendra 1·03".

The rainfall of the past week has made the seasonal rainfall normal in Assam, and has changed the defect shown at the close of the previous week in Chota Nagpur into an excess. These are the only changes of importance in the seasonal departures from normal.

Season and Crop Prospects for the week ending Saturday, 23rd January 1909.

Burma.—Reaping of winter rice is nearly completed everywhere. Threshing and winnowing operations are proceeding. Cultivation of spring rice and other spring crops in Upper Burma is progressing satisfactorily. Ground-nuts have been gathered, *juar* reaped and the plucking of cotton is nearly finished. Standing crops are in good condition, but some damage to standing and reaped crops, both wet and dry, is now reported to have been caused in the Southern Shan States by the November rains. The price of unhusked rice has risen in five and has fallen in four districts.

Eastern Bengal and Assam.—Light scattered showers have fallen almost in all districts and have done good to standing crops but more rain is needed. Prospects of standing crops are fair. Tea and tobacco promise a good outturn. Harvesting of rape crops and cotton is in progress. Gathering of pulses and transplantation of summer rice are still going on. The number on test relief works are :—2,708 in Dinajpur and 337 in Bogra. The number on relief works in Rangpur during the week ending the 23rd January was about 1,869. Total on relief 4914. The average price of common rice has risen by about 2 per cent. Cattle disease prevails in Dacca, Backarganj, Rajshahi, Dinajpur, Kamrup and Darrang.

Bengal.—Some rain fell in the Presidency, Patna and Chota Nagpur divisions and also in Birbhum, Saran, Champaran and the Sonthal Parganas. The standing spring crops have been benefited and prospects have improved in these districts; but the crops are still suffering from want of moisture in North Bihar and in Jessore and Khulna. Early oilseeds and pulses are being harvested in Nadia, Darjeeling, Purnea, Cuttack, Balasore and Angul. Sugarcane pressing is in progress in Bihar, Orissa and Chota Nagpur. Preparation of land for the next season's crops is going on in Nadia, Saran, Purnea, Sambalpur, Ranchi and Palamau. Famine has been declared in portions of the Darbhanga district. The price of common rice has risen in Hooghly and Singhbhum and has fallen in Burdwan, Bankura, Midnapur, the 24-Parganas, Gaya, Muzaffarpur, Purnea, Angul and Hazaribagh. Cattle disease is reported from Midnapur, Nadia, Gaya, Shahabad, Muzaffarpur, Darbhanga, Monghyr, Purnea, Angul, Sambalpur and from Chota Nagpur, Singhbhum excepted. Fodder is insufficient in parts of Monghyr, Purnea and the Sonthal Parganas. The water-supply is running short in parts of Muzaffarpur, Monghyr, Purnea and the Sonthal Parganas. The number of persons on test works in Darbhanga and Bhagalpur was 28,949. Gratuitous relief was given to 1,896 persons in Darbhanga and Bhagalpur and to 1,018 persons in Balasore and Puri.

United Provinces.—Rain fell in all districts except Naini Tal, Unao, Fatehpur, Muttra, Sitapur and the three Bundelkhand districts. Except in Garhwal however the amounts received were light or insignificant. More rain is still generally and in some districts urgently required. Some damage to crops from frost is reported from Bareilly, Shahjahanpur, Hardoi, Kheri and Bahraich. In Fyzabad unirrigated crops are withering and in Cawnpore the crops on dry areas are poor. Generally however standing crops are in good or fair condition. Cattle disease is reported from eleven districts but agricultural stock are mostly in good condition. Supplies of water and fodder are adequate except in Fyzabad where fodder is becoming scarce and the water available is not equal to the demands for irrigation. Malarial fever is almost extinct. Prices have fallen in three and have risen in two districts and are stationary elsewhere.

The weekly report on the famine and scarcity is as follows:—Famine has been declared from the 21st January in Pargana Bijaigarh in Mirzapur and Kera Mangraur in the Family Domains of the Maharaja of Benares. GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Report of the Select Committee on the Bill to amend the Law of Insolvency in the Presidency towns and the Town of Rangoon was presented to the Council of the Governor General of India for the purpose of making Laws and Regulations on the 5th February 1909:—

WE, the undersigned, Members of the Select Committee to which the Bill to amend the law relating to insolvency in the Presidency-towns and the Town of Rangoon was referred, have considered the Bill and the papers noted in the margin, and have now the honour to submit this our Report, with the Bill as amended by us annexed thereto.

From Bar Association, Madras, dated 29th September, 1908 [Papers No. 7].
From Government, Burma, No. 111 M.—L.-18, dated 10th October, 1908, and enclosure [Papers No. 8].

From Government, Madras, No. 1595, dated 25th November, 1908, and enclosures [Papers No. 10].
From Administrator General, Bengal, No. 14259, dated 30th November, 1908 [Paper No. 11].

2. We find that the Bill has been received with general approval by those consulted and that it is admitted to be a marked advance on the existing law. There are many criticisms of value on particular provisions and the greater part of these are met by the amendments which we have introduced. One objection only is taken to the Bill as a whole: it is the one to which attention was called in the Statement of Objects and Reasons, as to the power of the Indian legislature to deal with the subject of insolvency in such a way as to

maintain the existing law, without some further sanction from the Imperial Parliament. This objection has not met with general support, but it has the high authority of the Bombay High Court. We have carefully considered it, but for reasons which we will proceed to state we do not think that it should prevail.

3. The law of insolvency now in force in the Presidency-towns, the Act of 1848, is an enactment of the Imperial Parliament: it has effect therefore throughout the British dominions. But this Bill, if it becomes law, will be an Act of the Indian legislature and can therefore only operate in British India; it follows that a vesting order and an order of discharge cannot be given the same scope under this Bill as they have under the present law. On the other hand, if we are to wait for Imperial legislation, the amendment of the law may have to be postponed indefinitely. The question for the consideration of Council is whether we shall gain more by passing the Bill into law than we shall lose by giving up the advantages of an Imperial Act. We append to our report a note by our colleague, the Hon'ble Mr. Macleod, the Official Assignee of Bombay, in which this question is discussed in detail, and we agree in his conclusion that the Bill should be passed at once. We think that the Imperial Parliament might well be asked hereafter to enact a short Act to give the same wide effect to vesting orders and discharges made under the Bill after it becomes law as is given under the present Insolvency Act; but we do not think that the amendment of the law in India should wait upon Imperial legislation -- for we are unanimously of opinion that the advantages to be gained under the Bill will altogether outweigh any disadvantages that may be suffered by giving up the present Act If the law in the Presidency-towns rests on the authority of the Indian legislature alone, we shall at least be in no worse position than other British Colonies, and we believe that no difficulty has hitherto been found in giving effect to bankruptcy proceedings in any one of those Colonies either in the United Kingdom or elsewhere in the British dominions.

4. We venture to think that in the discussions on this subject the wide scope of section 118 of the Bankruptcy Act of 1883 has been overlooked. That section has effect throughout the British Empire and is binding on every British Court. It provides that all British Courts having jurisdiction in insolvency shall severally act in aid of and be auxiliary to each other in all matters of bankruptcy, and it enacts that "an order of the Court seeking aid, with a request to another of the said Courts, shall be deemed sufficient to enable the latter Court to exercise, in regard to the matters directed by the order, such jurisdiction as either the Court which made the request, or the Court to which the request is made, could exercise in regard to similar matters within their respective jurisdictions." This provision is in wide terms and we are of opinion that under it the assignee of an insolvent estate in India would have facilities for collecting assets in any place in the British dominions sufficient for all practical purposes. The effect of it has not, we think, been sufficiently explained hitherto, and we are not without hopes that a further consideration of the powers which it confers may modify the opinions of those who have entertained doubts as to the advisability of repealing the existing Act. We have inserted a clause (126) in the Bill to call the attention of Courts in India to this section and to make it incumbent on them to give effect to it.

5. The Madras Chamber of Commerce and the Solicitors' Association of that town have pointed out that under the Bill as introduced some question might arise as to the limits of the jurisdiction of the Courts acting under it. We have amended the wording to meet this point.

6. It has been suggested that the Bill should be extended to Karachi, but the Provincial Insolvency Act is now in force and under it there is for the first time a law of insolvency in that town as in the other trading centres in the Mufassal. The Act has been in operation for twelve months and we have not heard that it has been found inadequate; but in any case we would not advise an alteration of the law after so short a trial. If hereafter it be found desirable to extend this Bill to Karachi or other trading centres, that can easily be done.

7. We desire to point out that one effect of the Bill is to enable the Chief Justice to delegate responsible duties to the Registrar or other officer of the Court. If that is done we think that it will be necessary to appoint a trained lawyer to carry out these duties.

8. The number of clauses in the Bill in its present form has been increased. This is due to the fact that we have broken up some of the clauses in the Bill as introduced which were unduly long and cumbersome.

9. The particular amendments which we recommend will be found dealt with in detail in the Appendix to this Report. The main points on which changes have been made are these :—

(*a*) Under the Bill as introduced adjudication was to be made on creditors' petitions only after service of the petition on the debtor. We think that the present practice should be maintained and that adjudication should be made *ex parte* unless the Court thinks fit to direct service.

(*b*) Exception was taken by the High Courts of Calcutta and Bombay to the provision that adjudication should operate to release debtors from imprisonment.

We accept their view and have struck out this provision; and we have inserted a clause to enable a debtor to apply to the Court, as now, for a protection order from arrest.

(*c*) The provision as to the first meeting of creditors was compulsory under the Bill. We think that such meetings should be called only when directed by the Court, and we have introduced an amendment to give effect to that view. A Schedule with rules for meetings has been added.

(*d*) The title of the Official Assignee is made to relate back to the act of insolvency instead of to the date of the presentation of the petition.

(*e*) The existing criminal jurisdiction of the Insolvency Court has been maintained but directions have been given as to the procedure to be followed.

10. Among minor changes we have struck out those provisions which related to acts done after notice of the act of insolvency. The Committee which has recently sat to examine the Bankruptcy Law in England point out that a provision of this character must introduce an element of uncertainty into business transactions, and we agree with their view. We suggest that to constitute an act of insolvency, property must be sold, or attached for 21 days instead of being merely attached: and we have made the list of excepted articles the same as in the present Act. We have added provisions for the execution of warrants of the Insolvency Court.

11. We have had before us the Report of the English Committee on Bankruptcy to which reference has been made and, in framing the amendments to the Bill, have given full consideration to their suggestions.

12. We recommend that the Bill, if it is passed in the present session, should not come into force until the 1st January, 1910, in order that Courts and practitioners may have an opportunity of making themselves acquainted with the changes in the law effected by it.

13. The publication ordered by the Council has been made as follows:—

APPENDIX I.

NOTES ON PARTICULAR AMENDMENTS.

Clause 3.—The reference to the local limits of the jurisdiction of the Courts has been struck out. It is intended that the powers of the Courts should have effect throughout British India.

Clause 6.—The delegation of powers to officers of the Court has been vested in the Chief Justices instead of in the Court and the powers which may be delegated have been reduced. It is also provided that officers acting under these powers shall not be able to commit for contempt of Court.

Clause 8 (*2*) (*a*).—We have added words to prevent an appeal from a Judge except by leave.

Clause 9 (*a*).—The words "all or substantially all" have been inserted in accordance with a suggestion of the Bengal Chamber of Commerce.

(*e*) We think that attachment of itself should not be an act of insolvency. Our amendment provides that to constitute an act of insolvency the property must be sold or attached for a period of not less than 21 days.

Explanation.—Words have been added to give effect to the decision of the Privy Council in *Kastur Chand v. Dhanpat Singh*, I. L. R. 23 Cal. 26.

Clause 11.—Sub-clause (*a*) has been redrafted so as to provide for the case of a Presidency Jail being situate outside the limits of the Presidency-town. In sub-clause (*c*) provision has been made to bring within the jurisdiction of the Court debtors who personally work for gain in Presidency-towns, and a new sub-clause (*d*) has been added to deal with petitions by or against a firm trading within those limits.

Clause 13 has been amended to enable the Court to adjudicate *ex parte* as under the present practice, or to adjourn the hearing and direct service of the petition on the debtor. The clause has been re-drafted.

Clause 17.—The words "wherever situate" have been inserted in order to give the vesting order the widest possible effect The clause as amended no longer operates to release a debtor who is in prison: this amendment is in accordance with the opinion of the High Courts of Calcutta and Bombay.

Clause 18.—The power of staying suits or other proceedings has been limited to proceedings before the Court itself, or before any other Court subject to its superintendence.

Clause 19.—The provision enabling the debtor to be appointed special manager has been struck out; clause 75 sufficiently provides for this matter.

Clauses 21 to 23.—The provisions as to annulment of adjudication have been broken up and re-arranged.

Clause 24.—The time for submitting a schedule has been enlarged to 30 days in accordance with the suggestion of the High Court of Bombay.

Clause 25 provides for protection orders to protect the insolvent from arrest and is framed on the lines of section 13 of the present Act.

Clause 26.—The Committee do not think it advisable that meetings of creditors should be held in every case; they have therefore amended the clause so that a meeting shall be held only when the Court so directs. A schedule of rules with respect to the summoning of and proceedings at meetings have been added.

Clauses 28 to 32.—The clauses as to composition and schemes of arrangement have been broken up into distinct sections. Some provisions have been added in conformity with the English law on this point.

Clauses 33 and 34.—The provisions as to arrest have been consolidated in this place.

Clause 35.—The words "and telegrams" were omitted from the original proof with intention as section 26 of the English Act only refers to letters; and international questions might be raised if the Court had power to order the re-direction of telegrams. The words "and telegraph," left in the original draft through inadvertence, have been struck out. The description of post letters has been somewhat amplified.

Clause 36(6).—Provision has been made here for the execution of orders made under sub-sections (*4*) and (*5*).

Clause 37.—It is thought that the Court should have power to issue commissions and letters of request for the examination of persons under section 36.

Clauses 38 to 43.—The provisions as to discharge have been re-arranged and the power to enter up judgment against an insolvent has been restricted to cases in which any of the facts referred to in clause 39 (*2*) are established. It seems hard on an honest insolvent that his after-acquired property should be liable to seizure. In clause 39 (2) (*d*) the limit has been reduced from six annas to four annas.

Clause 41 is new. It follows the lines of a recommendation of the recent English Committee.

Clause 46(2) is new. A definition of the word "liability" for the purposes of this clause has also been inserted in accordance with English law.

Clause 47.—Words have been added to this clause in conformity with the corresponding provision, section 38, of the Bankruptcy Act of 1883.

Clause 49.—Priority has been given to rent due to a landlord for one month in accordance with a suggestion of the High Court of Bombay. This is a new provision and it appears to the Committee to be equitable.

Clause 51.—The title of the assignee is made, by the amendment introduced in this clause, to date back to the act of insolvency, in accordance with the recommendations of the High Courts of Calcutta and Bombay.

Clause 52 (1).—An amendment has been made to maintain the existing law as to excepted articles in accordance with the suggestion of the Madras Chamber of Commerce, and two provisoes have been added in conformity with the English law.

Clause 53 (1).—The protection is made to extend only to assets realised before the date of adjudication or before notice of the presentation of any insolvency petition, instead of before the date of the presentation of the petition as in the original Bill.

Clause 57.—A similar alteration has been made in this clause, in order to protect transactions between the insolvent and persons who have had no notice of the presentation of any petition.

Clause 62 (1).—The provision as to disclaimer has been made to apply to land of any tenure instead of to leaseholds only as in the Bill as introduced and the time for disclaimer has been extended to 12 months in conformity with the English Act.

Clauses 64—66 are new. They are taken from the English Act and are inserted in accordance with the suggestions of the High Courts of Calcutta and Bombay.

Clause 77.—An amendment has been made to provide for the appointment of an acting official assignee in accordance with the suggestions of the same High Courts.

Clause 79 (2) (a).—The words "in connection with his insolvency" have been added.

Clause 88 has been altered so as to give the power to appoint a Committee of Inspection to creditors who have proved only.

Clause 90 (1).—The general power and procedure of the Court have been provided for in this sub-clause instead of in clause 7 (1) as was done in the Bill as introduced and a proviso has been added to make it clear that the jurisdiction of the Court is not limited by this provision. Sub-clause (8) has been added at the request of the Chief Court of Lower Burma.

Clause 100.—This is new but it seems to us to be necessary.

Clause 101.—A period of limitation has been provided in this clause for appeals from the acts or decision of official assignees or from orders made by officers of the Court appointed under section 6.

Clauses 103 and 104.—It is thought better to maintain the existing practice and to allow the Court itself to try the offences against the Act which are set out in clause 103. These proceedings will now be distinct from proceedings on applications for discharge. The procedure to be followed is indicated in clause 104.

Clause 106.—This clause has been modified in accordance with the suggestion of the High Court of Bombay and an examination of the insolvent will no longer be compulsory in cases of summary administration.

Clauses 108—111.—The provisions as to administration in insolvency of the estates of persons dying insolvent have been to some extent re-arranged and an amendment has been made to avoid interference with the Administrator General.

Clause 112.—The rule-making power has been amplified to provide for the payment of the remuneration of the official assignee, of the costs incurred in the prosecution of fraudulent debtors, and of any civil liability incurred by an official assignee acting under the order or direction of the Court.

Clause 115 has been re-drafted and the exemption extended to applications made to the Court by the Official Assignee.

Clause 116 is new but is thought useful.

Clause 121 has been altered so as to make it clear that it does not confer any right on a person who has not the right of audience before Insolvency Courts under the existing practice.

Clauses 122—123.—Unclaimed dividends.—Clause 100 of the Bill as introduced has been omitted, as unclaimed dividends in the hands of official assignees are already subject to the order of the Court and there is no necessity to provide in the Bill for their being paid into Court. Rules will prescribe the manner in which official assignees are to deal with unclaimed funds.

Clause 103 of the original Bill has also been struck out. There is no necessity to re-enact section 27 of the Act of 1841. That Act is obsolete and we understand that in Bombay, at any rate, it has always been found impracticable to follow it.

Clause 125 re-enacts the existing practice.

Clause 126 has been re-drafted with the particular object of calling attention of Courts to the fact that section 118 of the English Act binds them.

Schedule I is new. It is taken from the first schedule to the English Bankruptcy Act, the English Bankruptcy Rules and the Madras Rules.

Schedule II.—Clauses have been inserted to provide for taking accounts of property mortgaged and of the sale of mortgaged property.

APPENDIX II.

Note by the Hon'ble Mr. Macleod on the comparative advantages and disadvantages of the Indian Insolvency Act, 1848, and the Presidency Towns Insolvency Bill.

PART I.

The Judges of the Bombay High Court are of opinion that it is essential that any enactment for the administration of the property of insolvent debtors in the Presidency Towns should be passed directly by or under powers expressly granted for the purpose by the Imperial Parliament and that it is of the greatest importance that a discharge granted by the Courts in India should operate as a discharge in respect of all debts provable in the insolvency proceedings in India; they also point out that an Act of the Indian Legislature would be ineffective to secure for the Official Assignee immoveable property of insolvents situated in other British Possessions.

The Acting Official Assignee of Bombay and Acting Legal Remembrancer, Bombay, also consider that the desirability of the proposed legislation is open to question.

The Government of Bombay consider that these objections deserve careful considera tion, and must, if held to be valid, result in the withdrawal of the Bill.

There can be no doubt that there are certain advantages secured by the present Act which must be given up if the Act is repealed and replaced by an Act of the Indian Legislature. On the other hand great advantages will be secured by the Bill, which do not exist at present, and which have long been demanded by the commercial community in India. The most important of these will be found enumerated in Part II. If the Bill is passed there still remains the possibility of Parliament passing hereafter an enabling Act, so as to enlarge the scope of the Indian Act.

Now all modern insolvency legislation must be considered from two points of view:—

(1) that of the debtor who seeks the relief of the Court from his creditors,

(2) that of the creditor who demands—

(*a*) the power to adjudicate his debtor on the commission of certain acts,

(*b*) the speedy collection and equitable distribution of his assets, and

(*c*) an official inquiry into his conduct.

So that when comparing the advantages which will accrue from the Bill, with those which exist under the Act, they must fall into two classes:—

(1) those which benefit debtors, and

(2) those which benefit creditors.

The commercial community no doubt consider the second class of far greater importance than the first. They are unanimously in favour of the proposed legislation.

The Judges of the Bombay High Court have not only considered the interests of creditors, but also the interests of future insolvents.

But both on general principles and from general experience, it may be laid down with confidence that creditors require greater means of protection from their debtors, than debtors from their creditors. The second class of advantages must therefore be considered as claiming priority to the first; if it can be shown that the Bill increases to a very great extent class I while only slightly diminishing class II its desirability is proved. It is proposed, however, to show that while a debtor may lose under the Bill certain advantages which he now possesses under the Act, that loss is amply compensated for by other advantages which he will gain under the Bill.

To deal first with the advantages in class II.

It is generally recognized that these will be largely increased by the Bill. As pointed out by the Bombay High Court there is one setback, for whereas under the Act immoveable property in British Possessions outside British India vests in the Official Assignee it will no longer do so under the Bill. However, it very rarely happens that an Indian insolvent possesses immoveable property in such British Possessions. If he does, it appears from the judgment of Kay, J., in *re* Levy's Trusts (30 Ch. Div. 119) that the Official Assignee could apply under section 118 of the Bankruptcy Act to any British Court exercising bankruptcy jurisdiction for an order which would make the Indian vesting order effective as regards land within the jurisdiction of such Court, provided the vesting order purported to deal with such land. The Bill as proposed to be amended will do this, only in such a case the title of the Official Assignee would date from the order made by such Court. Apart from the power the Indian Courts will have to compel insolvents to execute conveyances of immoveable property abroad, the prospective loss to creditors of Indian insolvents under this head may be considered as practically *nil.*

In the first place the actual effect of a vesting order under the Act has to be considered with regard to property of the insolvent which has not been delivered over by him to the Official Assignee.

The Official Assignee may have a perfectly good statutory title, but that is of little use for the purposes of realisation without possession. In the case of immoveable property the Official Assignee by virtue of his vesting order may endeavour to sell, but unless he is in possession he will not find a purchaser. It makes no difference whether the property is in the British Empire or without. If he is in possession in the one case he can convey himself, in the other the insolvent would have to convey according to the law of the foreign country in which the property was situated. Even within the British Empire the requirements of local laws would have to be complied with. But the point is that if an insolvent is honest it does not matter much where his property is; it can be realised or reduced into possession; if he is dishonest, it is equally difficult to get possession of or realise his property, wherever it may be.

In the case of moveable property also, if the Official Assignee has to take proceedings to get possession, he must prove his title like any other person.

Mr. Muir Mackenzie in advising the Board of Trade in 1900 on the question whether section 118 of the Bankruptcy Act of 1883 required alteration relates an instance of an Indian Official Assignee attempting to obtain possession of moveable property in England belonging to an Indian insolvent which shows that a vesting order even under the present Act has not always the immediate effect of enabling the official assignee to get possession. Mr. Muir Mackenzie says—

"In each case (as it appears to me) it must be a question for the Colonial Court to which application is made for the enforcement of a claim to property within the jurisdiction of the Court, to decide whether the applicant is or is not entitled to the property to which he asserts a claim; and this principle must apply to a claim by a trustee in bankruptcy outside the colony as to any other claim. I will put a perfectly simple case taken from papers which have been recently before me. A person who was originally English went to India, acquired an Indian domicile and became bankrupt in India. During the continuance of the bankruptcy some personal property in England devolved in England on the bankrupt.

The Indian assignee sent over to England a power-of-attorney to a person in England to represent him, who in the name of the assignee asserted a claim to the property. The claim was disputed by the trustees by whom the property in question is held in trust and the matter is now pending. The court here must be satisfied first of all of the title of the Indian assignee; and secondly, that the property which is in dispute has devolved upon the bankrupt during the bankruptcy; and thirdly, that in the circumstances it is property which has vested in the Indian assignee by virtue of the general principles which apply to cases of the kind."

Before the Bankruptcy Act of 1869 the question whether an Official Assignee by virtue of his vesting order could get possession of or dispose of property outside the jurisdiction of the Court appointing him, depended mainly on the domicile of the insolvent. It seems doubtful in the case of an insolvent not domiciled in India to what extent an Indian vesting order whether made under an Imperial Act or an Indian Act would be recognized as effecting a transfer of property outside British India, by a Foreign Court.

The decision of Sir W. M. James, L. J. in *re* Davidson's Settlement Trusts L. R. 15 Equity 383 shows that it would be recognized by a Court of Chancery in England as effecting a transfer of moveable property, provided that the insolvent had been adjudicated on his own petition. On the other hand from the decisions in *re* Blythman, L. R. 2 Eq. 23 and *re* Hayward, 1897, 1 Ch. 905 it would appear that the English Chancery Courts would not recognize the title of a Colonial Assignee of a non-domiciled insolvent adjudicated on a creditor's petition. Under section 218 of the Bankruptcy Act of 1861 the assignee or trustee of an Indian or Colonial insolvent residing or possessed of property in England, Ireland or Scotland, or in any other colony could apply for the adjudication of the insolvent to the Bankruptcy Court in England or the proper Court in Ireland or Scotland or such other colony. This provision was evidently intended to meet the case of an Indian or Colonial insolvent possessing assets in England, or elsewhere within the British Empire, and the fact that the Indian Insolvency Act was an Imperial Statute was probably overlooked. This section was not reproduced in the Bankruptcy Act of 1869, for section 74 of that Act for the first time imposed on every British Court exercising jurisdiction in bankruptcy or insolvency the obligation to act as auxiliary in all matters of bankruptcy at the request of another such Court. Thus the necessity for concurrent adjudications was removed and all these questions whether the bankrupt was domiciled or non-domiciled, whether the property was moveable or immoveable or whether the bankrupt had been adjudicated on his own or on a creditor's petition were relegated to the back ground.

Section 74 of the Bankruptcy Act of 1869 was reproduced in the Bankruptcy Act of 1883 by section 118 and the decisions of the Courts show that any British Court exercising bankruptcy jurisdiction, provided that concurrent proceedings are not pending before it, will now give effect as far as it can to the vesting order of another British Bankruptcy Court. The only difference being that in those cases in which the vesting order would not be recognized as effecting by itself a transfer of property, the title of the Official Assignee will commence from the date of the order of the Court acting as auxiliary instead of from the date of the vesting order.

Mr. Muir Mackenzie says, "If the laws which are in force in any particular colony are not effective to enforce in that colony the right of trustees of the properties of persons who

have become bankrupt in the United Kingdom or in other colonies, it may be expedient to amend the laws of that particular colony, but it appears to me that as regards the general law, the existing Imperial Legislation coupled with the principles which are laid down in the decisions of the Courts are sufficient. . . Lastly as regards section 118 of the Bankruptcy Act, I cannot advise that it requires amendment. The section is used often in practice in this country to enable a local Court to obtain the aid of the High Court or of another local Court, and also less frequently to enable the Courts in the colonies and India which exercise insolvency jurisdiction to obtain the aid of the High Court here or to enable the High Court here to obtain the aid of the Colonial Court. No difficulty has, as far as I am aware, been found in making the provisions of the section work effectively."

The acting Official Assignee of Bombay has failed to take into account certain recognized principles of private international law and he is also under the erroneous impression that section 118 of the English Bankruptcy Act of 1883 will not apply to the Courts which will be given insolvency jurisdiction by the Bill. The wide scope of this section has not been properly realised in India.

Mr. Read, the Official Assignee of Madras, estimates far more correctly the advantages which exist under the Act, though he may not have had so much experience of insolvents with assets in such colonies as Hongkong, the Straits Settlements, Mauritius and British East Africa as the Bombay Official Assignees, since he refers only to insolvents having assets in England. He points out that sections 77 to 80 of the Act provide for concurrent bankruptcies in India and England, and enable any creditor of an Indian insolvent to sue out a fiat of bankruptcy in England within two months after notice of the insolvency has been given in the London Gazette, and the assignee under the fiat would be entitled as from the date of the issuing of the fiat to all property of the insolvent outside the limits of the Charter of the East India Company which had not been taken possession of by the Indian assignee, so that the effect of the Indian vesting order is liable to be curtailed by concurrent bankruptcy proceedings in England, provided the insolvent is subject to the bankruptcy laws then in force in England. Mr. Read says, "If the vesting clause was wide enough, and there were no concurrent proceedings in England, I think it would be recognized by the English Courts and given effect to. As has been pointed out, there is no reason why it should not be given effect to in any suitable case, as for instance when the insolvent has no creditors in England. It is only in simple cases of that kind that the Act is even now practically effective, since if there are any creditors in England concurrent proceedings are invariably instituted. I am of opinion that in practice we get very few of the advantages which the present Act gives us on paper as regards English assets, and that it is probable that in such cases as they are now effective they would continue to be so under the new Act, particularly if the vesting order clause was extended to include property wherever situate."

This argument appears to be perfectly sound, though it should be noted that the fact that an Indian insolvent had creditors in England would not by itself give the English Courts jurisdiction. There is no reason why the vesting order in the Bill should not be made as wide as possible, and objections which may be raised in particular cases outside British India can be dealt with on their merits as they arise. A precedent can be found in the New Zealand Bankruptcy Act, 1892 (56 Vict. No. 24) which enacts that "upon adjudication the property of the bankrupt whatsoever and wheresoever situate shall vest in the Official Assignee of the Court in which the order of adjudication was made, as such assignee." The vesting order under the English Bankruptcy Act purports to vest immovable property in foreign countries, and to that extent would certainly not be effective unless especially recognized by the law of the foreign country in which the property was situate.

Disregarding for the moment the provision of section 118 of the Bankruptcy Act of 1883 the only case in which present advantages will be surrendered by the exchange of an Indian Act for an Imperial Statute is that of a domiciled insolvent having immoveable property in the British Empire outside British India. This very rarely occurs, but insolvents often own immoveable property situate in Native States. Though the vesting order under the Act purports to vest property wherever situate, it is obvious that it cannot operate as a transfer of immoveable property outside the British Empire and even in the case of immoveable property within the Empire the requisition of any local law will have to be complied with. Even if the local law recognized a transfer by the Official Assignee, he would find it almost impossible to dispose of the property without the concurrence of the insolvent. The power now given to the Court to compel an insolvent to execute a conveyance of immoveable property in favour of the Official Assignee together with the right of the Court under section 118 of the Bankruptcy Act to seek the aid of any other British Court exercising insolvency jurisdiction should be sufficient to enable the Official Assignee to realise such property wherever situate, whereas the advantages now possessed owing to the vesting order operating as a statutory transfer of immoveable property within the Empire but outside British India are of very slight value. Such as they are, it may safely be assumed that the commercial community will readily give them up in consideration of the advantages which they will obtain under the Bill.

Lastly, it is necessary to compare the advantages which now accrue to a debtor under the Act, as compared with those which he will possess under an Indian Act.

As regards the protection of his person from arrest or detention pending the insolvency proceedings, there will be no change if the Bill is amended as proposed. As now his person will be protected provided he conforms to the provisions of the Act and is not guilty of inordinate delay. As regards the proceedings for a discharge there will be a change. Under the present Act he has first to serve his creditors with notices for a first hearing of his petition. At the first hearing he can get his personal discharge, which will protect him from arrest in respect of all demands inserted in his schedule or established in the Court. But judgment can be entered up against him in the name of the Official Assignee for the amount of the debts stated in the schedule as due and of such as have been established in Court. The vesting order still remains effective as regards any after-acquired property. Afterwards the insolvent if a non-trader, provided his estate has paid one-third of his debts, can proceed to get a discharge in the nature of a certificate by following the procedure laid down under section 59, which will discharge him personally and also his after-acquired property from the demands of all the creditors named in the order *nisi*. Still if judgment has been entered up against him under section 86 the Court may give leave for such decree to be executed. If the insolvent is a trader, he can get a discharge in the nature of a certificate from all demands which would be discharged by a certificate under the Bankruptcy Laws granted under a fiat bearing even date with the insolvent's petition or with the adjudication, as the case may be, and such a discharge has been held to be a discharge from all debts provable in insolvency, whether mentioned in the schedule or not. The Court, however, can direct notices to be served on creditors and can limit the effect of the discharge as it thinks fit. Still if judgment has been entered up under section 86 the Court may order execution to be taken out upon such judgment. In Bombay it has always been the practice to enter up judgment against every insolvent at the time of granting him his personal discharge, so that a discharge in the nature of a certificate only causes the vesting order to cease being effective as regards his after-acquired property. With the leave of the Court it can always be attached in execution of such judgment.

Further, under the present Act, if concurrent proceedings have been instituted in England, the discharge under sections 59 or 60 will only operate as regards creditors residing within the limits of the Charter of the East Indian Company, and the insolvent would have to get a certificate from the English Bankruptcy Court to release him from the claims of any other creditors, by virtue of the provisions of section 83.

It is proposed by the Bill that an insolvent whether a trader or not will be able to get an unconditional discharge at the first hearing against all debts provable in insolvency. The only question is what effect would be given to such an order of discharge by the Courts in England or the Colonies. If the debt or liability has been contracted or has arisen or is to be paid or satisfied in British India, the discharge of the Indian Courts will be recognized by the Courts in England and the colonies. It will also be recognized by foreign courts under the principles of private international law adopted in other countries.

If the debt or liability has been contracted or has arisen or is to be paid or satisfied outside British India, the discharge of the Indian Courts will not operate as a discharge in England or elsewhere.

Such debts or liabilities will not often appear in the schedules of Indian insolvents, and even under the Act they cannot get their discharge from the claims of creditors residing outside the limits of the Charter, if concurrent proceedings have been instituted in England. If there are assets in India, foreign creditors will in all probability prove in the Indian insolvency proceedings; if there are no such assets, they are not likely to trouble the insolvent. In any event they could not do so as long as he remained in British India. To counterbalance this an insolvent will be able to get his discharge from his Indian debts, and unless judgment has been entered up against him will be freed from all liability as regards his after-acquired property by a simpler and more expeditious procedure than at present.

Further it is proposed to amend the Bill so as to limit the power of the Court to enter up judgment against an insolvent to those cases only in which one or more of certain facts have been proved against an insolvent seeking his discharge.

It may therefore be safely assumed that the advantages which will accrue to an honest insolvent under the proposed Indian legislation will be considerably greater than those he now possesses under the present Act.

PART II.

The principal advantages which will be secured by the Presidency Towns Insolvency Bill.

General.

1. Insolvency Law for India will be laid down concisely according to the methods of modern drafting as compared with the cumbrous and verbose method employed in the Act of 1848.

2. The interests of creditors will be properly protected, whereas the main object of the Act of 1848 was to relieve insolvent debtors.

Acts of Insolvency.

3. The Acts of Insolvency on which a creditor can petition under the Act of 1848 are so limited that it is difficult for a creditor to bring his debtor into the insolvent court before he has made away with his assets. Available acts of insolvency will now be extended so as to correspond with the Acts of Bankruptcy under the English Act with the exception of the refusal to comply with a bankruptcy notice.

Title of the Official Assignee.

4. The title of the Official Assignee will relate back to the date of the first act of insolvency proved to have been committed within three months preceding the date of the petition on which an order of adjudication is made, instead of only to the date of the filing of the petition.

Facilities for getting possession of concealed property.

5. Increased powers will be given to the Court to compel the attendance of persons suspected of having in their possession property belonging to an insolvent, and to procure the production of such property by issue of search warrants.

Public examination of Insolvents.

6. In every insolvency to which the summary procedure is not applicable the insolvent will be publicly examined in open Court.

Duties of Insolvents

7. The duties of an insolvent are clearly defined by the Bill and wilful failure to comply with any of them is made punishable as a contempt of Court. This is not the case under the Involvency Act. If an insolvent does not disclose his affairs or assist the Official Assignee a special order has to be obtained from the Court, and the order has to be served personally on the insolvent before any proceedings in contempt can be instituted.

Functions of the Official Assignee.

8. The powers and duties of the Official Assignee will have relation both to the conduct of the insolvent and to the administration of his estate. Under the Insolvency Act his functions are limited to the collection and distribution of assets.

Meetings of creditors.

9. Express provision is made for meetings of creditors, and the procedure to be followed at such meetings is prescribed by rules.

Composition and schemes of arrangements.

10. Under the Insolvency Act the Court has no power to scrutinize arrangements between insolvents and their creditors. Negotiations take place without the cognizance of the Court or of the Official Assignee, and it is only when all the creditors have agreed to a composition, that the insolvent comes to Court for leave to withdraw his petition, or for an order to revoke his adjudication. A minority of creditors can hold out for higher terms to induce them to consent, and a dishonest insolvent can escape from having his conduct investigated by the Court.

Under the Bill a proposal for a composition will first have to be circulated to all the creditors and considered by the Official Assignee. A majority of creditors will have the power to bind the minority, and finally the proposals of the insolvent must be approved by the Court.

Arrest of insolvents.

11. The Court will have power under certain circumstances to issue a warrant for the arrest of an insolvent.

Redirection of insolvent's letters.

12. The Court will have power to order the redirection to the Official Assignee of letters addressed to insolvents.

Restriction of rights of execution creditors.

13. The rights of execution creditors will be restricted. For many years it was considered that only attachments before judgment were affected by a vesting order and that attachments after judgment were good as against the Official Assignee. Recent decisions of the High Courts have enabled the Official Assignee to recover property attached after judgment but not realised by sale before the date of the vesting order, and the Bill will give effect to these decisions.

14. Express provision is made for the proof of debts, whereas under the Act, the English Law in force for the time being on the subject has to be applied by virtue of section 40. This has been found to work most unsatisfactorily. For instance it has been held in India that section 40 does not make the English Bankruptcy Rules as to proof of debts applicable.

Proof of debts.

15. The Bill provides for the disclaimer of onerous property by the Official Assignee in the same terms as the English Bankruptcy Act.

Disclaimer of onerous property.

16. It is proposed to enable a petition to be presented by or against a firm, instead of by or against the individual partners. Under the Insolvency Act a partner residing outside the local limits of the Court cannot join in a petition with his partners who reside within those limits unless he is in jail within those limits.

Petitions by or against a firm

17. Provision is made in the Bill for the appointment if considered desirable of a committee of inspection which can be given by rules certain powers to control the proceedings of the Official Assignee.

Committee of inspection.

18. The Bill makes it an offence for an undischarged insolvent to obtain credit for any sum over fifty rupees without disclosing that he is an undischarged insolvent.

Obtaining credit by an undischarged insolvent.

19. The Bill provides for the summary administration of small insolvencies.

Summary administration.

20. The Bill provides for the administration in insolvency of the estates of persons dying insolvent.

Administration of estates of persons dying insolvent.

21. The Rules made by the Courts will require only the sanction of the Governor General or the Local Government instead of having to be confirmed by His Majesty the King.

Powers of the Courts to make rules.

22. Under the Bill an insolvent will no longer have to make separate applications for a discharge to protect his person and a discharge to protect his property. At any time after his public examination he will be able to apply for an absolute discharge.

Discharge of insolvents.

At the same time it will be the duty of the Official Assignee to report to the Court regarding his conduct. The opposition therefore to an insolvent's discharge will mainly proceed from the Official Assignee, instead of being left in the hands of the creditors. The report of the Official Assignee will be *prima facie* evidence, and proceedings on applications for discharge will be considerably shortened.

23. It is proposed to retain the original criminal jurisdiction now possessed by the Insolvent Courts but to regulate the procedure under which charges of a criminal nature can be brought against an insolvent and disposed of by the Court. Under the Act when an insolvent applies for his personal discharge, the Court can either deal with the grant or suspension of his discharge or try the question whether he has been guilty of an offence under the Act. No rules of procedure suitable for a criminal trial have been formulated and the Official Assignee has no voice in the proceedings. Under the Bill proceedings against an insolvent for offences under the Act will be quite distinct from proceedings on his application for his discharge. He will receive proper notice of the specific offences with which he is charged, and the procedure at the hearing of the charges will be governed by certain provisions of the Criminal Procedure Code.

Criminal jurisdiction of the courts.

In the latter case he may be admitted as a petitioning credtor to the extent of the balance of the debt due to him after deducting the value so estimated in the same way as if he were an unsecured creditor.

(*5*) *The Court may make an order of adjudication if it is satisfied with the proof above referred to, or if on a hearing adjourned under sub-section (3) the debtor does not appear and service of the petition on him is proved, unless in its opinion the petition ought to have been presented before some other Court having insolvency jurisdiction.*

(*6*) Where the debtor appears on the petition and denies that he is indebted to the petitioner, or that he is indebted to such an amount as would justify the petitioner in presenting a petition against him, the Court, on such security (if any) being given as the Court may require for payment to the petitioner of any debt which may be established against the debtor in due course of law, and of the costs of establishing the debt, may, instead of dismissing the petition, stay all proceedings on the petition for such time as may be required for trial of the question relating to the debt.

(*7*) Where proceedings are stayed, the Court may, if by reason of the delay caused by the stay of proceedings or for any other cause it thinks just, make an order of adjudication on the petition of some other creditor, and shall thereupon dismiss, on such terms as it thinks just, the petition on which proceedings have been stayed as aforesaid.

* * * *

(*2*) A debtor's petition shall not, after presentation, be withdrawn without the leave of the Court.

(*3*) The insolvent may at the meeting amend the terms of his proposal if the amendment is in the opinion of the * *official assignee* calculated to benefit the general body of creditors.

(*4*) *Any creditor who has proved his debt may assent to or dissent from the proposal by a letter, in the prescribed form, addressed to the official assignee so as to be received by him not later than the day preceding the meeting, and any such assent or dissent shall have effect as if the creditor had been present and had voted at the meeting.*

[53 & 54 Vict., c. 71, s. 3, Act III of 1907, s. 27.]

Approval of proposal by Court.

29. (*1*) The insolvent or the official assignee may after the proposal is accepted by the creditors apply to the Court to approve it, and notice of the time appointed for hearing the application shall be given to each creditor who has proved.

(*2*) *Except where an estate is being summarily administered or special leave of the Court has been obtained, the* * application shall not be heard until after the conclusion of the public examination of the * *insolvent*. Any creditor who has proved may be heard by the Court in opposition to the application notwithstanding that he may at a meeting of creditors have voted for the acceptance of the proposal.

(*3*) The Court shall before approving the proposal hear a report of the official assignee as to the terms thereof and as to the conduct of the * *insolvent* and any objections which may be made by or on behalf of any creditor.

(*4*) Where the Court is of opinion that the terms of the proposal are not reasonable or are not calculated to benefit the general body of creditors or in any case in which the Court is required to refuse the insolvent's discharge, the Court shall refuse to approve the proposal.

60. (*1*) Where an insolvent is an officer of the Army or Navy or of His Majesty's Royal Indian Marine Service, or an officer or clerk or otherwise employed or engaged in the civil service of the Crown, the official assignee shall receive for distribution amongst the creditors so much of the insolvent's pay or salary *liable to attachment in execution of a decree as* the Court may * direct.

Provided always, that where the property disclaimed is of a leasehold nature, the Court shall not make a vesting order in favour of any person claiming under the insolvent, whether as under-lessee or as mortgagee except upon the terms of making such person subject to the same liabilities and obligations as the insolvent was subject to under the lease in respect of the property at the date when the insolvency petition was filed, and any under-lessee or mortgagee declining to accept a vesting order upon such terms shall be excluded from all interest in and security upon the property, and if there is no person claiming under the insolvent who is willing to accept an order upon such terms, the Court shall have power to vest the insolvent's interest in the property in any person liable either personally or in a representative character, and either alone or jointly with the insolvent, to perform the lessee's covenants in such lease, freed and discharged from all estates, incumbrances and interests created therein by the insolvent.

(*2*) *The Court may, if it thinks fit, modify the terms prescribed by the foregoing proviso so as to make a person in whose behalf the vesting order may be made subject only to the same liabilities and obligations as if the lease had been assigned to him at the date when the insolvency petition was filed, and (if the case so requires) as if the lease had comprised only the property comprised in the vesting order.*

QUESTIONS AND ANSWERS.

The Hon'ble MR. DADABHOY asked:—

" Is it a fact that the Irrigation Commission of 1901-03 recommended a total expenditure on construction of 44 crores of rupees in twenty years, beginning from April 1905? Will the Government be pleased to state the total amount of actual expenditure on construction of irrigation works, major and minor, since April 1905? Does it fall short of the expenditure recommended by the Commission? If so, will Government, in making allotments for the next year, be pleased to make up the shortage of past years, besides providing for the full average annual expenditure recommended? "

The Hon'ble MR. MILLER replied:—

" The Irrigation Commission's forecast of expenditure on construction of major works was, as the Hon'ble Member states, 44 crores of rupees in twenty years. This estimate did not refer to works in Burma.

" The actual expenditure in construction corresponding to the forecast, that is, the expenditure on major works omitting Burma, has been :—

	Lakhs.
1905-1906	115
1906-1907	160
1907-1908	178
1908-1909 (revised estimate)	199

" The average expenditure under the forecast would be 220 lakhs a year. The actual expenditure therefore falls short of the forecast, and it has always been foreseen that it necessarily would do in the early part of the twenty years' period. As a matter of fact, what has happened is that the scope for productive public works has been found to be much greater than the Commission expected, and the expenditure on such works has been in excess of the forecast, while the expenditure on protective works has been much less. It would take too long to explain in detail why this has been the case in reply to a question, but I hope to return to the subject in connection with the Budget I may, however, say that it would be out of the question to make up for the shortage of past years in making allotments for next year; the money could not be spent. All we can hope for is that the progressive approach which has since 1905 been made towards the Commission's forecast will be maintained in the coming year.

" As regards minor works the Commission made no definite forecast and no comparison is therefore possible. The greater part of this expenditure is under the control of Local Governments, and the total amounts to from 130 to 140 lakhs a year, including maintenance as well as construction charges."

The Hon'ble Mr. DADABHOY asked: —

" In view of the remarks made by the Hon'ble Finance Member in the Financial Statement for 1906-07 about the Mahanadi Canal in the Raipur District, the admitted frequency of famines in the Central Provinces, and the utility of the project as a protective measure, will the Government, in making allotments for irrigation works for the year 1909-10, be pleased to consider the desirability of starting the work, and to make a substantial allotment for the purpose?

" Is a scheme now ready for execution? If so, what time will be necessary for the completion of the work? How is the total estimated cost of 95 lakhs of rupees to be distributed over the period?"

The Hon'ble MR. MILLER replied :—

"The Government of India fully recognise the necessity for protective irrigation works in the part of the Central Provinces to which the Hon'ble Member refers, and a project for a canal to utilise the waters of the Mahanadi was drawn up some years ago. The Secretary of State, however, to whom it was referred, thought it desirable to have the data re-examined and further information collected before authorizing the expenditure of public funds on a work of this magnitude. In revising the project our Engineers have widened its scope, and have prepared a great scheme the total cost of which will be over two crores of rupees for utilizing the waters both of the Mahanadi and the Tendula rivers. The Government of India have been unable to accept the estimates of the Mahanadi part of this project as altogether satisfactory, but the other portion—the Tendula project—can be dealt with by itself. It appears to the advisers of the Government of India to be a promising scheme, and though not of equal protective value to the Mahanadi part of the project to offer many advantages in other respects.

"This scheme, the estimated cost of which is 95·73 lakhs, is, as far as the engineering details go, ready for execution. It has, however, to be approved of and sanctioned by the Secretary of State. The time allowed for completion of the project in the estimates is six years. I am unable to say how the cost will actually be distributed, but the scheme contemplates the expenditure of—

12·11 lakhs in the first year.
18·82 " " second "
18·82 " " third "
18·73 " " fourth "
18·67 " " fifth "
8·58 " " sixth "

"As the scheme has not yet been sanctioned, it is impossible to hold out any hope of a substantial allotment for it in the budget of 1909-10."

The Hon'ble MR. DADABHOY asked :—

"Has the attention of Government been drawn to a Resolution of the Indian Industrial Conference held at Madras in December last, praying for the abolition of the countervailing duty upon cotton manufactured in India?

"Is the Government aware that there is at present a general depression in the Indian cotton industry?

"In view of these facts will Government be pleased to at least suspend the impost for a period, especially when it is not wanted for revenue purposes?"

The Hon'ble MR. MILLER replied —

"Government have received copies of the Resolutions passed at the last Indian Industrial Conference referred to by the Hon'ble Member. They are also aware that there is at present some depression in the Indian power-loom industry; but they have no reason to believe that this depression is in any way due to the excise duty of 3½ per cent. levied on cotton goods manufactured in Indian mills. Government cannot hold out any hope of action in the direction suggested by the Hon'ble Member."

The Hon'ble Mr. DADABHOY asked :—

"Has Government finally decided upon a scheme for the separation of judicial and executive functions in this country, on the lines laid down by the Hon'ble Home Member last March?

"When will the reform be tentatively introduced into the two Bengals?"

The Hon'ble Sir HARVEY ADAMSON replied :—

"The reply to the first question is in the negative. The Government of India have referred to the Lieutenant-Governors of Bengal and Eastern Bengal

and Assam and the High Court of Calcutta proposals for introducing into selected districts of Bengal and Eastern Bengal and Assam, by way of experiment, a scheme for the separation of judicial and executive duties. When all the replies have been received, the scheme will be further examined by the Government of India and a reference will be made to the Secretary of State. It is impossible to say at present when final orders on the proposal will be passed."

The Hon'ble MR. DADABHOY, on behalf of the Hon'ble SIR KHWAJA SALIMULLA, asked :—

" Will Government be pleased to state whether Kashmiris are eligible for military service as soldiers? If so, how many are on the active list as soldiers in the Indian Army?"

His Excellency THE COMMANDER-IN-CHIEF replied :—

" There is nothing to debar the enlistment of Kashmiris in the Indian Army, but as the class composition of units does not specifically include them, none are enlisted."

The Hon'ble MR. DADABHOY, on behalf of the Hon'ble SIR KHWAJA SALIMULLA, asked :—

" Will Government be pleased to state whether Kashmiris residing and living in Amritsar and the borders of Kashmir are included in the definition of 'cultivators' in the Punjab Alienation Bill? If not, will Government be pleased to state why not?"

The Hon'ble MR. MILLER replied :—

"The Hon'ble Member's question indicates some misapprehension as to the effect of the law relating to the alienation of land in the Punjab. The Punjab Land Alienation Act has never contained any definition of the term 'cultivator'. Under section 4 of the Act as amended in 1907, the Local Government is empowered to determine by notification what bodies of persons in any district or group of districts are to be deemed to be agricultural tribes or groups of agricultural tribes for the purposes of the Act. It is presumed that the object of the Hon'ble Member's question is to ascertain whether Kashmiris residing and living in Amritsar and the borders of Kashmir have been notified as an agricultural tribe. The notifications issued by the Local Government under section 4 of the Act have been examined. They do not include any tribes or groups of tribes described in the manner specified in the question. Applications from persons desirous of being notified as an agricultural tribe for the purposes of the Act should be submitted to the Local Government, which is empowered by the law to decide such questions without reference to the Government of India and to which a copy of the question and of this reply will be forwarded."

The Hon'ble MR. DADABHOY, on behalf of the Hon'ble SIR KHWAJA SALIMULLA, asked :—

" Will Government be pleased to have prepared and placed on the Council Table, by as early a date as convenient, a statement showing the Commissions of enquiry instituted by Government, from that of the Police Commission up to that of the Decentralisation Commission, and the cost incurred in and on account of each such Commission?".

The Hon'ble SIR HARVEY ADAMSON replied :—

" A statement as desired by the Hon'ble Member is being prepared and will be placed on the table as soon as possible."

The Hon'ble MR. DADABHOY, on behalf of the Hon'ble SIR KHWAJA SALIMULLA, asked :—

" Will Government be pleased to state at what stage the question is of the necessity of legislation in the matter of the Registration of Partnerships, advocated by the Bengal Chamber of Commerce some four years ago?"

The Hon'ble SIR HARVEY ADAMSON replied:—

"The following papers, copies of which have been placed on the table, explain how matters stand:—

1. Letter to the Bengal and Bombay Chambers of Commerce, Nos. 886-7, dated the 6th July 1908.
2. Letter from the Bombay Chamber of Commerce, No. 1016, dated the 14th September 1908.
3. Letter from the Bengal Chamber of Commerce, No 1727, dated the 6th November 1908.
4. Letter to the Bengal and Bombay Chambers of Commerce, Nos. 33-4, dated the 6th January 1909."

The Hon'ble MR. DADABHOY, on behalf of the Hon'ble SIR KHWAJA SALIMULLA, asked:—

"Will Government be pleased to state whether the attention of the Department of Commerce and Industry has been drawn to the comments in the issues of the *Truth* newspaper of the 21st October and 4th November last, regarding the Anglo-Indo-European Trading Society, Limited, whose aim and object have been declared by the Secretary to be of 'a patriotic and political move against Anglo-Indian despotism and oppression'. If so, is the company registered in India?"

The Hon'ble MR. MILLER replied:—

"Government have seen the comments in the issues of the *Truth* newspaper of the 21st October and the 4th November last, regarding the Indo-European Trading Society, Limited, to which the Hon'ble Member refers. It appears from those comments that the Society is registered in England under the Industrial and Provident Societies Act, 1893 (56 & 57 Vict., c. 39). So far as Government is aware, the Society has not been registered as a Company in India."

The Hon'ble MR. DADABHOY, on behalf of the Hon'ble SIR KHWAJA SALIMULLA, asked:—

"Has the notice of Government been drawn to the comments of the Press in India as to the necessity of legislation to check and control the formation of commercial and industrial undertakings with little or no capital, the chief aim and object of which really is the formation of bogus companies for the benefit and advantage of company promoters?"

The Hon'ble MR. MILLER replied:—

"Government have observed certain comments of the Press in India regarding the alleged formation of bogus companies for the benefit and advantage of company promoters."

The Hon'ble MR. DADABHOY, on behalf of the Hon'ble SIR KHWAJA SALIMULLA, asked:—

"Will Government be pleased to take early steps for the consideration of such legislative measures as may help to the encouragement and formation of healthy and stable commercial and industrial undertakings in India?"

The Hon'ble MR. MILLER replied:—

"The consolidation of the various English Companies Acts is now engaging the attention of His Majesty's Government. When the result of their action is known the Government of India propose to consider what improvements are necessary in the Indian Companies Act."

The Hon'ble MR. DADABHOY, on behalf of the Hon'ble SIR KHWAJA SALIMULLA, asked:—

"Will Government be pleased to state whether any of the Trade Associations or Chambers of Commerce of the country have memorialised against the

introduction and establishment of the value payable parcel post with England, and, if so, which of them, and what action has been taken by Government on such memorial or memorials?"

The Hon'ble Mr. MILLER replied:—

"All the Trades Associations and Chambers of Commerce were asked for their views on the scheme proposed by the British Post Office for the introduction of a 'cash-on-delivery' parcel service between India and the United Kingdom. The replies which have been received show that the Trades Associations are unanimously opposed to the scheme. The Bombay and Bengal National Chambers of Commerce have expressed opinions adverse to the proposal, and it is understood that the Upper India Chamber of Commerce, whose reply has not been forwarded by the Government of the United Provinces, is also opposed to it.

"After full consideration, the Government of India have informed the Secretary of State that they do not wish to participate in the scheme."

PRESIDENCY-TOWNS INSOLVENCY BILL.

The Hon'ble SIR ERLE RICHARDS: "My Lord, in the Report of the Select Committee on the Presidency-towns Insolvency Bill, which I now have the honour to present, there will be found a detailed statement of the amendments which are recommended to this Council. But I think it will be convenient if I call attention on this occasion to the principal points which arise on the report.

"On the whole the Bill has been well received. The representatives of the commercial communities who are specially affected by it, or at least the greater part of them, are in favour of its being passed into law forthwith. The Bengal Chamber of Commerce and the Calcutta Trades Association, the Chambers of Commerce of Bombay and of Rangoon, all approve. The Madras Chamber of Commerce take objection to a point of jurisdiction which is, we think, sufficiently met by the amendments we propose. The National Chamber of Commerce of Bengal have expressed the opinion that the working of the Bill would be expensive and we have inserted provisions to meet this point also.

"On the legal aspect of the Bill we have received valuable criticisms from the Courts who will have to administer it. The High Court of Madras and the Chief Court of Lower Burma are in favour of it. The High Court of Calcutta have made a number of suggestions which we have accepted almost in their entirety. The amendments proposed by the High Court of Bombay have also been generally adopted. The only objection taken to the Bill as a whole is one put forward by the latter High Court on the ground of the inability of the Indian Legislature to deal sufficiently with the matter of insolvency: a point to which I referred on a former occasion and on which I will say a word or two presently.

"The general effect of the amendments we have introduced is to bring the Bill more into line with existing practice. For instance the Bill as introduced provided that adjudication should be made only after service of the petition on the debtor; we recommend that the present practice should be preserved and that orders of adjudication should be made *ex parte* unless the Court otherwise directs. Under the Bill an adjudication order operated of itself to release a debtor from jail; we recommend that the present practice should be preserved and that debtors should not be released on adjudication but should be required to apply to the Court, as now, for a protection order. In the Bill the first meeting of creditors was compulsory; this was a new provision and was in our opinion too great a departure from the existing procedure. We recommend that such meetings should be held only in those cases in which the Court, on the application of a creditor or of an official assignee, should so direct. Under the Bill it was contemplated that the Court should have the power to commit all offenders for trial before a Magistrate. We think it desirable that the present insolvency practice should be preserved, and that while the Court should itself try insolvents charged with offences under the Act, insolvents and other persons charged with offences under the Penal Code

should be dealt with under the ordinary criminal procedure. We think that the procedure to be followed before the Court in trials for offences under the Act should be set out in the Bill.

" The other amendments are set out in the Report and it is not necessary to call attention to them now. There remains the point to which reference has been made as to the power of this Council to legislate in such a way as to give sufficient powers to official assignees to collect the assets of debtors which are outside British India, and to give sufficient effect outside British India to discharges granted by the Courts here. This subject is fully discussed in a note by our Hon'ble Colleague Mr. Macleod, the official assignee of Bombay, which is appended to the Report. There can be no doubt that under an Imperial Act, such as the one now in force, greater powers can be given to an official assignee and greater effect can be given to a discharge than is possible under an Indian Act; for an Imperial Statute operates throughout the British dominions, while an Indian Act can only operate in British India. But if the effect of an adjudication order under the present Act is compared with the effect of an adjudication order under this Bill, if it becomes law, it will in my opinion be found that the advantages of an Imperial Statute are of small practical value. I will not weary this Council with a disquisition which must be somewhat technical but I will content myself with pointing out that under section 118 of the English Statute of 1883, which in this respect has effect throughout the British Empire, every British Court acting in insolvency is bound to give effect to the orders of every other British Court in insolvency matters. It follows that vesting orders of Indian Courts made under an Indian Act would be given effect to by British Courts in all parts of the Empire even though they had not force of themselves without the endorsement of those Courts. The section has been proved effective by experience in regard to colonial bankruptcies. No difficulty has arisen in those cases in collecting the assets of a bankrupt beyond the jurisdiction of the Court by which he is adjudicated, at least, no complaint that I know of has been made on that ground, and I venture to think that the section will be found sufficient to enable an Indian official assignee to collect the assets of an Indian insolvent in the same way. The effect of it has, perhaps, been insufficiently considered in these discussions, and the Committee deem it advisable to call the attention of Courts to it by an express reference in the Bill. Clause 126, as amended by us, enacts that Indian Courts shall do what is necessary to give effect to section 118 of the English Act, and though, in strictness, such a provision may be superfluous, it will at least be a convenient reminder of the effect of the Imperial Act. I am not without hopes that a further consideration of this aspect of the question may lead those who have felt pressed by this objection to modify the views which they previously entertained. The Committee recommend that Parliament should be asked to pass a validating Act, that is to say, an Act to put vesting orders and discharges of the Indian Courts in the same position under the Bill, if it is passed into law, as under the existing Act. It is at least a fair proposal that the present position should be maintained in England. But they are unanimously of opinion that the Bill should be enacted, irrespective of that legislation, because they are convinced that the advantages to be gained under it will altogether outweigh any advantage which is to be obtained only by Imperial legislation, and, apart from that, no one can contemplate with equanimity the postponement of all reform in this branch of the law until such time as Parliament should choose to legislate for us.

" I desire, my Lord, in conclusion to express the thanks of the Committee to the Hon'ble Mr. Justice Fletcher of the High Court of Calcutta, who has been good enough to give us much valuable advice during our deliberations."

INDIAN PAPER CURRENCY (AMENDMENT) BILL.

The Hon'ble SIR GUY FLEETWOOD WILSON moved that the Bill to amend the Indian Paper Currency Act, 1905, be taken into consideration. He said:—" Hon'ble Members will recollect that this measure is intended to make our five-rupee currency note legal tender and encashable in Burma as well as

in the rest of India. The Bill has been published, I may mention, in all the local Gazettes including Burma, and no criticisms or objections have been received. It is a measure about which there can, I think, be no controversy, and there seems therefore no necessity to ask the Council to refer it to a Select Committee."

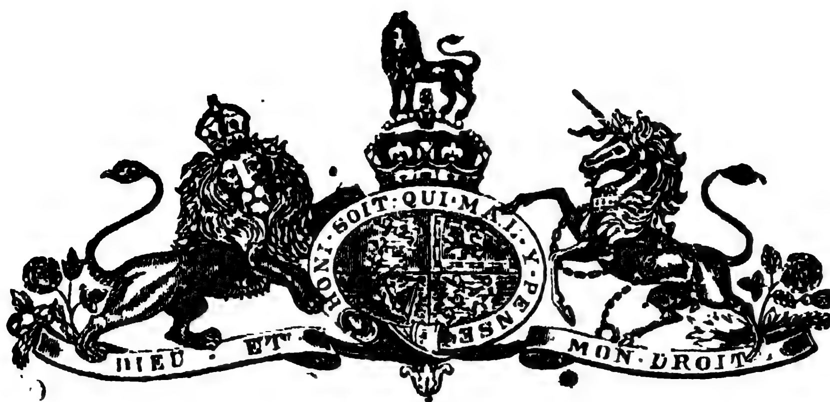
The Hon'ble MAUNG BAH TOO said:—"My Lord, I have much pleasure in supporting the Hon'ble Sir Guy Fleetwood Wilson's Bill. The adoption of the said Bill would confer a great boon on the travelling public and others. Great difficulty is experienced in changing notes of one circle in another, and now since the issue of gold sovereigns has been curtailed the travelling public and others find that they have to carry rupees to avoid the above-mentioned difficulty. But this has always been found to be bulky and inconvenient. In conclusion, may I be allowed to add that Burma herself will feel highly gratified to find that she will in future be enjoying the same privileges in this matter of five-rupee notes as her sister Provinces in India."

The motion was put and agreed to.

The Hon'ble SIR GUY FLEETWOOD WILSON moved that the Bill be passed.

The motion was put and agreed to.

WHIPPING (AMENDMENT) BILL.



The Hon'ble SIR HARVEY ADAMSON moved that the Bill further to amend the Whipping Act, 1864, and the Code of Criminal Procedure, 1898, be referred to a Select Committee consisting of the Hon'ble Sir Erle Richards, the Hon'ble Mr. Drew, the Hon'ble the Maharaja of Darbhanga, the Hon'ble Sir Muhammad Ali Khan of Mahmudabad, and the mover.

The motion was put and agreed to.

The Council adjourned to Friday, the 26th February 1909.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Rainfall summary for the seven days ending at 8 hrs. on Thursday, the 4th February 1909, based on the Indian Daily Weather Reports of the period.

The weather of the past week in northern India has been marked by large and sudden barometric changes indicating instability in pressure conditions. There was a considerable amount of cloud present, but in the absence of any well marked depression the resulting precipitation was in most cases light and local. The heaviest rain occurred on the Orissa coast and was due to a shallow low pressure area shown over the east of the Peninsula on the 31st January. The rainfall due to this disturbance occurred only in Orissa and the adjacent districts of Chota Nagpur and Bengal and did not extend into Eastern Bengal or Burma. On the 1st February a feeble disturbance from Persia entered Sind and passed rapidly across north-west India to the neighbourhood of the Simla hills, causing precipitation in Baluchistan and Kashmir and along the western Himalayas as far east as Muktesar. A few local falls of rain also occurred in Gujarat on the 2nd. Temperature was on the whole somewhat below normal and in the central parts of the country the air was drier than usual.

Burma.—Skies were clear or only lightly clouded and temperature was approximately normal.

North-east India including Orissa.—Moderately heavy rain was reported on the 1st February from the Orissa coast and light rain from the neighbouring districts and on the 2nd Saugor Island and Balasore each reported a quarter of an inch. While this period of disturbed weather lasted, there was heavy cloud in the south of the division, but during the remainder of the week skies were generally clear. Temperature was normal or in defect.

The United Provinces, Central India and the Central Provinces.—Muktesar, Chakrata, Dehra Dun and Roorkee reported light precipitation on the 2nd February and snowfall continued at Chakrata for the next two days Weather was dry and colder than usual during the first part of the week, but the disturbance which gave the precipitation in the extreme north-west of the United Provinces also caused the appearance of cloud accompanied by a rise in both humidity and night temperature over almost the whole division.

North-west India.—The disturbance from Persia gave snow in Baluchistan, Kashmir and the Punjab Himalayas, and on the 1st and 2nd was the cause of light scattered rain in the plains, falls of a tenth of an inch or over being reported from Rawalpindi, Sialkot, Lahore, Bhuj, Dwarka and Rajkot. Skies were generally clear or only lightly clouded in the southern half of the division, and moderately to heavily clouded in the northern. Temperature was on the whole lower than usual, especially in Kashmir.

The Peninsula.—Skies were clear or only lightly clouded. Temperature was in slight defect in the north of the Peninsula and normal in the south.

There was no rain in Assam, and the seasonal rainfall there, which up to the 19th January was normal, is now in defect. The deficiency hitherto shown in Orissa has been changed into a large excess and the rainfall of the past week in Gujarat was equal to the small amount usually expected in that division up to 4th February.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday, 30th January 1909.

Burma.—Small amounts of rain fell in three of the northern districts. Reaping of winter rice is nearly finished in the last few districts while threshing and winnowing operations are proceeding in the other districts. In Upper Burma the cultivation of spring rice and of other spring crops is progressing satisfactorily and the standing crops are in good condition. The price of unhusked rice has risen in four and has fallen in six districts.

Eastern Bengal and Assam.—There was very little rain during the week. Only a few very light showers have fallen in some places. Prospects of standing crops are fair but they are likely to suffer from want of moisture. Gathering of pulses and transplantation of summer rice still continue and reaping of cotton and rape crops is going on. The numbers on test relief works are :—Dinajpur 2,458; Rangpur 4,553 and Bogra 330; total 7,341. The average price of common rice has fallen by about 2 per cent. Cattle disease prevails in Backarganj, Rajshahi, Kamrup and Darrang.

Bengal.—Light showers fell in Chota Nagpur and in Lower Bengal and Orissa, except Hooghly, Jessore, Khulna and Cuttack. In Bihar there was practically no rain. A few scattered showers have been received in Shahabad, Saran, Muzaffarpur, Bhagalpur and the Sonthal Parganas. Ploughing of land has been facilitated and standing crops have been benefited by the recent rain. More rain is wanted in Bihar for spring crops. Prospects are not favourable in North Bihar, in Birbhum, Midnapore, Jessore and Khulna. Harvesting of early oilseeds and pulses is still going on in Nadia, Gaya, Shahabad, Saran, Muzaffarpur, Purnea, Balasore and Angul. Sugarcane pressing continues in Bihar, Orissa and Chota Nagpur. The condition of the poorer classes in North Bihar is affected by the scarcity. The price of common rice has risen in Burdwan, Bankura, Midnapore, Nadia, Murshidabad, Jessore, Saran and Manbhum; and has fallen in Patna, Shahabad, Bhagalpur, the Sonthal Parganas, Balasore, Puri and Singhbhum. Cattle disease is reported from Burdwan, Midnapore, Shahabad, Muzaffarpur, Darbhanga, Purnea, Sambalpur and Chota Nagpur, Singhbhum excepted. The fodder and water-supply is reported to be insufficient in parts of Purnea and the Sonthal Parganas. The number of persons on test and famine relief works in Darbhanga and Bhagalpur was 33,586. Gratuitous relief was given to 1,495 persons in Darbhanga, Bhagalpur and Purnea and 1,157 persons in Balasore and Puri.

United Provinces.—Rain has fallen in all districts except Mainpuri, Unao, Jalaun and Jhansi. Save in Dehra Dun and Garhwal the falls were mostly light but they have benefited standing crops. More rain is however urgently required in Fyzabad, Hardoi, Kheri, Jaunpur and Basti. Standing crops are in good or fair condition except in the dry tracts of Kheri and Fyzabad. Cattle disease is reported from nine districts. Water and fodder are adequate except in the Bikapur tahsil of the Fyzabad district. Prices have fallen in eleven districts and are stationary elsewhere.

The weekly report on the famine and scarcity is as follows:—The condition of workers is fair to good. Crime is normal. Three civil works and one poor house are open in Bijaigarh and four civil works in Kera Mangraur. People are resorting freely to works. The numbers on relief are :—On civil works 8,834; on gratuitous relief 1,526; in poor houses 66; dependants 950; total 11,376. Prices:—Bijaigarh 12½ and Kera Mangraur 13½ seers per rupee.

Punjab.—Light to moderate rain has fallen in all districts except Hissar, Ferozepore, Amritsar, Gujranwala and Jhang. More rain is urgently needed. Pressing of sugarcane and harvesting of *toria* still continue. The outturn of sugarcane is good and that of *toria* average. Spring crops are generally in good condition but only fair in the south-east in Lahore and Gujranwala and on unirrigated land in Shahpur and Mianwali for want of rain. The crops on unirrigated areas in Rohtak have been damaged slightly by frost. Extra spring crops are being sown in Gurgaon, Delhi and Mianwali. Prices are high and have risen slightly in some districts. Cattle are generally in good condition. Fodder is sufficient except in Hissar, Lahore, Amritsar, Sialkot, Gujranwala, Lyallpur, Jhang and parts of Gurgaon.

North-West Frontier Province.—No rain fell during the week except showers in the Bannu and Dera Ismail Khan districts. Rain is now badly wanted all over the Province for standing crops. The condition of standing crops is generally good. Pressing of sugarcane is still in progress in the Peshawar and Bannu districts and the outturn is reported to be average. Planting of sugarcane continues in Bannu. The water-supply in canals is sufficient. Fodder is procurable except in *Barani* tracts of the Bannu district. Cattle are generally in good condition except in 4 villages of the Nowshera tahsil in the Peshawar district. The public health is generally good but fever is still prevalent in the Swabi tahsil of the Peshawar district. Prices are fluctuating. Wheat sells from $8\frac{7}{16}$ to 10¼; gram from 10 to 11; maize from 12⅜ to 17¼ and *bajra* from 12½ to 13¾ seers per rupee.

Jammu.—There was slight rain. Prices are fluctuating. Wheat sells from 7 to 14 and maize from 13 to 20 seers per rupee. The condition of standing crops is good. Fodder is sufficient.

Kashmir.—The weather was snowy and severely cold. Fodder is sufficient. Prices are unchanged. There is no disease.

Rajputana.—Light showers not exceeding 15 cents are reported in parts of Bikaner, Jaipur, Alwar and Bharatpur. Standing crops have been damaged slightly by frost in parts of Mewar and by rats in the Beawar tahsil in Merwara. The season's prospects are favourable. The condition of cattle is generally good. Fodder is sufficient Prices on the whole are steady but high in many places.

Central India.—Slight rain fell during the week in Bundelkhand and *nil* elsewhere Harvesting of autumn crops is in progress in Malwa and is completed elsewhere. Sowing of spring crops is in progress in Gwalior, Bhopal, Malwa and Bhopawar and is completed elsewhere. Slight damage has been caused to crops by frost in Indore and by insects in Bhopal, Bundelkhand, Malwa and Bhopawar. Agricultural stock are satisfactory except in parts of Bhopal, Bundelkhand and Bhopawar. Prices are stationary but high. Opium is doing well except for slight damage in Malwa.

Central Provinces.—The weather has been warmer and occasionally cloudy. Light showers were received in Jubbulpore, Mandla, Seoni, Chindwara and Nagpur during the week. Some rain also fell in the interior of the Damoh, Seoni and Drug districts. These showers benefited the spring crops. Threshing and winnowing of autumn crops and picking of cotton are completed in most districts. The condition of standing crops is fair only in Nimar, Hoshangabad, Chhindwara, Chanda, Raipur, Bilaspur, Akola and Amraoti but generally satisfactory elsewhere. Cattle are doing well. Fodder and water are sufficient. Prices:—wheat in Jubbulpore; *juar* in Wardha and Akola; and rice in Drug and Raipur fell by ½ to 1 seer per rupee. *Juar* in Chanda; rice in Bilaspur and wheat in Mandla, Hoshangabad and Chhindwara became dearer by ½ to 1½ seers. Elsewhere prices remained stationary or fluctuated slightly exhibiting a tendency to fall. The number of weavers on relief was 1,630.

Feudatory States.—During the week Kawardha, Khairagarh, Raigarh, Sarangarh, Sakti, Sirguja and Korea received rain not exceeding 40 cents. Threshing and winnowing of autumn crops and pressing of sugarcane continue. Prospects are generally favourable. Fodder and water are adequate. Prices:—rice and *kodon* in Kawardha; wheat in Raigarh and rice in Sakti and Sirguja rose by ½ to 2½ seers per rupee. There are no marked variations elsewhere.

Bombay.—Slight rain fell during the week in parts of Sind, Kathiawar and Cutch. The rain was beneficial to standing spring crops. Crops have been damaged slightly by frost in parts of Sind, Ahmedabad, the Panch Mahals and Mahi Kantha and by disease in parts of Poona. They are suffering from want of moisture in parts of Thar and Parkar, Nasik, Ahmednagar and Sholapur. Cotton has been damaged by frost in parts of Hyderabad, Ahmedabad and Kathiawar. Crops are in fair to good condition elsewhere. Harvesting of autumn crops is completed in Belgaum; is almost over in Nasik, Satara and Dharwar and is in progress in parts of Broach, Surat, Ahmednagar, Baroda, Cutch and Rewa Kantha. Threshing is almost completed in Thana and Colaba and continues in parts of Kanara, East and West Khandesh and Palanpur. Picking of cotton has commenced in parts of Cutch and is in progress in parts of Hyderabad, Ahmedabad, Kaira, Broach and Kathiawar. Spring sowings are almost over. Harvesting of spring crops has commenced in parts of Nasik, Poona and Sholapur and is in progress in parts of West Khandesh and the Karnatak. The supply of fodder is adequate except in parts of West Khandesh, Bijapur and Belgaum. Agricultural stock are sufficient except in parts of the Deccan and Cutch and generally in good condition. The supply of drinking water is sufficient except in parts of West Khandesh, Nasik and Belgaum. Water for irrigation is sufficient except in parts of Hyderabad, Thar and Parkar, West Khandesh and Nasik. Prices of food grains continue

high. The quantity purchasable per rupee is in Sind 18 to 40 per cent; in Gujarat 20 to 62 per cent; in the Konkan 14 to 27 per cent; in the Deccan 17 to 46 per cent and in the Karnatak 32 to 83 per cent less than the normal. Stocks of grain are adequate. Labourers get sufficient field employment and wages are normal. One test work is in progress in Bijapur with about 700 workers. The cultivating and labouring classes are in fair condition.

Hyderabad.—There was no rain during the week. Picking of autumn cotton is nearing completion. The spring crop is being weeded in parts. The crop is generally in fair condition except in parts of the Raichur district and other isolated tracts. Suspension of revenue is being granted in the Raichur district. Late rice sowings are still in progress. The crop is fair but is reported to have been damaged by insects in parts of the Nalgunda district. Cattle disease is prevalent in three talukas. Prices:—wheat 5½; coarse rice 6¾ and *juar* 13 seers per rupee. White *juar* is selling in Hyderabad at 11¾ seers per rupee. The highest price in districts is 8¼ seers in the Paloncha taluka of the Warangal district and the lowest 24 seers in the Nagarkarnool taluka of the Mahboobnagar district.

Mysore.—Prices of food grains have fallen slightly in Hassan but are steady elsewhere. Paddy and minor dry crops are being harvested. Prospects of the season have not improved. Cattle are generally healthy except in some localities. Difficulty is experienced in procuring fodder in parts of the State. Scarcity of water is being felt in places and needful steps are being taken to deepen existing wells and sink new ones wherever necessary.

Coorg.—Threshing of rice and picking of coffee continue. Prices of food grains are high. The public health is fair. Water and fodder for cattle are sufficient.

Madras.—There was no rain during the week. Harvests continue with outturn poor to normal. Pasture is sufficient except in parts of the Circars, the Deccan, Tinnevelly, Malabar and South Canara. Fodder is scanty in parts of Anantapur, Cuddapah, Nellore and North Arcot. The condition of cattle is generally good. The price of rice is stationary in six districts and has fallen in seventeen. GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Rainfall summary for the seven days ending at 8 hrs. on Thursday, the 11th February 1909, based on the Indian Daily Weather Reports of the period.

Skies were clear and humidity unusually low over the greater part of the country during the past week. A shallow depression which appeared over the Bombay Deccan on the 4th moved northeastwards and gave a few falls of rain chiefly associated with thunderstorms in the north of the Central Provinces, the east of the United Provinces and in Bihar: on the morning of the 6th it had practically disappeared. During the remainder of the week weather was dry almost everywhere, light precipitation occurring only in Baluchistan, Kashmir and at a few stations in lower Burma. In the first two areas the precipitation was caused by another of the unimportant low pressure areas from Persia which have been so frequent this winter. The disturbance like many of its predecessors disappeared without giving any rain in the plains. The rain in lower Burma occurred only at Mergui and Moulmein and was due to an area of feebly unsettled weather which subsequently moved westwards across the Bay of Bengal and gave rain at the Andamans and Ceylon.

The rain given by the disturbance from the Bombay Deccan was followed by a very rapid fall of temperature, and maxima from 16° to 23° below normal were reported on the 6th from Hoshangabad, Jubbulpore, Sutna, Benares, Gaya and Patna. Temperature at the end of the week was approximately normal over the whole country.

Burma.—Rain fell at Mergui and Moulmein. Skies were clear or lightly clouded and temperature differed by only small amounts from the normal.

North-east India including Orissa.—Light showers of rain were reported from several places on the 6th, but Patna and Gaya were the only stations where as much as a tenth of an inch fell. Cloud was moderately heavy in the province of Bengal on the 6th: during the rest of the week skies were clear or only lightly clouded. Temperature was normal or in defect, a large deficiency occurring on the 6th in Bihar in consequence of rainfall.

The United Provinces, Central India and the Central Provinces.—Light rain fell at Hoshangabad, Seoni, Pendra and Benares. Skies were clear or only lightly clouded except at the beginning of the week when the disturbance from the Bombay Deccan gave cloud over the greater part of the division. Temperature was in defect on most days and was in very large defect at several stations in the area of rainfall on the 6th.

North-west India.—Light rain was reported from Baluchistan on the 7th and snow from Kashmir on the 9th. There was occasional cloud, but skies were clear during the greater part of the period. Temperature was on the whole either normal or in defect.

The Peninsula.—Skies were clear or only lightly clouded and temperature conditions were approximately normal.

The snowfall in Kashmir occurred entirely at stations for which no normals are available and therefore does not appear in the following table. The rainfall of the week was in excess of the small normal rainfall at the stations in the Bay, in lower Burma and in Bihar: in other parts of the country the departures from normal of seasonal rainfall show generally a larger defect or a smaller excess than at the close of the previous week.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday, 6th February 1909.

Burma.—Two inches of rain fell in Mergui and there was slight rain in Tavoy. Reaping of paddy is completed in all districts but two. Threshing and winnowing are in progress. In Upper Burma the cultivation of miscellaneous crops is progressing and standing crops are in good condition. The price of unhusked rice has fallen in three districts and has risen in two.

Eastern Bengal and Assam.—Light scattered showers have fallen in the Rajshahi division and in the Faridpur district and also in the extreme north-east corner of Assam but more rain is urgently needed for standing crops and for purposes of cultivation. Lands are being prepared for jute and other autumn crops. Transplantation of summer rice is in progress. Harvesting of mustard, pulses, cotton and sugarcane and pruning of and deep hoeing for tea are still going on. Prospects of standing crops are fair. The numbers on test relief works are :—in Bogra 346, in Dinajpur 2,702 and in Rangpur 5,304 ; total 8,352 The average price of common rice has fallen by about 1 per cent. Cattle disease is prevalent in Dacca, Backarganj, Sylhet, Kamrup and Darrang.

Bengal.—Light rain fell in all districts except in Howrah, Jessore, Champaran Darbhanga, Purnea, Darjeeling and Cooch Behar. The recent rain has been beneficial to the standing spring crops, and prospects have improved. More rain is, however, urgently wanted in North Bihar, where the condition of the spring crops is bad owing to want of sufficient moisture in the soil. Sugarcane-pressing is going on in Bihar, Orissa, and Chota Nagpur. Planting of the crop has commenced in some districts of Bihar. Preparation of lands for the next season's crops and harvesting of early oil-seeds and pulses continue. Some damage has been done by frost to *rahar* in Saran and Darbhanga and to tobacco in Muzaffarpur. There is distress amongst the poorer classes in parts of North Bihar owing to the scarcity. The price of common rice has risen in Shahabad, Champaran, Bhagalpur, the Sonthal Parganas and Singhbhum and has fallen in Bankura, Jessore, Gaya, Saran, Muzaffarpur, Monghyr, Darjeeling, Sambalpur, and Manbhum. Cattle-disease is reported from Birbhum, Midnapore, Nadia, Shahabad, Muzaffarpur, Darbhanga, Monghyr, Purnea, Puri, Sambalpur and Chota Nagpur, Singhbhum excepted. Fodder is insufficient in parts of Purnea and the Sonthal Parganas. The water supply is getting scarce in parts of Muzaffarpur, Monghyr, Purnea and the Sonthal Parganas. The number of persons on test-works in Darbhanga and Bhagalpur was 16,832, and gratuitous relief was given to 3,860 persons in Darbhanga, Bhagalpur, Purnea and Palamau, and to 677 persons in Balasore and Puri. The number of persons on famime relief works in Darbhanga was 24,471.

The weekly report on the famine and scarcity is as follows :—Darbhanga district.—In the declared areas—Workers, exclusive of dependants, 24,471 ; on gratuitous relief (*a*) dependants of workers 357 ; (*b*) in poor-houses 1,136, and (*c*) on village doles or other relief *nil*; total gratuitously relieved 1,493. Grand total on relief 25,964. Prices :—12½ seers per rupee.

The distress is growing more acute but it is being provided for adequately. The labouring classes and petty cultivators are chiefly affected. People are resorting to relief works freely. There is no organised wandering but beggars are very numerous. There is a large increase in petty crime. Some cases of emaciation among women and children in villages and also among labourers on relief works have been noticed. Workers are generally in fair condition. More works are required and will be opened shortly. Land Improvement loans are being freely given with good results. Several private aided works are in progress giving relief to about 6,000 persons daily. The public health is good.

In the observation areas, *viz.*, the Darbhanga, Madhubani and Khajauli thanas, test works are attracting large numbers. The physical condition of the people is rather bad.

United Provinces.—Rain has fallen in 27 districts but the amounts received have been insignificant except in Dehra Dun, Garhwal, Almora and Ghazipur. More rain is needed in a number of districts and urgently in Hardoi and Kheri. Prospects of unirrigated crops are unsatisfactory in Fyzabad and also in the northern portion of the Domariaganj tahsil of the Basti district where test works are about to be opened. Standing crops are backward in Etah and poor in part of Moradabad. Slight damage from frost is reported from six districts and from caterpillars in one, otherwise standing crops are in good or fair condition. Cattle disease is reported from ten districts. Fodder is deficient in the Mat tahsil of the Muttra district and in Fyzabad and the supply is running short in

NOTICE.

Notice is hereby given that in pursuance of a requisition of twelve qualified subscribers to the Uncovenanted Service Family Pension Fund (resident in England) a special meeting of the subscribers to the Fund will be held in the Town Hall on Saturday, the 12th June 1909, at 3 P.M., to consider the advisability of referring again to the general body of subscribers the revision and amendment of the proviso added to Rule 54 by circular No. 1 of the 10th April 1907.

Under the above proviso every subscriber's share of surplus at the commencement of each year was restricted to an amount not exceeding his registered annual subscription, any surplus in excess of this limit being held over for addition to the surplus to be distributed in the following year, instead of being available for refund to the subscriber concerned in cash or for enhancement of the pension assured.

The requisitionists propose that the above proviso be repealed in view to a reversion to the practice of treating excess surplus as available for refund in cash or for enhancement of the pension assured.

Subscribers who cannot attend the above meeting have the right to vote by proxy, the votes to be valid should be stamped with a one-anna stamp and registered in this office not later than the 9th June 1909.

Weather was disturbed in the neighbourhood of the Andaman Sea during the greater part of the week, and there were several falls of rain at the Bay Islands and in the surrounding coast districts. At the commencement of the week weather was dry, and skies clear over the rest of the Indian region, but a change set in on the 13th when the barometer fell everywhere and cloud appeared over almost the whole country. These unsettled conditions occasioned a few light falls of rain in the neighbourhood of Agra on the 14th, and in the central parts of the country developed into an area of disturbed weather which passing eastward, was the cause of light rain in parts of the Central Provinces, the south-east of the United Provinces, the east of Central India and the northern districts of north-east India. At the close of the week the disturbance was affecting Burma and a few falls of rain were reported from the central districts of that province. An ill-defined depression from Persia was entering north-west India on the 18th, and snow had begun to fall in Kashmir.

Burma.—Rain was reported during the week from Maymyo, Toungoo, Kyaukpyu, Mergui, Tavoy, Rangoon, Bassein, Diamond Island and the Bay Islands. Skies were lightly to moderately clouded and temperature was normal, except during the last four days when night temperature was somewhat in excess.

North-east India including Orissa.—Light rain fell at Dinajpur and Sambalpur on the 17th, and at Dinajpur, Jalpaiguri, Dhubri, Darjeeling and Sibsagar on the 18th. Skies were clear or lightly clouded up to the 15th, but on the 16th and 17th they were moderately to heavily overcast. Minimum temperature was generally in defect till the increase of cloud caused it to increase.

The United Provinces, Central India and the Central Provinces.—Light rain fell at Agra, Mainpuri, Pachmarhi, Jubbulpur, Saugor, Pendra, Sutna and Allahabad. Skies were on most days clear in the west of the United Provinces and lightly to moderately clouded elsewhere. Maximum temperature was approximately normal, but night temperature was generally in excess until the 17th.

North-west India.—The 15th and 16th were the only days on which skies were practically free from cloud, but no precipitation occurred; except at Minimarg and Sonemarg mean temperature was normal or in excess.

The Peninsula.—Madura, Tinnevelly and Cochin had light falls of rain. Skies were lightly to moderately clouded. Temperature was nearly normal.

Rainfall of the past week has increased the excess shown in the seasonal rainfall of the stations in the Bay and has changed the deficiency in Lower Burma into a slight excess. In Orissa and Kashmir, however, the excess shown at the close of the previous week has almost disappeared and in most of the remaining divisions the deficiency of rainfall is more marked.

The price of unhusked rice has risen in two districts and has fallen in five.

Eastern Bengal and Assam.—There was no rain during the week. Standing crops are suffering from want of moisture and rain is also urgently needed for cultivation. Ploughing for winter rice has commenced and that for jute and other autumn crops is in progress. Transplantation of summer rice is still going on. Harvesting of mustard, cotton and sugarcane and cold weather works for tea continue. Prospects of standing crops are fair. The numbers of persons on test relief works are:—In Dinajpur 3,270; in Rangpur 1,001 and in Bogra 727; total on relief 4,998. The average price of common rice continues almost unchanged. Cattle disease prevails in Noakhali, Rajshahi, Dinajpur, Pabna, Malda, Sylhet, Kamrup, Darrang and Nowgong.

4. The increments will be given for approved service only ; but after the first increment has been admitted by the Local Government or Administration under which the officer is serving, subsequent increments may be drawn in each class on the date on which they are due, and may be admitted in audit without sanction of higher authority, provided that the Local Government or Administration concerned has not issued an order withholding the increment in any particular case. In the ninth year of service an officer will ordinarily pass into the executive class, the minimum pay of which is R700 a month, but no officer will be permitted to enter that class until he is reported fully qualified for the charge of a division. Further, no officer in the executive class may draw more than R800 a month, except as a purely temporary arrangement, unless he holds a divisional charge, or a charge which, in the opinion of the Local Government or Administration, is of equal importance. An officer of the assistant class placed in charge of a division will, in addition to his substantive pay, draw the ordinary officiating allowance admissible under Article 120, Civil Service Regulations, subject to a maximum of R700, which is the minimum pay of an Executive Engineer ; but the period during which an assistant officiates in the executive class will not count as service for increments in that class.

Exchange compensation allowance will not be granted to future entrants.

5. Except as regards promotions from the grade of Assistant to the Executive Engineer, promotions from one class to another are dependent on the occurrence of vacancies in the sanctioned establishment, and are at present regulated in the following way.

6. In the Civil Works Branch of the Department all promotions in Madras and Bombay are made by the Governments of those provinces respectively ; in other provinces also promotions are made by the Provincial Governments, except as regards the appointments of Chief and Superintending Engineer, which are made by the Government of India.

7. In the Railway Branch of the Department promotions are made by the Railway Board, except as regards the appointments of Chief and Superintending Engineer, which are made by the Government of India.

8. Promotion is made wholly by selection ; mere seniority is considered to confer no claim to it.

Pensions and Provident Fund.

9. The following is a summary of the principal pension rules applicable to Engineers appointed to the Imperial Service by the Secretary of State from the United Kingdom.

An officer is eligible for a pension on voluntary retirement after completing 20 years' qualifying service or attaining the age of 55 years. If at an earlier date he is compelled to retire from the service through ill-health not occasioned by irregular or intemperate habits, he becomes eligible for an invalid pension or a gratuity according to the length of his service.

The amount of pension or gratuity is regulated as follows :—

After a service of less than 10 years, an invalid gratuity not exceeding one month's emoluments for each completed year of service.

After a service of not less than 10 years an invalid pension not exceeding the following amounts :—

Years of Completed Service.	Scale of Pension. Sixtieths of Average Emoluments.*	Maximum Limit of Pension.
		R R
10	20	1,000 a year or 83⅓ a month.
11	21	1,400 a year or 116⅔ a month.
12	22	1,800 a year or 150 a month.
13	23	2,200 a year or 183⅓ a month.
14	24	2,600 a year or 216⅔ a month.
15	25	3,000 a year or 250 a month.
16	26	
17	27	
18	28	
19	29	

After a service of not less than 20 years, a retiring pension not exceeding the following amounts :—

Years of Completed Service.	Scale of Pension. Sixtieths of Average Emoluments.*	Maximum Limit of Pension.
		R R
20 to 24	30	4,000 a year or 333⅓ a month.
25 and above		5,000 a year or 416⅔ a month.

* "Average emoluments" means the average calculated on the last three years' service.

Officers who have shown special energy and efficiency during an effective service of three years in certain appointments may, at the discretion of the Government of India, be allowed an additional pension of R1,000 a year.

Subject to certain prescribed conditions, rupee pensions are now issued at the rate of exchange of 1*s*. 9*d*. the rupee to pensioners residing in countries in which the Indian Government rupee is not legal tender.

10. A provident fund has been established for all Civil Engineers of the Department on the following basis :—

(1) The contribution is compulsory up to 5 per cent., on salaries, with voluntary contributions of a further 5 per cent.

(2) Compound interest on such payment is annually credited by Government to each officer subscribing, the rate being at present 4 per cent. per annum in the case of accounts kept on a rupee basis, and 3 per cent. per annum in the case of those kept on a sterling basis. Members of the Fund are given the option of having their accounts kept either on the rupee or on a sterling basis.

(3) The sum which thus accumulates to the credit of an officer is his absolute property, subject to the rules of the Fund, and is handed over to him unconditionally on quitting the service ; or, in the event of his death before retirement, to his legal representatives.

LEAVE.

11. The following is a summary of the principal regulations relating to the leave admissible to Engineers appointed to the Imperial Service by the Secretary of State from the United Kingdom.

(a) *Short Leave.*

12. Privilege leave is a holiday which may be granted to the extent of one-eleventh part of the time that an officer has been on duty without interruption ; and it may be accumulated up to three months, earned by 33 months' duty. During privilege leave the officer retains a lien on his appointment, and receives an allowance equal to the salary which he would receive if he were on duty in the appointment on which he has a lien. An interval of six months must elapse between two periods of absence on privilege leave.

Privilege leave may be prefixed to furlough, special leave, or extraordinary leave without allowances. The whole period of leave thus taken in combination is known as combined leave. Combined leave cannot be granted for a shorter period than six months, nor, except on medical certificate, may be extended beyond two years.

13. Extraordinary leave without allowances may be granted in case of necessity, and, except in certain specified cases, only when no other kind of leave is by rule admissible. It may be granted in continuation of other leave.

14. Subsidiary leave, usually with half average salary, may be granted to an officer proceeding on or returning from leave out of India, or on retirement, to enable him to reach the port of embarkation or to rejoin his appointment. It is admissible only at the end, and not at the beginning, of combined leave.

15. Short leave is also granted to enable officers to appear at examinations, etc.

(b) Long Leave.

16. Furlough and special leave with allowances (see paragraph 6) are admissible to an aggregate maximum amount of 6 years during an officer's service. The amount of furlough "earned" is one-fourth of an officer's active service, and the amount "due" is that amount less any enjoyed.

Furlough without medical certificate can, if due, be generally taken after eight years active service, and again after intervals of not less than three years' continuous service. It is limited to two years at a time.

Furlough on medical certificate may be granted (*a*) to an officer who has rendered three years' continuous service, for not more than two years, but capable of extension up to three years, and (*b*) to an officer who has not rendered three years' continuous service up to one year in any case, and up to such longer period, if any (but not exceeding two years), as the officer may have furlough "due" to him.

17. The allowances admissible during furlough are :—

(1) During the first two years of furlough without medical certificate and during so much of furlough with medical certificate as may be "due,"—half average salary subject to certain maximum and minimum limits.

(2) After the expiration of the period for which the foregoing allowances are admissible,—one quarter of average salary, subject to certain maximum and minimum limits.

18. Special leave may be granted at any time for not more than six months, with intervals of six years' service; allowances, calculated as during furlough, are given during the first first six months only, whether taken in one or more instalments.

General Rules.

21. Leave of absence can never be claimed as of right, and is given or refused at the discretion of Government.

22. After five years' continuous absence from India, an officer is considered to be out of the employment of Government.

23. When leave allowances are paid at the Home Treasury, or in a Colony where the standard of curreney is gold, rupees are converted into sterling at the rate of exchange fixed for the time being for the adjustment of financial transactions between the Imperial and Indian Treasuries, unless any other rate has been exceptionally authorised. But for the present the rate of conversion is subject to a minimum of 1*s*. 6*d*. to the rupee.

APPENDIX III.

REGULATIONS AS TO THE PHYSICAL EXAMINATION OF CANDIDATES FOR APPOINTMENT TO THE PUBLIC WORKS DEPARTMENT OF THE GOVERNMENT OF INDIA.

Note.—These regulations are published for the convenience of candidates and in order to enable them to ascertain the probability of their coming up to the required physical standard. But it must be clearly understood that the Secretary of State reserves to himself an absolute discretion to reject as unfit any candidate whom he may consider, after hearing the opinion of his medical advisers, to be physically disqualified for the public service; and that his discretion is in no respect limited by these Regulations.

General Physical Requirements.

1. A candidate must be in good mental and bodily health, and free from any physical defect likely to interfere with efficient performance of duty.

2. In the examination of candidates the Medical Board will apply the following table of correlation of age, height, and chest girth :—

Age.	Height without Shoes.	Chest.	
		Girth when expanded.	Range of Expansion.
	Inches.	Inches.	Inches.
21 and upwards . .	62½ and under 65	35	2
	65 „ 68	35½	2
	68 „ 70	36	2
	70 „ 72	36½	2½
	72 and upwards . .	37	2½

3. *Measurement of Height.*—The candidate will be placed against the standard with his feet together, and the weight thrown on the heels, and not on the toes or outside of the feet. He will stand erect without rigidity, and with the heels, calves, buttocks, and shoulders touching the standard ; the chin will be depressed to bring the vertex of the head level under the horizontal bar, and the height will be noted in parts of an inch to eighths. In the Indian Police Force a minimum height of 5 feet 4 inches is required, but in other Departments no fixed limit of height is imposed.

4. *Measurement of Chest.*—The candidate will be made to stand erect with his feet together, and to raise his hands above his head. The tape will be carefully adjusted round the chest, with its posterior upper edge touching the inferior angles of the shoulder blades, and its anterior lower edge the upper part of the nipples. The arms will then be lowered to hang loosely by the side, and care will be taken that the shoulders are not thrown upwards or backwards so as to displace the tape. The candidate will then be directed to empty his chest of air as much as is possible. This is best done by continuous whistling with the lips as long as sound can be produced. The tape is carefully gathered in during the process, and when the minimum measurement is reached it is recorded. The candidate will then be directed to inflate his chest to its utmost capacity. This maximum measurement will likewise be noted. The girth with the chest fully expanded and the range of expansion between the minimum and the maximum will then be recorded.

5. The hearing must be good.

6. The speech without impediment.

7. The teeth in good order, *i.e.*, decayed or broken teeth must be properly stopped or crowned, and deficient teeth replaced by artificial teeth where necessary for effective mastication.

8. The chest must be well formed, the lungs and heart sound.

9. Rupture, hydrocele, varicocele, varicose veins in a severe degree, or other condition likely to cause inefficiency will disqualify a candidate, unless such condition is cured by operation.

10. The limbs, feet, and toes must be well formed and developed, with free and perfect motion of all the joints.

11. A candidate must have no congenital malformation or defect likely to interfere with efficiency.

12. A candidate must not be the subject of chronic skin disease.

13. Evidence of previous acute or chronic disease pointing to an impaired constitution will disqualify.

14. The regulations as to the standard of vision required are shown separately for each Department. In all cases of "colour blindness" a note of the same will be made on the candidate's papers.

Candidates may, if they wish it, undergo a preliminary examination by the Medical Board, which meets at the India Office every Tuesday, under the following conditions :—

(*a*) Applications must be addressed to the Under Secretary of State, India Office, Whitehall, London, accompanied by a fee of two guineas, and a statement as to the particular appointment which the candidate desires to obtain.

(*b*) Candidates must pay their travelling expenses.

(*c*) Candidates considered to be unfit by the Medical Board at this preliminary examination are not bound to accept its opinion, but may, *at their own risk*, continue their studies, with the knowledge that they will have to submit themselves for a final medical examination by the Medical Board, prior to the examination, or to their appointment.

(*d*) On the other hand, it must be distinctly understood that the preliminary examination by the Medical Board is held solely for the candidate's information, and that, if after that examination he is reported to be apparently fit, he has not on that account any claim to be accepted as physically fit when he presents himself for the final Medical Examination, upon which alone his acceptance or rejection will depend. Candidates may be considered fit for the service at the preliminary examination, but may be found at the final examination to be unfit, either on account of some physical defect which did not exist or passed undetected at the preliminary examination, or for other reasons.

REGULATIONS AS TO THE STANDARD OF VISION.

1. If myopia in one or both eyes exists, a candidate may be passed provided the ametropia does not exceed 35· D, and if, with correcting glasses not exceeding 3·5 D, the acuteness of vision in one eye equals $\frac{6}{9}$ and in the other $\frac{6}{6}$, there being normal range of accommodation with the glasses.

2. Myopic astigmatism does not disqualify a candidate, provided the lens, or the combined spherical and cylindrical lenses, required to correct the error of refraction, does not exceed 3·5 D; the acuteness of vision in one eye, when corrected, being equal to $\frac{6}{6}$, and in the other $\frac{6}{9}$, together with normal range of accommodation with the correcting glasses, their being no evidence of progressive disease in the choroid or retina.

3. A candidate having total hypermetropia not exceeding 4 D is not disqualified, provided the sight in one eye (when under the influence of atropine) equals $\frac{6}{9}$, and in the other eye equals $\frac{6}{6}$, with + 4 D glasses, or any lower power.

4. Hypermetropic astigmatism does not disqualify, provided the lens or combined lenses required to cover the error of refraction do not exceed 4 D, and that the sight of one eye equals $\frac{6}{9}$, and the other $\frac{6}{6}$, with or without such lens or lenses.

5. A candidate having a defect of vision arising from nebula of the cornea is disqualified if the sight of one eye be less than $\frac{1}{12}$. In such a case the better eye must be emmetropic. Defects of vision arising from pathological or other changes in the deeper structures of either eye, which are not referred to in these rules, may exclude a candidate.

6. A candidate may be disqualified if he be unable to distinguish the principal colours (achromatopsia).

7. Paralysis of one or more of the exterior muscles of the eyeball disqualifies a candidate for the service.

FOR ALL APPOINTMENTS UNDER THE INDIAN GOVERNMENT A DECLARATION AS FOLLOWS, IS REQUIRED FROM CANDIDATES.

1. I____
declare upon honour that, to the best of my knowledge and belief, I am not at present suffering or affected with any form of disease or bodily infirmity, such as—

This European High School, for boys only, has recently been entirely reorganized, and placed under direct Government control. There is a competent staff of both Masters and Lady Teachers, with a Medical attendant, an experienced Matron and a Sergeant.

The School works by the Revised Code of Regulations for European Schools, prescribed by the Government of Bombay, and prepares boys for the High School Examination, the Matriculation Examination of the University of Bombay, and for the Bombay School of Art. Bills introduced in the Council of the Governor General of India for making Laws and Regulations, Reports of Select Committees presented to the Council, and Bills published under Rule 23.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Report of the Select Committee on the Bill further to amend the Whipping Act, 1864, and the Code of Criminal Procedure, 1898 was presented to the Council of the Governor General of India for the purpose of making Laws and Resolutions on the 26th February 1909:—

WE, the undersigned, Members of the Select Committee to which the Bill further to amend the Whipping Act, 1864, and the Code of Criminal Procedure, 1898, was referred, have considered the Bill and the papers noted in the margin, and have now the honour to submit this our Report, with a consolidating Bill, proposed by us for adoption in place of the original amending Bill, annexed thereto.

From Chief Commissioner, Coorg, No. 908, dated 5th May 1908, and enclosure [Papers No. 1].
From Government, Bengal, No. 1881-J., dated 28th April 1908, and enclosure [Papers No. 2].
From High Court, Calcutta, No. 340, dated 18th May 1908 [Paper No. 3].
From Government, Punjab, No. 275 Home-Judicial, dated 25th May 1908, and enclosure [Papers No. 4].
From Chief Commissioner, North-West Frontier Province, No. 1532-G., dated 3rd June 1908, and enclosure [Papers No. 5].
From Chief Commissioner, British Baluchistan, No. 3705, dated 15th June 1908 [Paper No. 6].
From Chief Commissioner, Ajmer-Merwara, No. 754, dated 20th June 1908, and enclosure [Papers No. 7].
From Government, United Provinces, No. 1900, dated 27th June 1908, and enclosures [Papers No. 8].
From Government, Bombay, No. 3545, dated 6th July 1908, and enclosures [Papers No. 9].

From Government, Eastern Bengal and Assam, No. 3491-J., dated 5th August 1908, and enclosures [Papers No. 13].

2. The Whipping Act, 1864, has already been the subject of various partial repeals and amendments, and very little of the original Act now remains on the Statute-book. A further amending Act does not in the circumstances seem to be desirable. We have,

therefore, prepared a consolidating Bill, which repeals the Whipping Act, 1864, with its amending enactments, and reproduces the law as contained therein with the amendments proposed in the Bill as introduced and certain further amendments now suggested by us. These are explained below in connection with the clauses of our consolidating Bill.

3. *Clause 3.*—By the Bill as introduced it was proposed to omit clause (3) of section 2 of the Whipping Act, 1864, relating to thefts by clerks or servants. In order to make, the effect of this omission more clear we have added words to sub-clause (*a*) of this clause, which relates to thefts generally, expressly excepting such thefts from its scope.

4. *Clause 4.*—To the offences specified in clause 3 of the Bill as introduced we have [see sub-clause (*b*)] added unnatural offences when committed on unwilling victims. We consider whipping to be a very suitable punishment for such an offence.

5. *Clause 5.*—We have amended section 5 of the Whipping Act, 1864 (juvenile offenders), to which this clause corresponds, so as to expressly exclude from the punishment of whipping all offences under the Indian Penal Code which are of a political character and to allow whipping for offences punishable with imprisonment under any other law only when such offences are notified by the Governor General in Council in that behalf.

6. *The Schedule.*—It has been brought to our notice that the special provisions contained in the Burma Laws Act, 1898, relating to the punishment of whipping in Upper Burma, are no longer required; we have accordingly included them in the schedule of enactments proposed for repeal.

QUESTIONS AND ANSWERS.

The Hon'ble MR. DADABHOY asked :—

"IN view of the demand for a local Legislative Council by 'advanced public opinion in the Central Provinces', the need felt by the Hon'ble the Chief Commissioner for the 'assistance and support of public expression of views on public affairs', as stated in paragraph 28 of his note on the Government of India's Reform Proposals, forwarded with his letter No. 1285—1-15-2 of 18th June 1908, and the final abandonment by the Secretary of State of the general proposal for the creation of Advisory Councils and the consequential non-adoption of the special scheme recommended for the Central Provinces by the Hon'ble the Chief Commissioner for securing such 'assistance and support', will the Government, in working out the details of the Reform Scheme, be pleased, in consultation with the Hon'ble the Chief Commissioner, to consider the desirability of creating for the Central Provinces and Berar or for the Central Provinces only a local Legislative Council, without raising the Administration into the status of a Lieutenant-Governorship, in exercise of the extensive powers conferred by section 46 of the Indian Councils Act of 1861 ?"

The Hon'ble SIR HARVEY ADAMSON replied :—

"In connection with the Reform Scheme now under consideration, the Government of India do not at present contemplate the establishment of a Legislative Council for either the Central Provinces and Berar or the Central Provinces alone."

The Hon'ble MR. DADABHOY asked :—

"Will Government be pleased to state the present amounts of the Gold Standard Reserve and the Paper Currency Reserve ? Has either of these Reserves been depleted during the current financial year, and, if so, to what extent, and under what circumstances ?"

The Hon'ble SIR G. F. WILSON replied :—

"The amount of the Gold Standard Reserve on the 15th instant was £18,417,833; of which £5,978,899 was held in gold or sterling securities in England, and the balance in rupees in India. Its composition has been altered by the substitution of rupees for gold to the extent of the sterling bills sold on London in 1908, but the Reserve has not been depleted during the current financial year, except to the extent of a temporary loan for general purposes, which it is intended to repay before the 31st of March.

"The amount of the Paper Currency Reserve on the 15th instant was Rs. 41,37,07,315; of which £2,865,970 was held in gold and sterling securities, and the balance in rupees, silver bullion and rupee securities. This Reserve has not been depleted during the current financial year. It has been maintained, as required by law, at the equivalent of the amount of currency notes in circulation."

The Hon'ble MR. DADABHOY asked :—

"Is it true that imports of sugar from Austria-Hungary have more than doubled during the current year, as compared with the figures of the last year ? Is this abnormal increase due to any special advantage enjoyed by the manufacturers of that country ?"

The Hon'ble MR. HARVEY replied:—

"Imports of beet sugar into India from Austria-Hungary during the last five calendar years have been as follows:—

	Cwt.
1904	1,384,851
1905	1,122,342
1906	2,623,639
1907	1,001,075
1908	1,437,214

"It appears from these figures that the recent increase in the imports of sugar from Austria-Hungary indicates not a departure from the normal, but a reversion towards it after a year of exceptionally small arrivals. There is no reason to believe that the increase referred to by the Hon'ble Member is due to any special advantages enjoyed by sugar manufacturers in Austria-Hungary."

The Hon'ble NAWAB SAIYAD MUHAMMAD asked:—

"Will the Government be pleased to lay on the table a list of Muhammadan religious and charitable endowments and trusts which are at present under the management of Government in different Provinces?"

The Hon'ble SIR HARVEY ADAMSON replied:—

"The information asked for by the Hon'ble Member is not immediately available, but the Government of India will ask Local Governments and Administrations to supply it and a list will then be placed on the table."

The Hon'ble SIR KHWAJA SALIMULLA asked:—

"Has the attention of the Government of India been drawn to the reply sent by Nawab Syed Ameer Hosain Bahadur, C.I.E., to the Circular letter No. 2497-A of 7th July last of the Government of Bengal, on the scheme contemplated by the Government of India as laid down in paragraph 4 of its letter No. 611 of 27th March last, regarding the separation of the judicial and executive functions of district officers?

"Will Government be pleased to cause to be placed on the Council table copies of this reply for the information of the Members?

"Will Government be pleased to direct that copies of this reply be forwarded to the Government of Eastern Bengal and Assam, to the High Courts, and to such other bodies to whom this question is under reference as mentioned by Hon'ble Sir Harvey Adamson in his reply to the Hon'ble Mr. Dadabhoy at the meeting of the Council held on the 5th instant?"

The Hon'ble SIR HARVEY ADAMSON replied:—

"The Government of India have received from the Bengal Government a copy of the letter in question. As the matter to which the letter relates is still under discussion it would be premature to publish the papers, and the Government see no reason for treating this letter exceptionally either by laying it on the table or by communicating it to the authorities mentioned by the Hon'ble Member."

The Hon'ble SIR KHWAJA SALIMULLA asked:—

"Is it a fact that the experiment of the separation of the two functions, commenced and brought into operation by the Government of Mysore since October 1907, has not given satisfaction and has not proved a success?

"That the Dewan has, in the Mysore Representative Assembly, declared that the Government was not prepared to further extend the experiment?

"That the Judges of the Chief Court of Mysore have declared that the experiment of the separation of the two functions has retarded the prompt disposal of Civil Court work?"

The Hon'ble SIR HARVEY ADAMSON replied:—

"In 1907 the Amildars of Kolar, Hassan, Maddagiri, Hole-Narsipur and Sagar in the Mysore State were relieved of their magisterial functions and the Munsifs at those stations were invested with the powers of Magistrates of the second class. The Amildars of Bangalore and Mysore were also instructed not to exercise their magisterial powers, and their magisterial duties were assigned to the respective City Magistrates.

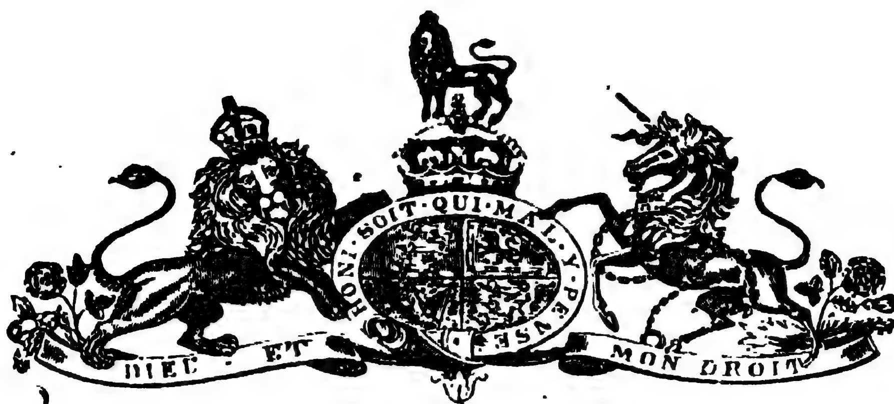
"In October 1908 the Dewan of Mysore, in addressing the Mysore Representative Assembly, remarked:—'The experiment has worked well so far as it has gone, but any further extension of its scope appears likely to entail additional expenditure and has on that account to be deferred for the present.' The Government of India have no further information regarding the working of the experiment and have no record of any pronouncement on the subject by the Chief Court of Mysore."

The Hon'ble SIR KHWAJA SALIMULLA asked:—

"Will Government be pleased to direct the Political Agents of Mysore, Baroda and such other Native States where the experiment has been brought into force, to report whether any appreciable benefit has arisen, or is likely to arise, to the masses from this separation."

The Hon'ble SIR HARVEY ADAMSON replied:—

"The Government will ask for reports upon the exact nature of the changes that have been made and upon their effect, including the points mentioned by the Hon'ble Member."



THE WHIPPING (AMENDMENT) BILL.

The Hon'ble SIR HARVEY ADAMSON presented the Report of the Select Committee on the Bill further to amend the Whipping Act, 1864, and the Code of Criminal Procedure, 1898. He said:—"The principal alteration effected by the Select Committee is the consolidating of the laws relating to the punishment of whipping. There is nothing that I need add to the Report except a word of explanation regarding two amendments which have the effect of still further restricting the infliction of whipping on juveniles. These amendments have been inserted in fulfilment of a promise given by the Secretary of State in Parliament. The first excludes juveniles from whipping for certain specified offences against the State and of a seditious nature. It is, I may observe, much in accordance with existing practice, for, so far as I have been able to ascertain, no juvenile offender has ever in the past been whipped for a seditious offence The second provides that for offences outside the Indian Penal Code punishable with imprisonment, whipping may be inflicted on juveniles only in respect of such offences as may be notified by the Governor General in Council in this behalf. As the law stands at present the Governor General in Council notifies the exclusions. Under the Bill as amended he will notify the inclusions."

The Council adjourned to Friday, the 12th March 1909.

Rainfall summary for the seven days ending at 8 hrs. on Thursday the 25th February 1909, based on the Indian Daily Weather Reports of the period.

A depression from Persia entered Sind on the 19th and gave precipitation in Baluchistan and the extreme north of India, while as it moved eastward it produced unsettled conditions over a large part of northern India, and thunderstorms were fairly numerous in the Central Provinces. This depression was closely followed by another which took a more southerly course than usual, and from a rainproducing point of view was the most important that has entered India this cold weather. Rainfall due to it commenced in Baluchistan on the 21st and extended next day into upper Sind, the south-west Punjab and the North-west Frontier Province. A secondary depression formed in the Punjab on the 23rd and this occasioned general and moderately heavy rain over the whole of upper India, with very heavy snow in Kashmir. The primary while passing eastward gave rain in the submontane districts of the United Provinces, and to the east of it temperature was abnormally high, but it was followed by a well marked cold wave. By the 25th the primary had reached the head of the Bay, but caused very little rain in north-east India. In south India rain fell at several stations during the first part of the week.

Burma.—Rainfall was reported from Mergui on the 23rd and 24th. Skies were lightly to moderately clouded and tempertaure was approximately normal.

North-east India including Orissa.—Rain fell at Dibrugarh, Sibsagar, Cherra Poonjee, Mymensingh, Patna and Gaya. Heavy cloud was reported from Bihar and Chota Nagpur on the 20th and 24th. Skies were generally clear or lightly clouded on other days. Temperature was much higher than usual during the greater part of the week.

The United Provinces, Central India and the Central Provinces.—Rainfall occurred at all the stations in the hills and submontane districts of the United Provinces, at most stations in the Central Provinces and at Benares and Sutna. Skies were moderately to heavily clouded in the north-west of the United Provinces, and generally clear or lightly clouded elsewhere. Weather was warmer than usual up to the 25th when the cold wave advancing from the west reduced temperature and made it normal.

North-west India.—All stations in the Punjab, the North-west Frontier Province and Baluchistan reported rain, and light falls occurred at Jacobabad, Bikaner and Ajmer. It is probable that heavy snowfall occurred in Kashmir but the information received from this region has been very incomplete. Skies were heavily clouded in the north of the division and were lightly clouded elsewhere. Temperature was higher than usual up to 23rd, when a cold wave appeared in the western districts and advanced eastwards, causing a rapid fall of temperature during the next two days. On the 25th temperature was everywhere in defect, the deficiency being large in the extreme north and in Baluchistan.

The Peninsula.—Rainfall occurred at Mysore, Trivandrum, Tinnevelly, Pamban, Negapatam, Trichinopoly, Cuddalore and Mercara. Skies were clear or only lightly clouded, except at the commencement of the week when they were heavily overcast in parts of Madras. Temperature was normal.

The following summarises the principal precipitations expressed as rainfall as reported at 8 hrs. each day :

February 19th. Negapatam 1·62" and Pamban 2·04".

" 20th. Akola 1·25", Sonemarg 2·00", Minimarg 1·10", Cherat 1·63" and Trichinopoly 1·24".

" 21st. Sonemarg 1·50", Minimarg 0·95" and Mercara 0·82".

" 22nd. Quetta 1·13", Multan 0·44" and Jacobabad 0·32".

" 23rd. Chakrata 2·07", Simla 1·22", Sialkot 0·91", Rawalpindi 2·20", Srinagar 1·57", Sonemarg 4·75", Dras 1·27", Cherat 2·81", Peshawar 0·85" and Dera Ismail Khan 0·36".

" 24th. Mergui 2·60", Meerut 1·35", Dehra Dun 0·92", Chakrata 2·02" and Khushab 0·76".

The most important changes introduced by the week's rainfall in the seasonal departures from normal are an increase in the excess shown in Lower Burma, a reduction in the large defect in the west of the United Provinces and the Punjab, and the disappearance of the deficiency in the North-west Frontier Province and Berar.

Season and Crop Prospects for the week ending Saturday, 20th February 1909.

Burma.—Light showers of rain fell in most of the Lower Burma districts. Threshing and winnowing of winter rice are approaching completion. In Upper Burma cultivation of spring crops is progressing. Standing crops are in good condition. The price of unhusked rice has fallen generally and is now down to normal in the principal trade centres.

Eastern Bengal and Assam.—There were light showers of rain in the Rajshahi division, the Dacca district and almost in all the districts of Assam but more rain is needed for standing crops and cultivation. Prospects of standing crops are fair and the recent showers have been of some benefit to them. Transplantation of summer rice, plucking of cotton, harvesting of mustard, sugarcane and tobacco and cultivation of lands for jute and other autumn crops are still going on. Ploughing of lands for winter rice is in progress. The tea season is likely to be late owing to continued drought. The number of persons on test relief works are:—in Dinajpur 2,902; in Rangpur 989; total 3,891. The average price of common rice has fallen by about 1 per cent. Cattle disease prevails in Backarganj, Noakhali, Malda, Sylhet, Kamrup, Nowgong and Darrang.

Bengal.—During the week under report light showers fell in Bihar (except in Monghyr) and also in Burdwan, Birbhum, Murshidabad, Sambalpur, Hazaribagh, Manbhum and Cooch Behar. More rain is wanted in North Bihar for the preparation of lands for the next season's crops. The pressing of sugarcane and harvesting of oil-seeds and pulses continue. Some damage has been done to mango blossoms by hailstorms in Purnea. Prospects of spring crops continue unfavourable in Muzaffarpur, Darbhanga, Bhagalpur and Purnea. The price of common rice has risen in Monghyr, the Sonthal Parganas, Sambalpur and Hazaribagh, and has fallen in Hooghly, Nadia, Murshidabad, Jessore, Saran, Muzaffarpur, Darbhanga, Bhagalpur, Purnea and Manbhum. Cattle disease is reported from Midnapore, Nadia, Murshidabad, Gaya, Shahabad, Muzaffarpur, Monghyr, Purnea, Sambalpur and Chota Nagpur. The fodder and water-supply is getting scarce in parts of North Bihar. 36,602 persons attended test-works in Muzaffarpur, Darbhanga and Bhagalpur. Gratuitous relief was given to 7,233 persons in Darbhanga, Bhagalpur, Purnea and Palamau. The number of persons on famine relief-works in Darbhanga was 44,245.

The weekly report on the famine and scarcity is as follows:—District Darbhanga. In the declared areas—workers, exclusive of dependants, 44,245; on gratuitous relief (*a*) dependants of workers 1,846, (*b*) in poor-houses 2,423 and (*c*) on village doles or other relief 551. Total on gratuitous relief 4,820. Grand total on relief 49,065. Prices:—12 to 13 seers per rupee. Distress is growing more acute but is being properly provided for. More relief works are being opened to meet requirements. Workers are generally in good condition except at some of the works in the Madhubani sub-division and in the Sadar thana where cases of emaciation among workers and also among people in villages are noticeable. Land Improvement loans are being given freely. The public health is good.

United Provinces.—Rain has fallen in 21 districts but except in Jhansi the falls have been slight or insignificant. More rain is required urgently in Moradabad, Bulandshahr and Hardoi. Prospects of spring crops are bad in Kheri and poor in parts of Etah and Cawnpore. Three test-works are open in Bahraich and in Basti where such works are also in progress. The numbers relieved are reported to be 2,940. The arhar crop has suffered severely in the north of Gonda from frost and slightly from the same cause in three other districts. Some damage from hail is reported from Hamirpur. Otherwise standing crops are in fair to good condition. Cattle disease is reported from 12 districts. Fodder continues deficient in the Mat tahsil of the Muttra district and in a part of Fyzabad. The supply of water is inadequate. Prices have risen in 3 districts; have fallen in 14; and are stationary elsewhere.

The weekly report on the famine and scarcity is as follows:—The condition of workers and inmates of the poor-house continue fair to good. Crime is normal. One civil work and five aided works are in progress and one poor-house is open in Bijaigarh. The numbers on works have increased in Bijaigarh and are practically stationary in Kera Mangraur. Punjab.—Fair to light rain has fallen in Amritsar, in parts of Ferozepore, Sialkot Gujranwala, Shahpur, Rawalpindi, Mianwali, Lyallpur, Jhang and Multan. Sugarcane is still being pressed in some districts and the outturn is good. Spring crops on irrigated areas are generally good while those on unirrigated areas are fair except in Rohtak, Sialkot, Gujranwala, Mianwali and parts of Shahpur, where they are below the average. The rain reported in the district telegrams has improved matters greatly in certain districts; but rain is still needed in the South-east, the Salt Range and in several other districts. Good showers received after the despatch of the weekly telegrams appear to have been

fairly general. Sowings of extra springs crops continue in several districts. Gram blossoms have been destroyed by westerly winds and frost in Rohtak and the crops have also been slightly damaged by frost in parts of Ferozepore. Sowings of cotton have commenced in Gurgaon and of sugarcane in Gujranwala. Prices are high and have risen slightly in some districts. Cattle are generally in good condition. Fodder is sufficient except in Lahore, Amritsar, Sialkot, Gujranwala, Mianwali, Lyailpur, Jhang and parts of Gurgaon and Shahpur.

North-West Frontier Province.—Good rain fell during the week throughout the province. It was beneficial to standing crops. More rain is wanted in the Bannu district. Standing crops are generally in good condition on irrigated and average on unirrigated lands. Sugarcane pressing still continues in the Peshawar and Bannu districts. The outturn is reported to be average. Sugarcane planting is in progress in Bannu. Lands are being prepared for extra spring sowings in the Bannu tahsil. The water-supply in canals is sufficient. Fodder is scarce in the Bannu district. The condition of cattle is generally good throughout the province. The public health is generally good. Prices show a slight upward tendency. Prices:—wheat 8 to 9¾; gram 8⅞ to 10½; maize 12 to 16½ and bajra 12 to 14 seers per rupee.

Kashmir. The weather is snowy and severely cold. Fodder is sufficient. There is no disease. Prices are unchanged.

Rajputana.—There was slight rain in parts of Alwar and Bharatpur. Spring crops are thriving but have been damaged to some extent by frost in Partabgarh and by insects and rats in Kishangarh. The condition of cattle is good. The fodder and water supply are sufficient. Prices have risen in Marwar, Tonk and Kishangarh, and have fallen in Sirohi and Karauli. Slight fluctuations are also noticeable in Bikaner, Jaisalmer, Mewar and Dholpur.

Some rain also fell in the interior of Damoh, Jubbulpore, Mandla, Seoni, Nimar, Chhindwara and Nagpur. The highest fall registered was 1¾ inches in the Ramtek tahsil. The rain was accompanied by hail in several districts but no damage occurred except in Damoh, Jubbulpore, Chhindwara and Bhandara where crops suffered slightly. Threshing and winnowing of autumn crops and picking of cotton are almost completed. Harvesting of spring crops continued. The condition of standing crops is fair in Nimar, Amraoti, Buldana and Chanda and is generally good elsewhere. The rain benefited the cold weather *juar* in the Warora tahsil of the Chanda district. Wheat was slightly damaged by rust in a few villages in the Saugor district and *masur* suffered from frost in one circle of the Mandla district. Agricultural stock are in good condition. REPORT OF THE ADMINISTRATION OF THE MINT AT BOMBAY AND CALCUTTA FOR THE YEAR 1907-1908.

RESOLUTION.

Calcutta, the 22nd February 1909.

I.—WORKING OF THE MINTS AT CALCUTTA AND BOMBAY DURING THE YEAR 1907-08.

1. *Receipts of Gold.*—The tenders of gold by the public at the Mints exceeded in value those of the preceding twelve months by over two crores of rupees. The following statement compares the value and nature of the tenders with those of past years :—

Year.	Calcutta.				Bombay.				Total.
	Value of sovereigns and half-sovereigns of current weight.	Value of light and uncurrent sovereigns and half-sovereigns.	Value of bullion.	Total.	Value of sovereigns and half-sovereigns of current weight.	Value of light and uncurrent sovereigns and half sovereigns.	Value of bullion.	Total.	Total value of gold tendered.
	R	R	R	R	R	R	R	R	R
1905-06 .	3,05,72,790	1,08,555	1,04,485	3,07,85,830	1,43,81,790	2,40,028	6,59,424	1,52,81,242	4,60,67,072
1906-07 .	4,96,38,547	7,79,963	...	5,04,18,510	1,45,20,000	5,840	1,87,422	1,47,13,262	6,51,31,772
1907-08 .	2,91,37,155	1,05,105	...	2,92,42,260	5,45,84,760	21,23,695	...	5,67,08,455	8,59,50,715

The value of gold coins which were so reduced in weight as to be taken at bullion value was only R272.

No gold bullion was tendered during the year, its receipt having been stopped with effect from 1st April 1907.

2. *Coinage of Silver.*—The silver coinage was as follows :—

	Calcutta.	Bombay.	Total.
	Value in rupees.	Value in rupees.	Value in rupees.
Rupees	6,53,42,000	10,79,27,893	17,32,69,893
Half-rupees	13,92,803	9,27,843	23,20,646
Quarter-rupees . . .	28,66,000	...	28,66,000
One-eighth rupees . . .	27,00,000	...	27,00,000
TOTAL .	7,23,00,803	10,88,55,736	18,11,56,539

The outturn of rupees during the year 1907-08 was less than that of the previous year by over 8 crores. A portion of the coinage represented the re-coinage of 1835 and 1840 rupees and uncurrent coin, but by far the greater number of rupees coined were struck from bullion, purchased for the most part by the Secretary of State in England, but partly also through local banks.

3. *Dollar Coinage.*—During the year, 1,945,726 British Dollars of the nominal value of R44,15,021 were coined at the Bombay Mint.

4. *Nickel Coinage.*—Nickel one-anna pieces were struck for the first time in 1907-08, the initial issue to the public being made on the 1st August 1907. The total outturn was 37,256,000 pieces of the value of R23,28,500. Nickel is coined at the Bombay Mint only.

The net gain on the nickel coinage which passed into circulation amounted to R17,71,726.

5. *Bronze and Copper Coinage.*—The bronze coinage of the year consisted of pice, half-pice and pie-pieces, of the aggregate value of R38,39,1[illegible]. Out of this, single pice of the nominal value of one lakh of rupees were supplied to the Bikanir Darbar at a price representing the actual cost of manufacture.

The copper coinage comprised Straits Settlements cents and Ceylon cents and half-cents of the value of R30,045.

The net gain on bronze coinage which passed into circulation during the year under review amounted to R17,36,390, as compared with R12,14,311, which was the gain on copper and bronze coinage in the preceding year.

6. *Operative Losses :—*

Silver.—The loss on silver coinage at the Calcutta Mint during the year amounted to 34·4 standard tolas of silver for each lakh laminated, after adjustment of all fictitious gains and losses. In the Bombay Mint, there was a loss for each lakh of 23·24 tolas on rupee coinage and of 12·8 tolas on dollar coinage.

Bronze.—In the Calcutta Mint, the operative losses on account of the bronze coinage were (*a*) a melting loss of ·18 per 100 maunds melted and (*b*) a coining loss of ·3807 per 100 maunds rolled.

Nickel.—The nickel loss was ·597 per 100 maunds on the metal rolled.

7. *Premelting.*—The bulk of the silver purchased was of a high touch, and was placed into direct alligation for standard meltings, as also were uncurrent silver coins received for re-coinage.

8. *Revenue and Expenditure.*—The revenue and expenditure (including interest on capital outlay and other *pro formâ* charges) of the two Mints in 1907-08 compare as follows with the corresponding figures of the previous year :—

YEAR.	REVENUE.			EXPENDITURE.		
	Calcutta.	Bombay.	Total.	Calcutta.	Bombay.	Total.
	R	R	R	R	R	R
1906-07 . . .	19,72,088	30,78,792	50,50,880	16,24,230	13,49,630	29,73,860
1907-08 . . .	16,68,588	21,74,609	38,43,197	16,60,072	12,49,110	29,09,182

Of the aggregate revenue of R38,43,197, the receipts of the Mints on account of the seignorage on silver for the rupee coinage amounted to R27,90,397.

The expenditure on salaries and establishments of the two Mints for the year under review compares as follows with the expenditure incurred during the year 1906-07 :—

	CALCUTTA MINT.			BOMBAY MINT.			BOTH MINTS.		
	1906-07.	1907-08.	Increase + in 1907-08.	1906-07.	1907-08.	Increase + in 1907-08.	1906-07.	1907-08.	Increase + in 1907-08.
	R	R	R	R	R	R	R	R	R

Temporary Establishment and overtime work . .	2,11,753	2,58,999	+ 47,246	1,43,424	1,45,501	+ 2,077	3,55,177	4,04,500	+ 49,323
TOTAL .	3,95,745	4,58,590	+ 62,845	3,28,618	3,48,292	+ 19,674	7,24,363	8,06,882	+ 82,519

The increase in these charges is mainly due to the employment of extra establishment in connection with the nickel coinage and the larger outturn of bronze coins during the year.

9. *Miscellaneous Work.*—The amount of miscellaneous work done in the two Mints is shown in the table below :—

	CALCUTTA MINT.			BOMBAY MINT.			BOTH MINTS.		
	Cost of work done.	Amount realised.	Profit.	Cost of work done.	Amount realised.	Profit.	Cost of work done.	Amount realised.	Profit.

Medals and decorations were struck for the Army Department and for various public institutions, scales and weights were supplied to certain Government Departments, stamping and note-cutting machines were manufactured for Currency offices and some miscellaneous work was undertaken for the public.

II.—Working of the Assay Offices at Calcutta and Bombay during the year 1907-08.

10. *Name of Assays*.—Apart from a number of miscellaneous assays, the gold and silver assays made during the years 1906-07 and 1907-08 were as follows:—

Year.	Calcutta Assay Office.		Bombay Assay Office.	
	Gold.	Silver.	Gold.	Silver.
1906-07	452	43,159	1,945	63,013
1907-08	757	34,422	2,076	33,278

11. *Melting for standard coinage*.—The average fineness *per mille* of silver meltings for coinage during the year was as follows:—

	Calcutta.	Bombay.
Rupees	916·000	915·888
Half-rupees	915·972	915·699
Quarter-rupees	915·756	...
One-eighth rupees	915·633	...
British dollars	...	899·035

12. *Parting assays of silver coins*.—The average proportion of gold found in the silver pyx coins of the Calcutta mintage was ·185 *per mille* for rupees, ·200 for half-rupees, and ·239 and ·214 for quarter and one-eighth rupees respectively. The silver coinage of the Calcutta Mint is computed to have contained 5,108 troy ounces of gold of the value of £21,658. In the Bombay Mint the proportion was ·195 *per mille* for rupees, ·137 for half-rupees and ·114 for British dollars.

13. *Pyx trials of silver coins*.—The results of the pyx trials in the Calcutta and Bombay Assay Offices are summarised in tabular form below:—

	Trials for weight.			Trials for fineness.				
					Total number of coins assayed.		Average fineness *per mille* of coins assayed.	
	Number of trials made.	Total number of coins weighed.	Average weight in grains.	Number of trials made.	Singly.	In groups after melting.	Singly.	In groups after melting.

British dollars	29	580	416·009	29	145	435	900·194	900·066

In five different pyx trials of rupees in Calcutta, one coin in each was beyond the legal remedy for weight, and in each of two trials one coin was found to be outside the remedy for fineness; the fresh pyxes called for in these cases showed all coins to be within remedy. In Bombay, all the rupees tested were within the legal remedy for weight, but two trials for fineness showed one coin in each to be outside remedy. In these cases, however, the fresh pyxes disclosed no coin beyond the remedy.

14. *Pyx trials in England for the year 1907-08*.—The result of the pyx trials made in England showed that the average weight and fineness of the British Indian coins from the Calcutta and Bombay Mints and of British dollars from the Bombay Mint were in close accordance with the standards laid down for the two classes of coins.

Ordered that this Resolution, together with the Reports from the Mint and Assay Masters, Calcutta and Bombay, be published in the *Gazette of India*.

J. S. MESTON,

Secy. to the Govt. of India.

GOLD.

2. *Receipts.*—Mint certificates for R2,92,42,260 were issued during the year for sovereigns tendered by the Presidency Bank in exchange for rupees. No half sovereigns were tendered. The total value of the certificates was R2,11,76,250 lower than in 1906-07. The details of the receipts are given below:—

Tale.	Classification.	Value in Rupees.
1,942,477	Sovereigns of current weight	2,91,37,155
7,007	Sovereigns of short weight or not more than 3 grains less than standard weight, nominal value . . .	1,05,105
1,949,484		2,92,42,260

out of the total number of sovereigns tendered 1,466,462 were tendered in the first half of the year.

All the current weight sovereigns were remitted to the Currency Office.

Under Government Notification No. 6908-A., dated 11th December 1906, the receipts at the Indian Mints of Gold Bullion and Gold Coins other than Sovereigns and half Sovereigns were stopped with effect from 1st April 1907.

3. The total value of the receipts of gold coin and bullion from treasuries and other Government Departments amounted to R2,489. These receipts are detailed below:—

No gold remittances were made to England in the year under review.

SILVER.

4. *Receipts.*—The silver receipts comprised:—

(*a*) Silver purchased for rupee coinage amounting to 5,06,33,931 standard tolas invoiced at R3,70,83,880, was made up of:—

(i) 38,102,720 standard tolas purchased in London by the Secretary of State the invoice value whereof was R2,79,00,708.

(ii) 10,265,771 standard tolas purchased through local Exchange Banks the invoice value whereof was R75,14,714.

(iii) 2,265,440 standard tolas purchased from the Straits Settlements Government by the Secretary of State the invoice value whereof was R16,68,458.

These receipts were made up of—

	Lakhs of standard tolas.
Bar silver	252·08
Mexican Dollars	128·80
British Dollars	22·66
Sycee silver	102·79
	506·33

Consignments of silver bullion for rupee coinage ceased completely from November 1907.

(*b*) Withdrawn and uncurrent silver coins received for recoinages of the nominal value of R1,47,80,195, classified as follows:—

			In thousands of Rupees.
Government rupees	and half-rupees	1835	951·3
Ditto	ditto	„ 1840 (1st issue)	2,793·9
Ditto	ditto	„ 1840 (2nd „)	8,579·6
Ditto	ditto	shroff marked defective and dumb coins	317·5
Ditto	ditto	worn coins	2,109·8
Ditto	ditto	reduced rupees and half-rupees	28·1
			14,780·2

5. *Coinage.*—The total silver coinage during the year was 101,191,607 pieces and the value thereof was R7,23,00,803-8. The coinage was smaller than in the preceding year by 27,833,107 pieces and by R2,78,25,334-4 in value. The falling off in the outturn was entirely confined to rupees, the demand for half rupees, quarter rupees and one-eighth rupees having been as great as it was in 1906-07.

The mintage was limited to Government of India coins details of which are given in statement II.

6. *Silver branch of the gold standard reserve.*—The Silver Reserve of 200 lakhs of rupees referred to in paragraph 6 of last year's report was verified by the Comptroller General's outside audit branch in March 1908. The doors of the vaults were then relocked and resealed.

7. *Melting.*—All the silver bullion shown in paragraph 4 (*a*) and (*b*) above, except the sycee silver, was placed in direct alligation and 92 per cent. of the pots were within the prescribed limits of fineness. The sycee silver was pre-melted for outturn valuation, and the premelting charge (at R40 per lakh of tolas premelted) deducted from the total valuation of the purchased silver, was credited as a "Miscellaneous Gain."

8. *Percentage of good coin.*—The percentages of good coin, calculated on the weight of metal in tolas laminated, are given below. In rupees there was an advance and in half rupees a decided advance on the percentages of the

preceding year. In quarter rupees there was a small set back, whereas in one-eighth rupees the percentage was maintained.

	Weight of ingots laminated. Lakhs of tolas.	Percentages of good coin.
Rupees	956·23	67·1
Half-rupees	22·45	67·49
Quarter-rupees	44·20	65·70
One-eighth-rupees . . .	42·75	63·37

9. The Assay Master's report for the year, attached, shows that the average weight and fineness of the silver coins minted, judged from the pyx trials, were within the limits of the legal standards.

10. *Silver operative losses.*—The melting and coining losses written off in the year's accounts, appearing in No. 1 account appended hereto, amounted to 1,12,841 standard tolas which after correction for all fictitious gains and losses were reduced to 50,682 standard tolas and gave a rate of 34·4 tolas per lakh laminated as against 36·0 tolas per lakh laminated in the previous year. In calculating this rate a coining loss of 4,310.3 std. tolas not written off until the present financial year pending further recoveries of silver in the rolling and cutting departments on the cessation of rupee coinage has been included.

As in the previous year, the bulk of the silver bullion purchased was placed in direct alligation, also the withdrawn and uncurrent silver coins remitted to the mint for recoinage. The rate of loss is more favourable than that of last year, but higher than that of 1905-06, for the same reason as that given in paragraph 10 of last year's report dealing with the silver operative losses, *i.e.*, owing to the practice of placing silver in alligation without premelting. The losses may, therefore, be considered normal.

BRONZE AND COPPER.

11. The total coinage of Bronze and Copper in the year amounted to 267,729,431 pieces and the nominal value thereof to Rs. 38,69,216. Of this coinage 263,727,431 pieces of a nominal value of Rs. 38,39,171 were Government of India bronze coins. The demand for single pice in the year was exceedingly great, the outturn of the preceding year being exceeded by 71,667,200 pieces of a nominal value of Rs. 11,19,800, on one day the 19th December 1907 as many as 1,382,400 single pice being coined. The numbers of half pice coined was less than in the preceding year, but that of pie pieces was greater.

12. The results of examination by the Assay Master, as detailed in his report, of bronze coins sent to him for weighment and assay show that the coins struck in the year approximated in weight and composition to the legal standards.

13. The Colonial coinages were insignificant aggregating in tale 4,002,000 and consisted almost wholly of Ceylon copper cents and half cents in equal numbers.

14. From the single pice coined in January 1908 one lakh's worth was sold to the Bikanir Durbar at actual cost of manufacture and remitted to the Durbar.

The details of the coinage are given in statement II attached.

15. Heavy purchases of copper were made in the year to provide for the single pice coinage, purchases under contract amounting to 37035·5 maunds at an average rate of Rs. 39·32 per maund—a far more favourable rate than that of last year.

Tin from the Straits Settlements and zinc purchased through the India Office at an average cost of Rs. 93·44 per maund and Rs. 16·60 per maund respectively were taken into the bronze mintage account in the year.

16. The total operative losses written off the books on account of the bronze and copper coinages amounted to—

		Mds. s. tolas.
Bronze		
	Melting loss	98—28—42 or ·18 per °/₀ mds. melted
	Coining loss	21—20—41 or ·3807 per °/₀ mds. rolled
Copper		
	Coining loss	75—14—45 or 1·914 per °/₀ mds. rolled

reduced to ·535 per °/₀ maunds, after setting off recoveries of by-products.

The processes in the preparation of bronze for coinage differ widely from those employed for pure copper; a detailed comparison of losses between the two is therefore not feasible. It is, however, satisfactory to note that the total percentage of actual losses in the bronze coinage remains practically the same as the copper losses after the recovery of by-products.

MISCELLANEOUS.

17. The number of war medals struck for the Army Department is much below that of the last year when the "Tibet Mission 1903-04" were issued.

The total issues of war medals and other Army decorations aggregated but 1,100.

18. The bulk of the work in the Medal Department was for the Royal Army Temperance Association decoration. Year by year the demand increases and a high proportion of the medal establishment is engaged throughout the year on this work. The rest of the miscellaneous work done in the Mint during the year was, the manufacture of medals for Universities, Colleges and private institutions, sets of weights for testing quarter and one eighth rupees at all Treasuries and Currency Offices, the manufacture and adjustment of scales and weights for various Government Departments and for private individuals, and stamping and note cutting machines for Currency Offices.

The net profit on miscellaneous work during the year was Rs.15,277 against Rs. 15,589 in 1906-07. Details are given in statement III attached.

19. *Mint working standard weights.*—The working standard weights, tola and avoirdupois sets were verified by the Assay Master during the year.

20. The average daily working silver balance on which interest is calculated for No. 1 Statement was 2,168,026 tolas. The working balance was at its highest, 3,787,932 tolas, on 8th August and at its lowest, 962,594, on 10th October 1907.

21. *Mint Improvements.*—The scheme, referred to in paragraph 22 of last year's report, for providing the Mint with a complete electrical installation was pushed on with. By the end of the first half-year the laying of the underground cables had been completed; and the boiler and engine foundations having been completed, boilers and engines were being erected; the wiring for lighting and motors was also well in hand. Before the close of the year all boilers and engines with auxiliaries had been erected, countershafts in the Mint finished and on the 6th March a trial run of the engines was made in the presence of the Electrical Adviser to Government, the General Electric Company's representative and myself.

Though a matter relating to the operations of this year it may be of interest to record that on the 22nd July 1908 the installation was run up for supplying power to the Mint, and for testing purposes and it has since been running daily. It was expected that the Mint machinery would have been connected up with the motors by the end of the official year but the contractors had not delivered the gearing for the large motors within contract time, owing to the difficulty in getting orders executed speedily for the special sizes of drives contracted for. The gearing has now arrived and is being erected, and at this date a high proportion of the power is being supplied from the electric power house.

22. The erection of new buildings and the alterations to existing ones connected with the transfer to the Port Trust of the western portion of the Mint ground were either completed or in progress. Amongst the former were (1) the Power House for the electrical installation, (2) the new set of six quarters for Mint Engineers; and of the latter, in connection with the new Assay Office (to provide ground for a portion of the out-offices of this building) one half of the silver Mint Tank was filled in. Other minor works were the fixing of a centrifugal pump to the bronze Mint Tank and the construction of out-buildings rendered necessary by the scheme.

23. Heavy works were completed during the year with the object of providing the Minting departments with appliances for coping with the increased demands made on the Mint for silver and bronze coins and to meet the maximum output when the electrical installation would be running.

The principal items were—For the silver and bronze melting rooms—

(1) *Sixteen bronze furnaces complete with travelling cranes.*

(2) *Ingot shearing and filing machines*:—Two of each.

(3) *Mould trucks for silver and bronze.*—Five for the coining departments.

(4) Eight more blank cutting presses (one fitted for cutting 3 pie blanks at a time).

(5) A rocking machine (from present Head Engineer's design) and an edging machine.

(6) Three sets of roller frames for bronze rolls, complete.

(7) New length of shafting in Bronze Stamping Room with motor brackets.

(8) Four sets of slide rests with new lathe headstocks in Die Department.

As these works were done in addition to work for other Government Departments it will be seen that it was a very busy year for the Mint workshops. Under my instructions the Superintendent, Mr. Dryden, constructed an apparatus for making lead seals for sealing the doors of vaults and a new automatic coin cutting machine; four of such machines supplied to Currency Offices have been highly reported on.

24. The thickness of the ingots for bronze coinage has been reduced from ½ inch to ⅜ inch in order to save laminating and the expense of annealing the straps this change has been found to work well and has effected a considerable saving both in labour and coal.

25. The Mint suffered a serious loss by the death on 18th February 1907, of Mr. R. Scott, who had been Head Engineer for 9 years. He had served Government for over 43 years and was one of the most experienced technical officers in his line in their employ.

The Government were pleased to consider the case of his family and sanctioned a gratuity of R 4,050 to the widow of a meritorious and deserving public servant.

REVENUE AND EXPENDITURE.

26. Changes have been made in compiling Statement No. 1, Account of Revenue and Expenditure, chiefly under *pro forma* receipts and charges. The items of revenue and expenditure are briefly dealt with in the following paragraphs.

27. (*a*) *Revenue Charges levied.* —The percentage on silver bullion for the rupee coinage taken into the Mint Accounts was 10,12,584 rupees against 18,83,455 and is smaller than in the previous year owing to the amount taken up for coinage having been 43,536,195 standard tolas less.

(*b*) *Gain on Coinage operations.*—These receipts also diminished in the year owing to the smaller rupee coinage, the amount credited being R27,092, of which sum the bulk amounting to R25,148 was gain by alligating under standard.

(*c*) *Cash and transfer receipts.*—The total receipts under these heads were R54,148 and included R30,009 for mintage of Copper coin for Colonial Governments and of bronze pice sold to the Bikanir Durbar. Of this amount R6,618 was for coinages executed for Colonial Governments in 1906-07.

28. *Expenditure.*—Loss on coinage operations.

Silver.—(1) The silver operative losses amounting to R1,12,841 have been dealt with in para. 10.

(2) The net loss in the year on new coins issued over standard weight was R8,116 and is lower than that of 1906-07 by R12,747 owing to smaller issues, and to close proximity of coins to standard weight.

(3) The loss on withdrawn silver coins amounted to R2,25,941 on receipts aggregating R1,47,80,195 against R2,28,914 on receipts aggregating R1,52,89,281 in 1906-07.

29. *Salaries and Establishment.*—The charges for Establishment amounted to R4,58,590 and are more than they were in 1906-07 by R62,845. The principal increases were (i) R2,347 on account of salary of the Deputy Mint Master. This appointment was sanctioned from 7th June 1907, but having been held at the Bombay Mint by Captain G. H. Willis, until my return from leave, the full charge does not appear against this Mint.

(ii) R4,542 payments to Electrical Engineer appointed under covenant by the Secretary of State for India who arrived in India on 2nd May 1907.

(iii) R43,779 wages for additional temporary establishment and for extra hours' labour incurred owing to the larger outturn of coin in the year.

30. *Copper and bronze used for alloy and contingent purposes.*—The charge under this sub-head amounted to R41,162 and was less by R17,242 than that of the previous year owing to the weight of copper used for alloying silver to the fineness of the rupee standard being 365·5 maunds less.

31. *English and Local Stores.*—The charges under this sub-head amounted to R3,05,829 against R2,29,609 in 1906-07. The increase of R76,220 is chiefly accounted for by—

(i) the higher price of coal.

(ii) the additional consumption of coke and crucibles on the heavy bronze meltings which amounted to 1,255¼ tons against 700½ tons in 1906-07 in which official year bronze was adopted for single pice, half-pice and pie pieces. There was also an increased consumption of dies and other stores owing to the greater hardness of bronze as compared with copper.

32. *Contingent charges.*—These charges amount to R54,902 and as in the previous year, Municipal rates and taxes made up the bulk of the expenditure. More current was used in the year under review as motors had been installed in the bronze Mint new coining room and electric power was used for working 15 "Greenwood and Batley" presses erected therein. Freight charges also show a large increase over last year's and were paid on heavy consignments of material for the electrical plant.

33. *Transfer charges.*—The charges under this head in the year amounted to R14,284 against R15,442 in 1906-07.

The heavy increase over last year of R5,537 in landing charges was also due to the same reason as that given for the increase in freight charges, *i.e.*, the heavy consignments of electrical plant.

34. *Pro formâ receipt and charges.*—This portion of the account of revenue and expenditure has been altered under orders from Government. On the receipt side is now included a credit to cover working expenses on the bronze coins manufactured in the year for the Government of India. The sum so shown amounted to R5,60,876, the other credits under the head amounting to R6,645.

On the charge side interest on capital, average silver and bronze balances and closing store balances has been debited at 3½ instead of 4% as heretofore. The charge for the year amounted to R3,95,773.

35. *Capital Account*:—There were considerable additions to plant during the year amounting in value to R2,11,947 details of which are given in statement attached. The value of stores rendered unserviceable during the year amounted to R20,183 and represented the value of a milling and drilling machine, an old boiler and several laminating rolls. The principal items included in the entry of R2,65,775 under building are the construction of the Mint Power House, new Mint Engineer's Quarters and the filling in a portion of the silver mint tank, the cost of these works aggregating nearly 2 lakhs of rupees.

A depreciation allowance of 3 per cent. on buildings and 5 per cent. on plant has been shown in the Capital Account. The total sum shown in this account amounts to R2,25,482.

36. *Resume.*—The year closed with a small credit balance of R8,515, the chief items effecting this result being the percentage on new rupee coinage amounting to R10,12,583 and the percentage on the value of bronze coins manu-

factured during the year amounting to R5,60,876. The former has been taken at 2 per cent. and the latter at 15 per cent.

COUNTERFEIT COINS.

37. The examination of withdrawn and uncurrent silver coins remitted for recoinage discloses that counterfeit coins continue to escape detection at Treasuries and Currency Offices, 2,887 rupees, 70 half rupees, 285 quarter-rupees and 572 one-eighth rupees having been eliminated during the Mint examination. The counterfeits of all denominations of coin were higher than in 1906-07.

38. The proportion of counterfeited rupees varied from about 27 per lakh to about 10 per lakh remitted, the provinces of Bengal, Eastern Bengal and Assam and United Provinces giving rates exceeding 20 per lakh, while Burma, Madras as well as India Treasuries give rates below that figure. The counterfeits were either cast or struck and none were of such excellence as to warrant investigation as to their source of manufacture though 37 struck counterfeit rupees were sent on to the Criminal Intelligence Department.

Counterfeit coins sent for examination or deposit at the Mint in the year under review totalled 2,808 rupees, 13 half-rupees, 32 quarter-rupees and 19 one-eighth rupees against 3,264 rupees, 33 half-rupees, 136 quarter-rupees and 74 one-eighth rupees in 1906-07 and are lower than receipts on this account in the latter year. Very few of these coins were of such excellence as to escape detection, and out of the number it was only necessary to assay thirty rupees to give a final verdict, and of these three coins of the year 1904, 1906 and 1893 which the Assay Master reported as possessing a millesimal fineness of 704·4, 705·7 and 941·8 per mille respectively of silver were the best.

38. The Assay Office examined 355 suspected counterfeit coins during the year against 511 in the year 1906-07. Of the number examined 74 were sent from the mint and 280 from officers and Magistrates from various parts of India. The Assay Master reported that the millesimal fineness of silver present in the counterfeit coins ranged from 14·71 to 968·9.

A cast counterfeit sovereign reported by the Assay Master to contain 410·9 per mille of gold with copper and traces of silver, lead and tin, and a rupee made up of an inner core of copper surrounded by a superficial layer of silver were the only cases attracting special attention.

39. The one anna nickel has been considered worthy of counterfeiting, a portion of a spurious one reported as made principally of lead and tin is the first instance of counterfeit nickel received by the Assay Office.

40. None of the dies and other implements used in the manufacture of counterfeit coins received at the mint for inspection were of special interest.

OFFENCES AGAINST COINAGE.

41. The statement of offences against the coinage during the year 1907 has been condensed by the Central India Agencies being grouped together and shown against one entry.

42. There has been a considerable decline in the convictions in the year. With the exception of Mádrás and Burma the decline occurred in all the provinces and is most marked in the Bombay Presidency. In one of the principal offences against the coinage, *i.e.*, under Sec. 235, the United Provinces of Agra and Oudh enjoy an unenviable pre-eminence with 20 cases out of an aggregate of 54 and 29 convictions out of 52 persons brought to trial in all India.

(*b*) 1,945,726 British Dollars were issued to Exchange Banks for export to Hongkong.

(*c*) No coinage was undertaken for any other Government during the year.

(*d*) The whole of the coinage was found by the Assay Master to be within legal remedy for weight and fineness.

Silver branch of the Gold Standard Reserve.—No portion of the rupee coinage was transferred during the year to the Silver Branch of the Gold Standard Reserve, which had already reached the limit of 400 lakhs to be held at the Bombay Mint.

5. *Meltings.*—Uncurrent silver coins remitted by treasuries, as well as the Mexican dollars and fine silver received from the Secretary of State, and Mexican and Straits dollars purchased through the local Exchange Banks, were issued to the Standard Melting Department in direct alligation during the year, but all sycee silver and mixed dollars received for coinage were premelted before alligation.

Dollars	3,419	2,522	897	12·80

Owing to work being slack in the later months of the year the Melting Department was able to devote special attention to the recovery of silver from furnaces and other melting appliances with the result that silver of the outturn value of R8,822 was recovered and credited to the loss account.

NICKEL.

8. Orders having been given for the coinage of nickel one-anna pieces, 37,256,000 pieces of the value of R23,28,500 were struck during the year, the first issues to the public being made on the 1st August 1907. Specimens of the coins were previously distributed at the instance of the Comptroller General to various newspapers, the Chambers of Commerce and other representative public bodies in India. The general consensus of opinion was most favourable to the appearance and utility of the coin. Pyx trials were made at regular intervals by the Assay Master and in every way proved satisfactory.

The composition and weight of the new coin are given in paragraph 8 of last year's report. The coin has a waved edge with twelve scollops, its greatest diameter being 21 millimetres and its least diameter 19·8 millimetres. On the obverse the coin bears the effigy of His Majesty King Edward VII and the inscription "Edward VII King and Emperor" and on the reverse a design with AN I NA in the centre of an ornamental square, the value in Urdu, Nagri, Bengalee and Telegu on the four sides with the word "India" and the year of coinage within the square. The rim is not milled.

An obverse matrix and an obverse punch, with the waved edges uncut, were supplied by the Royal Mint in June 1907, from which the working dies for the obverse side of the coin were produced in this Mint, a matrix and a punch for the reverse dies having been received from the Calcutta Mint. Towards the end of October 1907, when the new coins had been in circulation for nearly three months, a second set of matrices and punches for both sides, with waved edges, and a set of special tools were received from the Royal Mint, but it has not been found necessary to take any of these matrices, punches or tools into use.

For the working of the Nickel Mint, which is capable of producing 2 lakhs of coins per day, the following additional establishment was sanctioned by the Secretary of State (*vide* Government of India, Finance Department letter No. 1818 Ex., dated 21st March 1907), the remainder of the operatives employed being on the temporary establishment.

	R
One second grade Engineer	250—20—350.
One Assistant Bullion Keeper	45.
Two Assistant Bullion Keepers	35 each.

Seven additional melting furnaces were also constructed during the year. The total nickel losses written off the books during the year amounted to 46 maunds giving a percentage of ·597 per 100 maunds on the metal rolled.

BRONZE.

9. No bronze coinage was carried out during the year.

MISCELLANEOUS.

10. *Miscellaneous work.*—This consisted of the recurring supply of dies, medals, tokens, etc., to various public institutions and rifle associations, the manufacture and adjustment of scales and weights and miscellaneous supplies and repairs undertaken for Government Departments and the public, the profit made being R409. In addition to the above 76 war medals with 79 clasps were issued.

11. *Treasure Trove coins.*—During the year 13,342 silver coins found in the Ratnagiri, Poona, Panch Mahals and Nasik districts were forwarded to the Mint by the Bombay Branch, Royal Asiatic Society, for disposal to Numismatists. Among these coins there was a most important find discovered in the Nasik district consisting of a large number of coins struck by King Nahapan about

120 A.D. These were found buried in a mound of earth and are believed to have formed the hoard of some temple in ancient days. Many of the coins were surcharged with the stamp of King Satakarni. The amount realised by the sales of Treasure Trove coins during the year was R1,219, the metal value at which the coins were credited in the Mint accounts being R390. After defraying postage and other charges the profit on the sale of these coins amounted to R812.

12. *Mint working standards.*—The weights in all the departments were periodically compared with the standards, and any difference found carefully adjusted.

ANALYSIS OF REVENUE AND EXPENDITURE.

13. *Revenue*—

(*a*) *Charges levied. Mint seigniorage.*—The seigniorage on silver tendered for British Dollar coinage, and for which outturn certificates were issued during the year, amounted to R94,918. The charge of 2 per cent. on the total amount of purchased silver brought to account during the year amounted to R17,77,813, being R11,61,322 less than that of the previous year.

(*b*) *Gain on coinage operations.*—The gain on this head was R1,55,779, and was more than that of the preceding year by R39,336 owing to the large gain by Assay Benefit.

(*c*) *Cash and transfer receipts.*—These receipts amounted to R14,806 and were less by R1,737 than those of the year 1906-07.

(*d*) *Pro formâ receipts.*—A *pro formâ* credit at 5 per cent. on the value of nickel coins turned out during the year, amounting to R1,16,425, has been shown here under instructions from the Comptroller General.

14. *Expenditure.*—

(*a*) *Loss on coinage.—Silver.*—The difference between the par and the weight values of uncurrent coin received from Government Treasuries for recoinage amounted to R1,46,869 as against R1,75,212 in the preceding year.

	1907-08.	1906-07.
	R	R
Fixed establishment	2,02,791	1,85,194
Extra establishment and overtime work	1,45,501	1,43,424
TOTAL .	3,48,292	3,28,618

(*b*) *Cost of Establishment.*—The total expenditure on salaries and establishment for the year as compared with that of the preceding twelve months is shown in the margin.

The increase is principally due to the extra establishment engaged in connection with the nickel coinage.

(*c*) *Local and English Stores.*—The expenditure under these heads amounted to R2,24,559 and exceeded that for the preceding twelve months by R53,875, owing to the increase in value of coal, large issues of stores for nickel coinage and to the fact that the value of stores issued to the Assay Department has been included for the first time.

(*d*) *Copper used for alloy and for contingent purposes.*—The amount expended under this head was R73,552 as compared with Rs. 1,15,449 for 1906-07, the decrease being due to the smaller coinage.

(*e*) *Contingent charges.*—These charges amounted to R29,217, and were greater than the figure for the previous year by R6,868, mainly on account of heavier freight and landing charges, to the charge for supply of electric current and to increases under house-rent and Municipal taxes.

(*f*) *Transfer charges.*—These amounted to R23,133 as compared with R19,084 in the preceding twelve months.

15. *Resumé of Revenue and Expenditure.*—The result of the transactions of the year, as summarised in Statement I, shows that, including interest on capital outlay, the net profit from Mint operations during the year was R9,25,499 against R17,29,162 in the year previous, the decrease being due to smaller receipts under "charges levied".

16. *Balances sunk in the Mint.*—The balance of silver bullion belonging to Government, valued at one rupee per tola of standard fineness, stood at the beginning of the year at R6,00,557 and at its close at R16,76,592. The average daily balance, exclusive of silver belonging to tenderers, was R17,72,480. The minimum daily balance was R6,00,557 on 1st April 1908, and the maximum was R30,92,500 on 18th September 1907.

17. *Capital Account.*—Rupees 62,323 on account of buildings and R61,426 on account of machinery were added to the heads of Buildings and Plant, respectively. The balance at debit of this account at the end of the year stood at R40,60,437.

18. *Extensions.*—During the year under review the Public Works Department carried out the work of "clearing the west end and re-roofing a portion of the Melting Room and constructing a passage, etc." at a cost of R15,586. The result will be to greatly enlarge the outturn capacity of the Melting Department and to improve the facilities for supervision.

A new strongroom for the East Coining Department was built, under Mint supervision, to replace an existing strongroom which was found too small for the increased outturn of the Department. This work was commenced in September 1907 and completed in March 1908. The sanctioned estimate was R3,645 and the actual cost R3,563.

19. (*a*) *Installation of Electric Lights and Fans.*—This work was commenced in March 1907 and completed (*i.e.*, after allowing a trial period of six months for maintenance) in February 1908.

The connection from the town supply was carried out by the Bombay Electric Supply and Tramways Company, Limited. The installation consists of 253 light points, 35 arc lamps, 33 fans and a motor generator for the Assay Office.

With the exception of the staircase and vestibule, where the wiring is enclosed in teakwood battens and a small portion under the floor in the Rolling Department in conduit, the whole of the wiring is on the open cleat system.

The sanctioned estimate amounted to R30,000 and the total cost of the work to R28,770.

(*b*) *Electric Driving.*—A small electrical driving plant was obtained locally at a cost of R4,687 under sanction of the Government of India, as owing to the extension of the Melting Department and remodelling of the Workshop it was necessary to make some arrangement for driving the machinery of the Melting and Alligation Departments.

20. *Machinery.*—The balance of the machinery referred to in the second portion of para. 19 of last year's report has now been received and, with the exception of one pair of 12 inch rolls, has been erected. Other additions under this head comprise two bullion balances (to weigh 10,000 ounces each) valued at R8,150.

OFFENCES AGAINST THE COINAGE.

21. *Return of counterfeit coins.*—The usual return of counterfeit coins is appended to this report.

2,554 counterfeit coins (2,402 rupees, 39 half-rupees, 46 quarters and 67 one-eighths) were received for examination during the year as against 2,643 in 1906-07, and were classified as follows:—

(i) 311 coins (204 casting and 107 struck) received from the Bombay, Baroda and Central India, Rajputana-Malwa and Southern

Mahratta Railways, and eight cast counterfeit coins received from other sources were accepted as "exceptionally well executed."

(ii) 38 coins (26 castings and 12 struck) were good enough to deceive the public, both as to execution and colour of metal.

(iii) The remaining 2,197 coins (1,799 castings and 398 struck) were in the majority of cases inferior specimens of low touch silver or base metal and all easily detectable.

The second and third class include coins which were returned to the Railways as they did not come up to the standard of excellence required by Government.

22·36 per cent. of the coins received from Railways were imitations of King Edward VII rupees.

2,359 counterfeit coins (2,008 rupees, 25 half-rupees, 86 quarters and 240 one-eighths) were discovered in remittances of uncurrent coin to the Mint.

During the year under report 17,897 counterfeit coins were cut at treasuries and Railways as against 20,261 in 1906-07. Six nickel annas received for examination were found to be palpable cast counterfeits of base and inferior metal.

22. *Retirement of Mr. McDowell.*—Mr. E. H. McDowell, Assistant Mint Master, a zealous and able officer, retired in April last year on Invalid pension after a useful service extending over 28 years.

5. *Gold in silver coinage.*—The average proportion of gold found by monthly "parting assays" in the silver pyx coins for the year was ·195 per mille for rupees, ·137 for half rupees, and ·114 for British Dollars.

6. *Pyx trials, rupees.*—The trials of these coins for weight amounted to 1,095, the total number weighed being 21,900. None of these was found beyond remedy. The average weight of all was 180·020 grains, the lightest and heaviest coins weighed were respectively 179·10 and 180·90 grains.

The trials for fineness were also 1,095, 5,485 coins having been assayed singly, and 27,375 in groups of 25 coins after melting. Of the coins assayed singly the extreme variations in fineness ranged from 915·3 to 917·6, and the average fineness over 5,475 coins was 916·550 per mille. In two trials only were single coins found to be outside remedy, and the fresh pyxes called for in these cases disclosed no coin beyond the remedy. The 27,375 coins assayed in groups of 25 after melting gave an average fineness of 916·587, the lowest and highest figures obtained for any melting of coins being respectively 915·9 and 917·6.

The average results are shown in the following table :—

Rainfall summary for the seven days ending at 8 hrs. on Thursday, the 4th March 1909, based on the Indian Daily Weather Reports of the period.

The primary depression which was in the north of the Bay on the 25th disappeared without giving any more rain, and the cold wave which followed it travelled as far east as north-east India, causing the disappearance of the abnormally high temperatures there. Two more depressions affected north-west India during the week, but they only gave light to moderately heavy precipitation in Baluchistan and Kashmir.

Burma.—Mergui and Tavoy recorded falls of rain. Skies were clear or lightly clouded and temperature was approximately normal.

North-east India including Orissa.—Light rain fell at Sambalpur and Balasore. Skies were free from cloud. Temperature was normal or in excess in the day time and normal or in defect at night.

The United Provinces, Central India and the Central Provinces.—Pendra and Seoni had light falls of rain. Skies were clear or only lightly clouded and temperature was approximately normal.

North-west India.—Precipitation occurred at all stations in Kashmir and Baluchistan with the exception of Leh and Gilgit. Skies were moderately to heavily clouded in Baluchistan, Kashmir and along the hills of upper India and were clear or only lightly clouded elsewhere.

The Peninsula.—Skies were clear or lightly clouded and temperature was normal except in the Bombay Deccan and Hyderabad where the nights were warmer than usual.

The following gives the principal precipitation expressed as rainfall as reported at 8 hrs. each day:

February 26th. Mergui 1·50″.

March 2nd Robat 1·54″.

" 4th. Sonemarg 0·74″, Minimarg 0·80″, Quetta 0·58″ and Chaman 1·39″.

Last week the seasonal rainfall was normal in Baluchistan but it is now in excess. This is the only important change introduced by the past week's rainfall.

Season and Crop Prospects for the week ending Saturday, 27th February 1909.

Burma.—Over four inches of rain fell during the week in Mergui. Harvesting of the winter rice crop in Lower Burma has practically been completed. Rice grain is reported to be light in places but there is no reason to modify the estimate of 98 cents given in last month's final forecast. In Upper Burma cultivation of spring crops is making good progress and promises well. The price of unhusked rice is normal in most rice-producing districts with a downward tendency in the principal centres.

Eastern Bengal and Assam.—Almost all districts received light showers; but more rain is needed for standing crops and for preparation and cultivation of soil for jute and other autumn crops which are going on. Prospects of standing crops are fair and they have been benefited by the recent showers. Transplantation of summer rice is finished and harvesting of mustard, cotton and tobacco and planting of potato still continue in some places. Pressing of sugarcane is going on. Fields are being ploughed for winter rice crops. The numbers on test relief works are:—3,354 in Dinajpur and 746 in Rangpur; total 4,100. The average price of common rice has fallen by about 2 per cent. Cattle disease prevails in Dacca, Backarganj, Noakhali, Malda, Kamrup, Darrang and Nowgong.

Bengal.—Slight rain fell in the districts of the Patna, Tirhut and Chota Nagpur Divisions (except in Patna and Palamau), and also in parts of Burdwan, Birbhum, Midnapore, Nadia, Murshidabad, Jessore, Monghyr, the Sonthal Parganas, Balasore, Sambalpur and Cooch Behar. Preparation of lands for the sowing of autumn crops and sugarcane is going on. Pressing of sugarcane and harvesting of pulses and oil-seeds are in progress. Lancing of poppy in Shahabad and sowing of Sumatrana indigo in Saran have commenced. Slight damage has been caused to the *mahua* flower in Manbhum by the cloudy weather and rainfall during the week. Prospects of spring crops are bad in the unirrigated tracts of North Bihar. There is considerable distress amongst the poorer classes in parts of Muzaffarpur and Bhagalpur. The price of common rice has risen in Burdwan, Jessore, Saran, Bhagalpur, Purnea, Palamau and Manbhum, and has fallen in Nadia, Khulna, Patna, Shahabad, Muzaffarpur, the Sonthal Parganas, Balasore, Puri, Sambalpur, Hazaribagh and Cooch Behar. Cattle disease is reported from Midnapore, Nadia, Jessore, Gaya, Muzaffarpur, Darbhanga, Monghyr, Purnea, Sambalpur, Ranchi, Palamau and Manbhum Fodder is reported to be insufficient in Darbhanga, Monghyr and the Sonthal Parganas. The water-supply is getting scarce in many parts of North Bihar. 35,016 persons were on test-works in Muzaffarpur, Darbhanga, Bhagalpur and Purnea. 8,872 persons were gratuitously relieved in Darbhanga, Bhagalpur, Purnea and Palamau and 549 in Puri. The number of persons on famine relief works in Darbhanga was 33,185.

The weekly report on the famine and scarcity is as follows:—District Darbhanga.—Workers exclusive of dependants 33,185; on gratuitous relief (*a*) dependants of workers 1,821; (*b*) in poor-houses 1 951; and (*c*) village doles or other relief 2,281. Total gratuitously relieved 6 053. Grand total on relief 39,238. Prices 12 to 13 seers per rupee. The decrease in the numbers attending the works is due to a large decrease in the Madhubani subdivision. Slight rain fell at places on the 24th and 25th February which perhaps accounts for a temporary fall in the numbers on works. No wandering cases of emaciation among children are noticeable. Workers are in fairly good condition. The distribution of gratuitous relief has commenced but is not yet fully organised. Land Improvement loans continue to be given out usefully.

United Provinces.—Rain has fallen in all districts except Etawah. Substantial falls were received in Dehra Dun, Garhwal and in parts of Meerut, Bareilly and Bijnor; elsewhere the falls were light or insignificant. More rain is urgently required in Kheri. Standing crops are poor in Kheri and in parts of Hardoi, Bahraich, Cawnpore and Sitapur. Three test-works are open in Bahraich and nine in Basti, the numbers relieved being 3,461 and 2 884 respectively. Some damage from hail is reported from 13 districts and from frost in 2. Otherwise standing crops are in fair to good condition. Cattle disease is reported from 13 districts. Supplies are adequate and fodder is sufficient except in the Mat tahsil of the Muttra district. Prices have risen in 3 districts; have fallen in 18; and are stationary elsewhere.

The weekly report on the famine and scarcity is as follows:—The condition of workers and inmates of the poor-house is fair to good. Crime is normal. One civil work, seven aided works and one unaided work are in progress and one poor house is open in Bijaigarh. Four civil works are in progress in Kera Mangraur. The number on works have risen in Bijaigarh and fallen in Kera Mangraur. The numbers on relief are:—on civil works 3,807; on aided works 9,948; on unaided works 150; on gratuitous relief 3,070; in poor houses 123; dependants of workers 812; total 17,910. Prices:—Bijaigarh 10½ and Kera Mangraur 15 seers per rupee.

Punjab.—Good to moderate rain fell in all districts in the first half of the week; this was urgently needed. Crop prospects show a marked improvement. Irrigated crops are generally in good condition while unirrigated crops are average to fair except in Rohtak and Multan where they are below the average. More rain is still needed in Ambala, Ferozepore and Mianwali. Sowings of extra spring crops continue in several districts and sowings of sugarcane are in progress in Gurgaon, Delhi and Gujranwala. Prices are high but have fallen slightly in some districts. Cattle are generally in good condition except in Gujranwala. Fodder is sufficient except in Lahore, Amritsar, Sialkot, Gujranwala, Lyallpur, Jhang, Multan and parts of Gurgaon, Shahpur and Mianwali.

North-West Frontier Province.—Good rain fell during the week in Hazara and Peshawar and the showers received elsewhere have been very beneficial and have greatly improved the condition of crops. More rain is wanted in Bannu. The condition of standing crops is generally good on irrigated and average on unirrigated lands. Slight hail fell in Peshawar but no harm was done to crops. Sugarcane is still being pressed in the Peshawar and Bannu districts and the outturn is reported to be average. Sowing of sugarcane is in progress in Bannu. The water-supply in canals is sufficient. Irrigation from the Paharpur Canal in the Dehra Ismail Khan district continues. Fodder is scarce in the Bannu district. Cattle are generally in good condition except in two villages of the Kulachi tahsil in the Dera Ismail Khan district. The public health is generally good. Prices, except that of *bajra*, show a slight tendency to fall. Prices:—wheat 8 3/16 to 9¾; gram 8 to 10½; maize 13 to 16½; and *bajra* 12 to 13¾ seers per rupee.

Jammu.—There was slight rain during the week. Prices are stationary. Wheat sells from 7 to 14 and maize from 10 to 20 seers per rupee. The condition of standing crops is good. Fodder is sufficient.

Kashmir.—The weather is snowy and severely cold. Fodder is sufficient. Prices are unchanged.

Rajputana.—Rain is reported in 5 districts of Marwar varying from 1 inch 15 cents to small showers. There was also slight rain in Jaisalmer, Alwar, Bharatpur and Karauli and in parts of Jaipur and Ajmer-Merwara. Standing crops are doing well. Harvesting of gram is in progress in Kotah. The condition of cattle is generally good. Fodder is sufficient. Prices have fallen by 2½ seers in Dholpur and have risen by 1 seer in Sirohi. Fluctuations are less noticeable elsewhere.

Central India.—The rainfall during the week was partial in Gwalior and Baghelkhand; and *nil* elsewhere. Spring crops are doing well almost everywhere. Agricultural stock are satisfactory except for some cattle disease. Prices are high but stationary. Extraction of opium is progressing in Bhopawar.

Central Provinces.—The weather continues to be occasionally cloudy. The days are warm and the nights and mornings cool. Light showers not exceeding 35 cents were received during the week in ten districts accompanied by hail. Hail storms in this and the preceding week damaged the crops somewhat seriously in a few villages of the Damoh, Chhindwara and Bhandara districts and to a less extent in Narsinghpur, Saugor, Jubbulpur and Seoni. Threshing and winnowing of autumn crops and picking of cotton are approaching completion. Reaping of spring crops is in progress. The state of standing crops is only fair in Nimar, Chanda, Akola, Buldana and Yeotmal and is generally good elsewhere. Cattle are doing well. The supply of fodder and water is sufficient everywhere. The fluctuations in prices are unimportant except in gram which was cheaper in six districts by ½ to 2½ seers per rupee. The number of weavers on relief was 1,587.

Feudatory States.—Kawardha, Sakti and Sirguja had a sprinkling of rain during the week. Harvesting of wheat, oilseeds and pulses is in progress. Prospects are generally good except in Kawardha and Bastar where tne condition of spring crops is fair. Construction of field embankments, transplantation of sugarcane and preparation of land for the sowing of next season's crops have been started. Fodder and water are adequate. Prices fell in Raj Nandgaon and Raigarh by ¼ seer to 1½ seers per rupee.

Bombay.—Slight rain fell during the week in parts of Sind. Standing spring crops have been slightly damaged by frost in parts of Larkana and Ahmedabad, by insects and locusts in parts of Karachi, by wind in parts of the Upper Sind Frontier and by disease in parts of Poona; and are suffering from want of moisture in parts of Thar and Parkar and Sholapur. Cotton is withering in parts of Bijapur and has been damaged by frost in parts of Ahmedabad and Kathiawar and by disease in parts of Bijapur. Crops are generally in fair to good condition elsewhere. Threshing of autumn crops is nearly completed in Colaba and continues in parts of Kanara, East and West Khandesh and Nasik. Cotton picking continues in parts of Gujarat, Kanara, Kolhapur and the Gujarat Native States. Lands are being prepared for next season in parts of the Deccan and Belgaum. Harvesting of spring crops is generally in progress. The supply of fodder is adequate except in parts of West Khandesh, Bijapur, Belgaum and Kolhapur. Agricultural stock are sufficient except in parts of the Deccan and Cutch and are generally in good condition. The supply of drinking water is sufficient except in parts of West Khandesh, Nasik, Belgaum and Kolhapur. Water for irrigation is sufficient except in parts of Hyderabad, Thar and Parkar, West Khandesh and Nasik. Prices of food grains continue high. They have

fallen in Karachi, Hyderabad, Thana, East Khandesh, Ahmednagar and Sholapur; have risen in the Upper Sind Frontier and are generally stationary in other districts. The quantity purchasable per rupee is in Sind 19 to 41 per cent.; in Gujarat 15 to 62 per cent.; in the Konkan 9 to 26 per cent.; in the Deccan 17 to 47 per cent.; and in the Karnatak 32 to 91 per cent. less than the normal. Stocks of grain are adequate. Some emigration is in progress in Bijapur. There are 300 persons on one relief work in the Badami taluka of Bijapur; elsewhere labourers get sufficient employment. The cultivating and labouring classes are generally in fair condition.

Hyderabad.—The rainfall during the week was 7 cents. The late rain has somewhat injuriously affected the spring crop under harvest. The crop is fair except in parts of the Lingsugar, Sindhnur and Gangawati talukas of the Raichur district and other isolated tracts. Late rice sowings have been completed and weeding is progressing. The crop is reported to be generally fair. Lands are being prepared for the next monsoon sowings Cattle disease is reported in eight talukas. Prices:—wheat 5¾; coarse rice 6½; and *juar* 12¾ seers per rupee. White *juar* is selling in Hyderabad City at 11½ seers per rupee. Yellow *juar* is not available. The highest price in districts is 8½ seers in the Paloncha taluka of the Warangal district and the lowest 20 seers in the Rajura taluka of the Adilabad district and the Udgir taluka of the Bidar district.

Mysore.—Prices of food-grains are generally steady and markets are moderately well supplied. Prospects of the season are unsatisfactory. Cattle disease is prevalent in parts of the State. Water and fodder are available in limited quantities. Temporary wells have been sunk in many parts.

Coorg.—Threshing of rice continues and picking of coffee is completed. Prices of food-grains are high. The public health is fair. Water and fodder for cattle are sufficient.

Madras.—Light rain fell during the week in Tanjore, Madura, Tinnevelly, Malabar, and South Canara and *nil* elsewhere. Irrigation supplies are insufficient in parts of all districts except Kistna, Guntur, Nellore, Chingleput, South Arcot, Coimbatore, Trichinopoly, Tanjore, Malabar and the Nilgiris. Ploughing, sowing, weeding and transplanting are in progress in parts. Standing crops are generally fair but some in parts of Malabar require more rain and some in parts of Bellary, Salem, Tinnevelly and South Canara have withered or are withering. Harvests continue with outturn poor to bumper. Pasture is sufficient except in the Circars, the Deccan, Nellore, Salem, Coimbatore, Tinnevelly, Malabar and South Canara. Fodder is scanty in parts of Guntur, Anantapur, Cuddapah, Nellore, North Arcot and Salem. The condition of cattle is generally good. The price of rice is stationary in 9 districts and has fallen in 14. The prices of millets have fluctuated as follows:—*Ragi* is stationary in 11 districts; has fallen in 7; and has risen in 3. *Cholam* is stationary in 6 districts, has fallen in 7; and has risen in 1. *Cumbu* is stationary in 3 districts; has fallen in 8; and has risen in 4. The public health is generally good. Prospects are generally fair. The condition of the labouring classes is good and employment is procurable. Grain stocks are generally sufficient.

(*a*) All lands comprised within the following boundaries :—

Commencing from cantonment boundary pillar No. 1, which is on the left bank of the Nag Nullah near the north-west corner of the Pat the line runs due west to the Nag Nullah,

then down the Nullah to its junction with the Nambol river, then down the Nambol river to reserve pillar No. 1, which is placed on the left bank close to where a large drain, or cut, falls into the river; then up this drain, or cut, which for the whole distance skirts the compounds of the Manipur State Jail, State Military Police Hospital and State Civil Police lines to the main road to Thobal, where pillar No. 2 is placed; then along this road in the direction of Thobal to pillar No. 3 on the right bank of the Imphal river at the point where the road first meets it; then up the river to the bridge which crosses the road forming the southerly boundary of the Pat. Then along the Cantonment boundary to Cantonment boundary pillar No. 6, then eastward along the northern side of the road for 700 feet to pillar No. 5. Then northwards to pillar No. 6, then by pillars 7, 8, 9 and 10, including the Muhammadan burial ground to the Imphal river, thence down the river to Cantonment boundary Pillar No. 7 situated on the left bank and close to the Minithong bridge near the north-east corner of the Pat.

From pillar No. 7 the boundary crosses the river Imphal a second time, and passes alongside of the Minithong bridge running almost due west to pillar No. 8.

The line then runs along the east side of the river *bund*, thus including it (the *bund*) in cantonments, and more or less follows the right bank of the river up to pillar No. 17.

The boundary here takes an easterly direction, and still closely follows the right bank of the Imphal river.

Then again the line runs in a northerly direction to pillar No. 20.

The boundary here runs west, following an old existing *bund* on its south side and about 50 feet from it.

Then the line follows the *bund*, running west and crosses the Nag Nullah to pillar No. 22, which is situated about 140 feet from the right bank of the Nullah.

Here the line continues its westerly direction and crosses the Nichuguard-Manipur cart-road to pillar No. 23, which is about 300 feet east of the 750 yards firing platform.

NOTIFICATIONS.

Quetta, the 1st March 1909.

No. 540.—In exercise of the powers conferred by Section 5 of the Scheduled Districts Act, 1874 (XIV of 1874) and with the previous sanction of the Governor General in Council, the Chief Commissioner of British Baluchistan is pleased to extend the provisions of the Land Improvement Loans Act (Act XIX of 1883) as amended by Act VIII of 1906, to British Baluchistan.

No. 541.—In exercise of the powers conferred on him by Section 1 (2) of the Land Improvement Loans Act (XIX of 1883) as extended to British Baluchistan, the Chief Commissioner of British Baluchistan is pleased to appoint the 1st April 1909 as the date on which the said Act shall come into force in British Baluchistan.

No. 542. —In exercise of the powers conferred on him by Section 10 of the Land Improvement Loans Act (XIX of 1883) as extended to British Baluchistan, the Chief Commissioner of British Baluchistan is pleased to make the following rules for the working of the said Act in British Baluchistan :—

Draft Rules under the Land Improvement Loans Act.

Annual allotment and its distribution.

1. On receipt of sanction to the annual estimate of Imperial advances and loans the Revenue Commissioner will distribute the allotment for the Baluchistan Agency.

Reserve with Revenue Commissioner and power to transfer funds.

2. In making the distribution required by the foregoing rule, the Revenue Commissioner will retain a small reserve to meet applications from District Officers for extra grants. The Revenue Commissioner is authorized to redistribute District allotments, as occasion may require.

Application for additional grant over and above the annual allotment.

3. If in any year an additional grant, over and above the total allotment for the year, should be required, the Revenue Commissioner will submit an application for the orders of the Local Government.

Officers authorized to grant loans.

4. (a) Subject to the provisions of these rules, and within the limits of the funds allotted to him for the purpose, the Collector of a District may grant loans not exceeding R1,000 for any one improvement as defined in Section 4 of the Act. Applications for loans in excess of R1,000 for any one work shall be submitted to the Revenue Commissioner, who is authorized to sanction the grant of loans not exceeding R3,000 in any one case. Applications for loans in excess of R3,000 shall be submitted with the Revenue Commissioner's recommendations for the orders of the Local Government.

(b) The Collector may, in his discretion, allot funds from his District allotment to any Sub-Divisional Officer or Officers of his District, and may empower such Officer or Officers to grant loans up to a limit not exceeding R500 for any one work within the limits of the funds so allotted.

Applications for loans.

5. Applications for loans may be presented to any Revenue Officer not below the rank of Naib Tahsildar. Such applications should usually be in the annexed Form A, of which printed copies should be made available to intending borrowers free of charge. When an application for a loan is made orally, or otherwise than in Form A, the Officer to whom it is made shall himself record it in the prescribed form or he shall cause it to be so recorded by some responsible subordinate official.

Enquiry into application and officers by whom enquiry should be made.

6. A local enquiry shall be held at as early a date as possible by the Officer entertaining the application, or by such Revenue Officer not below the rank of Naib Tahsildar as may be called upon by him to make such enquiry, into the circumstances of the applicant, the sufficiency of the security offered and such other particulars as may be necessary for determining whether or not it is desirable to grant the loan.

Enquiry to be made by Kanungo in special cases.

7. Where the amount of the loan applied for does not exceed R500 and the local enquiry cannot be made within a reasonable time by a Tahsildar or a Naib Tahsildar without detriment to his other work, the Sub-Divisional Officer or in his absence the Tahsildar may in his discretion cause the requisite enquiry to be made by a Kanungo of the Tahsil.

Report giving result of enquiry.

8. The result of the enquiry shall be recorded in Form B. (on the reverse of Form A) and the papers shall then be forwarded, through the proper channel, to the Officer having authority to sanction the loan.

Power to order further enquiry.

9. The Officer to whom such a report is submitted may for sufficient reason cause a further enquiry to be held before forwarding or recommending for sanctioning the application, but care should be taken that no unnecessary delay is allowed to occur in

making such further enquiry. No application shall be rejected except by order of the Officer competent to sanction it, or (in the case of loans requiring the sanction of the Revenue Commissioner or the Agent to the Governor General) of the Collector.

Conditions to be complied with before loans are given.

10. No loan shall be granted unless enquiries show that the conditions of Section 4, clause (1) of the Act are fulfilled, and that the security offered is good and sufficient.

Amount of loan to be sufficient to cover total outlay.

11. In dealing with applications for loans generally, and more particularly for loans for constructing or improving Karezes or water courses or for carrying out other irrigation schemes, it is of importance that a close estimate should be made of the total outlay required to complete the project, and that the amount of the loan should be sufficient to cover so much of the total outlay as the borrower is unable to provide from his own capital, or to obtain on reasonable terms from other sources.

Karezes.

12. The construction and extension of Karezes are works of a very speculative nature, and no loans should ordinarily be given in such cases until the probability of the success of the project has been ascertained by sinking trial wells and taking approximate levels. Where it is conveniently possible, and in all cases where the outlay is large, the Irrigation Officer in Baluchistan or some local Public Works Department Officer should be asked to examine and report on the project. The grant or refusal of the loan should mainly depend on such Officer's report. When such report is unfavourable, no loan should be given without the special sanction of the Revenue Commissioner.

Security for loan.

13. (*a*) Security as hereinafter prescribed shall be taken before any loan is made under these rules.

(1) Where the applicant's interest in the land or water to be improved, or in both, is apart from the improvement proposed in itself of sufficient value to cover the amount of the loan, the sanctioning officer may in his discretion dispense with further security.

(2) Where such interest is not in itself of sufficient value to cover the amount of the loan, further security should be taken, which may consist of:—

(*i*) The applicant's interest in other land or water or both,

(*ii*) Land or water, or both, belonging to any other person or persons who is or are willing to become the applicant's surety or sureties,

(*iii*) Personal security.

(3) (*a*) Where the application for a loan is made by a tenant or tenants (other than mere tenants-at-will) of immoveable property and the security offered is sufficient to ensure the repayment of the loan, loans may be freely given on such security.

Note.—A tenant's occupancy rights should not be accepted as security unless they are transferable at the tenant's option.

(*b*) The fact that an applicant is in arrears in respect of land revenue, or of a previous loan, does not necessarily bar the grant to him of a loan under these rules, provided the sanctioning authority is satisfied as to the security offered.

(*c*) It is for the sanctioning authority to satisfy himself in every case that the security offered, in whatever form, is sufficient to guarantee the repayment of the loan; and, when such authority is of opinion that security other than land is sufficient there is no objection to such security being accepted.

Encumbrances on land offered as security.

14. Enquiries as to existing encumbrances on land offered as security for the repayment of a loan should not be carried further than is absolutely necessary with due regard to the security for the loan.

Interest.

15. Loans shall not ordinarily be given under these rules unless the applicant is willing to pay simple interest at the rate of one anna in the rupee (*i.e.*, 6¼ per cent.) per annum. If in any case there are exceptional reasons to justify the grant of a loan at a lower rate of interest or without interest, the case should be submitted with the recommendations of the Collector, to the Revenue Commissioner, who will accept or reject any such application as to him may seem expedient; or in cases of loans in excess of Rs. 1,000 will submit the application with his recommendations for the orders of the Hon'ble the Agent to the Governor-General.

Repayment of loans.

16. Subject to the provisions of rules 17 and 18 the convenience of the borrower should be consulted as far as possible in fixing the instalments by which repayment is to be made. Repayments may be made by yearly or half-yearly instalments, and on dates convenient to the borrower, but the borrower may, if he so chooses, repay by larger instalments or repay the whole amount of his debt at any time.

Date from which repayment should begin.

17. Within reasonable limits, the convenience of the borrower should be consulted as to the date from which repayment should begin, and such date should not precede the date when by the exercise of ordinary care and diligence the profits from the improvement may be expected to cover the payment of the instalment. This period of grace, however, should not without the special sanction of the Hon'ble the Agent to the Governor General exceed two and a half years in any case, and interest should be charged for the period in question.

Period within which loans should be repaid.

18. The period within which the repayment of the loan is to be completed should not ordinarily exceed twenty years, but this period may, in special cases, with the sanction of the Local Government, be extended, due regard being had to the nature and permanency or otherwise of the improvement effected.

Execution of agreements.

19. When it has been decided to grant or to recommend a loan, steps should forthwith be taken to have the necessary documents executed. The applicant or applicants should be required to execute an agreement in the annexed Form C, Clause 3 of this form should be filled up in cases in which the applicant or applicants hypothecates or hypothecate his or their own property as security; in other cases it should be struck out. If any land belonging to any other person or persons is to be hypothecated, an additional agreement should be executed in the annexed Form D. If personal security of any other person or persons is to be taken the additional agreement should be in the annexed Form E.

Planting of trees along water courses, etc.

20. Whenever possible in granting a loan for the construction of a new, or the repairing of an old Karez, water course, etc., the opportunity should be taken to insert a clause in the agreement (Form C) binding the applicant to plant and maintain a reasonable number of fruit or other trees along its bank.

Payment of loan in instalments.

21. Loans of considerable amount should, as a rule, be made not in lump sums, but in suitable instalments; and when money is so advanced, care should be taken to see that each instalment has been applied to the purpose for which it was given before a further instalment is paid; but the payments of the instalments should be made as promptly as possible so that the progress of work may not be retarded.

Order for payment of loan.

22. The order for the payment of a loan should be made out in the annexed Form F. If the loan is payable in a lump sum, the first and third paragraphs of the order Form F should be filled up. If the loan is payable in instalments, a separate order will be given to the applicant for each instalment. When the first instalment is to be drawn the first and third paragraphs of the form should be filled up; and when a second or subsequent instalment is to be drawn, the first and second paragraphs of the form should be filled in and the third paragraph struck out. Form F should be made over to the borrower, who should present it at the Treasury (or Sub-Treasury) for payment, and on payment the order form should be taken over by the Treasury (or Sub-Treasury) and forwarded as a voucher to the Accounts Department.

Penal interest for non-repayment on due date.

23. Subject to the provisions of Rule 26, if an instalment of principal, or of interest, or of consolidated principal and interest, is not paid when it becomes due, the Collector may, if the delay exceeds one month and shall if it exceeds six months, charge compound interest at a rate not exceeding 6¼ per cent. per annum, on such overdue instalment for the period during which it remains unpaid, provided that, if the default in payment is due to the borrower's inability to pay, and the levy of such compound interest would be productive of hardship, the Collector may recommend that it may be remitted, recording reasons for his recommendation which shall be submitted to the Revenue Commissioner, who shall pass orders on such recommendation.

Inspection of improvements.

24. Collectors should make arrangements for the periodical inspection of all improvements undertaken with the aid of a loan in order to ensure that the loan is properly applied to the work for which it was granted. In all cases the work should be inspected within a month after the expiration of the time within which the applicant has bound himself in the agreement (Form C) to complete the work.

Penalty for misapplication of loan.

25. If it is proved at any time to the satisfaction of the Collector that any part of a loan has been misapplied, he may, after recording the reasons for his decision, and subject to the control of the Revenue Commissioner, proceed to recover the whole amount of the loan with such interest as may have become due thereon.

Suspension.

26. (*a*) Suspensions should be readily given when owing to the failure of crops or delay in the completion of the improvement from causes beyond the borrower's control, the payment of instalments would be burdensome.

(*b*) No interest shall be charged on suspended instalments for the period of suspension.

Effect of suspension on repayment of loan.

(*c*) Unless the borrower so desires, suspended instalments should not be made repayable in the ensuing year together with the instalments due in that year, but the effect of suspension shall be to postpone for one instalment period the payment of all remaining instalments due on the loan.

Powers of officers to grant suspensions.

(*d*) Where the amount of the loan does not exceed R1,000 suspensions may be sanctioned by the Collector. Where the amount of the loan exceeds R1,000 a first suspension may be sanctioned by the Collector, a report being sent to the Revenue Commissioner, whose previous sanction should be obtained before a second or any subsequent suspension of the same instalment is given. The Revenue Commissioner may sanction suspensions of instalments irrespective of the amount of the loan.

Applications for remissions.

27. When any loan or any portion of a loan is found to be irrecoverable, or when for special reasons it appears undesirable to recover any outstanding amount, a special report shall be submitted to the Revenue Commissioner. It is desirable that the recovery of a

loan should take precedence over the recovery of land revenue and it is ordinarily preferable that a remission of land revenue should be recommended rather than of the loan.

Foot-note.—Generally the risk of failure must be borne by the borrower, as this affords the best guarantee that the loan will be judiciously spent, and applications for the remission of outstanding instalments or any part of them will only be considered when it is clearly proved that the work for which the loan was given has failed from causes beyond the borrower's control and when recovery in full would occasion serious hardship.

28. The Revenue Commissioner may, on sufficient reasons being shown, remit any amount not exceeding R5,00. In any case where the amount proposed to be remitted exceeds this sum, the Revenue Commissioner shall take the orders of the Local Government which has power to grant remissions without limit. **Power to grant remissions.**

29. Whenever any loan or any part of a loan is remitted under the foregoing rule, a copy of the order sanctioning such remission shall be at once communicated to the Comptroller, India Treasuries, Calcutta, and the Treasury Officer, Quetta. **Copies of orders sanctioning remission to be sent to Account Officers.**

30. The Revenue Commissioner shall regulate the forms of all returns, registers and accounts relating to loans under the Act. **Forms.**

NO. 543.—In exercise of the powers conferred on him by proviso (1) to section 11 of the Land Improvement Loans Act, 1883 (Act XIX of 1883), as extended to British Baluchistan, the Chief Commissioner of British Baluchistan is pleased to frame the following rules for the temporary exemption of improvements from assessment to land revenue in cases where the improvement is made with the aid of a loan under the said Act, and consists of the reclamation of waste land or of the irrigation of land assessed at unirrigated rates:—

1. (*a*) Reclamation of waste land.—When land is reclaimed from waste and is brought under cultivation by any means other than perennial irrigation, no revenue shall be assessed on it for a period of three years.

(*b*) Improvement by irrigation.—When rain-crop or flood irrigated land has been brought under perennial irrigation, no additional revenue shall be assessed on it for a period of 4 years.

(*c*) Waste land brought under irrigation.—When waste land is brought under perennial irrigation, no revenue shall be assessed on it for a period of five years.

2. In each of the above cases the period of exemption shall be reckoned from the beginning of the harvest first reaped after the improvement is effected.

3. Nothing in these rules shall be understood as limiting the power of the Local Government in any case to give more liberal terms than those above prescribed. Nor shall these rules be read as affecting any remission of revenue admissible to any person under the terms of any agreement or unexpired settlement.

4. These rules shall come into force from 1st April 1909.

NO. 547.—In exercise of the powers conferred by section 5 of the Scheduled Districts Act, 1874 (XIV of 1874), and with the previous sanction of the Governor General in Council, the Chief Commissioner of British Baluchistan is pleased to extend section 2 of the Agriculturists' Loans Act, 1884 (XII of 1884), to British Baluchistan.

NO. 548.—In exercise of the powers conferred on him by section 2, sub-section (3), of the Agriculturists' Loans Act (XII of 1884) as extended to British Baluchistan, the Chief Commissioner of British Baluchistan is pleased to extend sections 4, 5 and 6 of the said Act to British Baluchistan.

No. 549.—In exercise of the powers conferred on him by Section 4 (1) of the Agriculturists' Loans Act (XII of 1884) as extended to British Baluchistan, the Chief Commissioner of British Baluchistan is pleased to make the following rules for the working of the said Act in British Baluchistan.

Draft Rules under the Agriculturists' Loans Act.

Officers empowered to grant loans. 1. Subject to the provisions of these rules, and within the allotment placed at his disposal, the grant of loans (under these rules) shall be within the discretion of the Collector of the district.

Selected officers may be empowered to grant loans. 2. A Collector may empower officers not below the rank of Tahsildar to sanction loans not exceeding in each individual case R100 for the purchase of cattle and R20 for seed; and officers not below the rank of Extra-Assistant Commissioner to sanction loans not exceeding R200 in each individual case for the purchase of cattle and R50 for seed, provided that loans so given shall be debited against the allotment for the district.

Application for loans. 3. Applications from owners and occupiers of arable land for the relief of distress, the purchase of seed or cattle, or for any other purpose not specified in the Land Improvement Loans Act, 1883, but connected with Agricultural objects may be presented to any Revenue Officer not below the rank of Naib-Tahsildar. Such applications should usually be in the annexed form A, of which printed copies should be made available to intending borrowers free of charge. When an application is made orally or otherwise than in form A, the officer to whom it is made shall himself record it in the prescribed form or he shall cause it to be so recorded by some responsible subordinate official.

NOTE.—The words "relief of distress" mean relief of distress directly due to a calamity in agriculture, such as the destruction of crops by drought, floods, hail, blight, locusts or insects; loss of cattle by disease; scarcity and the like.

The words "any other purpose not specified in the Land Improvement Loans Act but connected with Agricultural objects" mean any other purpose directly connected with agriculture and its processes.

Enquiry into application and officers by whom enquiry should be made. 4. A local enquiry shall be held at as early a date as possible by the officer entertaining the application, or by such Revenue Officer not below the rank of a Kanungo as may be directed by the officer to whom the application is presented to make such enquiry (for the purpose of ascertaining whether the applicant is in need of the relief applied for).

Report of enquiring officer. 5. The result of the enquiry shall be recorded in the annexed form B (on the reverse of form A), and the report shall then be forwarded through the proper channel to the officer having power to sanction the loan

Power to order further enquiry. 6. Any officer to whom such a report is submitted may, for sufficient reason, cause a further enquiry to be held, before forwarding or recommending or sanctioning the application, but care should be taken that no unnecessary delay is allowed to occur in making such further enquiry.

Amount of Loan. 7. Loans when given should be on such a scale as to render it unnecessary for the borrower to resort elsewhere for supplementary loans in order adequately to supply the needs which have led him to ask for a loan.

Security. 8. The Collector, or any officer empowered by him to give loans under rule 2 may in his discretion require an applicant to furnish security for the repayment of the loan. The loans given under the Agriculturists' Loans Act being as a rule small, it will generally be unnecessary to demand any security other than personal security, but officers who are entrusted with the working of these rules should endeavour to encourage the system by which members of a village community, or a group of agriculturists, become jointly and severally responsible for the repayment of a loan required by an individual member.

Interest. 9. Loans shall not ordinarily be given under these rules, unless the applicant is willing to pay simple interest at the rate of one anna in the rupee, *i.e.*, 6¼ per cent. per annum. If in any case there are exceptional reasons to justify the grant of a loan at a lower rate of interest than that prescribed, or without interest, the case should be submitted, with the recommendations of the Collector, to the Revenue Commissioner, who will when the loan does not exceed 1,000 rupees accept or reject any such application as may to him seem expedient.

Repayment of Loans. 10. The convenience of the borrower should be consulted as far as possible in fixing the instalments by which repayment is to be made. The borrower should in ordinary circumstances be expected to repay a loan taken for the purchase of seed from the proceeds of the crop produced by the seed and in the case of a loan taken for the purchase of plough cattle to repay it within two years. The repayment of the whole amount of the debt should in no case take longer than ten years.

Option of borrower to repay before due date. 11. Whatever dates may be fixed for the repayment of a loan, the borrower may, if he so wishes, repay the amount due by him, by larger instalments or repay the whole amount due by him at one time.

Payment of loan and executions of agreements. 12. When it has been decided to grant or to recommend a loan, steps should forthwith be taken to have the necessary documents executed. The applicant or applicants should be required to execute an agreement in the annexed form C. Clause 3 of this form should be filled up in cases in which the applicant or applicants hypothecates or hypothecate his

or their own property as security; in other cases it should be struck out. If a third party becomes security an additional bond should be executed in the annexed form D or E, according as the surety is a village community or a group of agriculturists (see rule 8) or not, or in the annexed form F, where the security offered is immoveable property. After the necessary documents have been executed the officer having authority to sanction the loan shall give an order in the annexed form G for the payment of the amount of the loan.

N.B.—In case of loans under the Agriculturists' Loans Act all securities besides the applicant's personal security are optional (see rule 8).

Grants of loans in times of scarcity or famine and method of payment.

13. When scarcity or famine is apprehended the Collector may authorise selected officers, not below the rank of Naib-Tahsildar, to draw, on abstract bills, lump sums (the amount of which should in each case be specified) for distribution as loans under these rules. At such times enquiries should be made well in advance as to probable requirements so that arrangements may be made for the immediate disbursement of money when it is actually required. Loans may be granted in villages on the receipts of the borrowers subject to the condition that each agrees to pay interest at the prescribed rate. Receipts should be taken on the spot at the time that the amount of each loan is paid, and each receipt should be signed by at least two villagers as witnesses. The disbursing officer shall also observe the following procedure:—

(1) He shall not draw a second abstract bill without producing a detailed bill to account for the amounts already disbursed from the last advance taken by him, any balance being at the same time refunded into the Treasury or accounted for as prescribed below.

The balance need not be refunded on each occasion on which a detailed bill is sent to the Treasury. If the disbursing officer foresees that his advance will not be sufficient to meet the probable demands, he may, before his advance is exhausted, subject to the condition that funds have been placed at his disposal, prepare another abstract bill for a further advance and send it to the Treasury with the detailed bill in which the unexpended balance of the first advance should be shown as refunded, and such balance will be deducted at the Treasury from the amount of the second abstract bill.

(2) The submission of the detailed bill should in no case be delayed beyond the end of the month following that in which the advance was drawn from the Treasury.

(3) At the foot of each detailed bill the disbursing officer shall certify that the amount of each advance was duly sanctioned by him and actually paid in his presence, and that the requisite receipt has in each case been taken.

Levy of penal interest.

14. Subject to the provisions of rule 16 if an instalment of principal or of interest or of consolidated principal and interest is not paid when it becomes due, the Collector may, if the delay exceed one month, and shall if it exceeds six months, charge compound interest at a rate not exceeding 6¼ per cent. per annum on such overdue instalment for the period during which it remains unpaid,

provided that if the default in payment is due to the borrower's inability to pay and the levy of such compound interest would be productive of hardship, the Collector may recommend that it may be remitted, recording reasons for his recommendation which shall be submitted to the Revenue Commissioner who shall pass orders on such recommendation.

Obligation on the Collector to see that loans are not misapplied, and penalty for misapplication.

15. In the case of a loan granted for any purpose other than the "relief of distress," the Collector should satisfy himself, within a month from the date of the payment of such loans, that the money has been properly applied; and if it is proved to his satisfaction that any portion of the loan has been misapplied, he may, after recording in writing the grounds for his decision, proceed to recover at once the whole amount of the loan with such interest as may have become due thereon.

Suspensions.

16. (*a*) Suspension should be readily given when, owing to the failure of crops or loss of cattle from causes beyond the borrower's control, the repayment of a loan, or of an instalment, would be burdensome.

Interest on suspended instalments.

(*b*) No interest shall be charged on suspended instalments for the period of suspension.

Effect of suspension on repayment of loans.

(*c*) Unless the borrower so desires suspended instalments should not be made repayable in the ensuing year together with the instalments due in that year, but the effect of suspension shall be to postpone for one instalment period the payment of all remaining instalments due on the advance.

Power of Collectors to grant suspension.

(*d*) Suspensions under these rules may be sanctioned by a Collector.

Remissions.

17. It is desirable that the recovery of a loan should take precedence over the recovery of land revenue and it is ordinarily preferable that a remission of land revenue should be recommended rather than of the loan. When, however, any loan or any portion of a loan is found to be irrecoverable, or when for special reasons it appears undesirable to recover any outstanding amount, a special report shall be submitted to the Revenue Commissioner. The Revenue Commissioner may, on sufficient reasons being shown, remit any amount not exceeding R500. In any case where the amount proposed to be remitted exceeds this sum, the Revenue Commissioner shall take the orders of the Local Government, which has power to grant remissions without limit.

Copies of orders sanctioning remissions to be sent to account officers.

18. Whenever any loan or any part of a loan is remitted under the foregoing rule a copy of the order sanctioning such remissions shall be at once communicated to the Comptroller, India Treasuries, Calcutta, and the Treasury Officer, Quetta.

Forms.

19. The Revenue Commissioner shall regulate the forms of all returns, registers and accounts relating to loans under these rules.

THE HON'BLE THE AGENT TO THE GOVERNOR-GENERAL IN BALUCHISTAN.

NOTIFICATION.

The 26th February 1909.

No. 512.—In exercise of the powers conferred by section 59, sub-section (5) of the Prisons Act, 1894 (IX of 1894), as applied to the territories administered by the Hon'ble the Agent to the Governor-General in Baluchistan as such Agent and with the previous sanction of the Governor-General in Council, the Hon'ble the Agent to the Governor-General is pleased to make the following rules to regulate the shortening of sentences by the grant of remission :—

1. These rules shall come into force with effect from the first March 1909.

In these rules,—

(*a*) "prisoner" includes a person committed to prison in default of furnishing security to keep the peace or be of good behaviour;

(b) "class 1 prisoner" means a thug, a robber by administration of poisonous drugs or a professional, hereditary or specially dangerous criminal convicted of heinous organised crime, such as dacoity:

(c) "class 2 prisoner" means a dacoit or other person convicted of heinous organised crime, not being a professional, hereditary, or specially dangerous criminal:

(d) "class 3 prisoner" means a prisoner other than a class 1 or class 2 prisoner:

(e) "sentence" means a sentence as finally fixed on appeal, revision or otherwise, and includes an aggregate of more sentences than one and an order of committal to prison in default of furnishing security to keep the peace or be of good behaviour:

(f) "life convict" means—

(i) a class 1 or class 2 prisoner whose sentence amounts to twenty-five years' imprisonment · or

(ii) a class 3 prisoner whose sentence amounts to twenty years' imprisonment.

2. No remission shall be earned in respect of any sentence of transportation or imprisonment under section 2 of the Frontier Murderous Outrages Regulation, 1901 (IV of 1901), passed on a person above the age of fifteen years.

3. No ordinary remission shall be earned in the following cases, namely:—

(1) in respect of any sentence of imprisonment amounting, exclusive of any sentence passed in default of payment of fine, to less than one year;

(2) in respect of any sentence of simple imprisonment except for any continuous period not being less than one month during which the prisoner labours voluntarily;

(3) in respect of any sentence passed on a prisoner for an offence committed after admission to jail under section 147, 148, 152 or 224 of the Indian Penal Code or section 52 of the Prisons Act, 1894

4. The Superintendent may, with the previous sanction of the Inspector General re-admit to the remission system any prisoner who has been removed therefrom under rules framed under section 59, clause (3), of the Act. Such a prisoner shall earn remission under these rules from the commencement of the month following such re-admission.

5. Ordinary remission shall be awarded on the following scale:—

(a) one day per month for thoroughly good conduct and scrupulous attention to all prison regulations;

(b) two days per month for industry and the due performance of the daily task imposed.

Explanation—A prisoner who by reason of being at Court, in hospital, in transit from one jail to another, or in an invalid gang which does not perform daily labour, or for any two or more of these reasons combined, is absent from work for the period of one whole calendar month shall be debarred from earning remission for that month under clause (b), but remission under clause (a) shall be awarded according to the prisoner's conduct during the time he has actually been present in jail.

6. In lieu of the remission allowed under rule 6, convict warders shall receive eight days' ordinary remission per month, convict overseers six days per month and convict night watchmen four days per month.

7. Subject to the provisions of rule 5, remission under rule 6 shall be calculated from the first day of the calendar month next following the date of the prisoner's sentence; any prisoner who, after having been released on bail or because his sentence has been temporarily suspended is afterwards readmitted to jail shall be brought under the remission system on the first day of the calendar month next following his re-admission, but shall be credited on his return to jail with any remission which he may have earned previous to his release on bail or the suspension of his sentence. Remission under rule 7 shall be calculated from the first day of the next calendar month following the appointment of the prisoner as convict warder, convict overseer or convict night watchman.

8. Prisoners employed on prison services, such as cooks and sweepers, who work on Sundays and holidays, may be awarded two days' ordinary remission per quarter in addition to any other remission earned under these rules

9. Any prisoner eligible for remission under these rules who, for a period of one year reckoned from the first day of the quarter following the date of his sentence or the date on which he was last punished for a prison offence, has committed no prison offence whatever, shall be awarded fifteen days' ordinary remission in addition to any other remission earned under these rules.

10. Ordinary remission shall be awarded by the Superintendent or, subject to his control and supervision and to the provisions of rule 12, by the Deputy Superintendent, Jailer, Deputy Jailer or any other officer specially empowered in that behalf by him.

11. An officer awarding ordinary remission shall, before making the award, consult the prisoner's history ticket in which every offence proved against the prisoner must be carefully recorded.

If a prisoner has not been punished during the quarter otherwise than by a formal warning, he shall be awarded the full ordinary remission for that quarter under rule 6, or, if he is a convict officer, under rule 7.

If a prisoner has been punished during the quarter otherwise than by a formal warning, the case shall be placed before the Superintendent, who, after considering the punishment or punishments awarded, shall decide what amount of remission shall be granted under rule 6 or, if the convict is a convict officer, under rule 7. All remissions recorded on the prisoner's history ticket shall be entered quarterly on the remission sheet (or card).

12. The award of ordinary remission shall be made, as nearly as possible, on 1st January, 1st April, 1st July and 1st October, and the amount shall be intimated to the prisoner and recorded on his history ticket. Remission granted to a prisoner under rule 10 shall be recorded on his history ticket as soon as possible after it is awarded.

13. No prisoner shall receive ordinary remission for the calendar month in which he is released.

14. Special remission may be given to any prisoner other than a prisoner undergoing a sentence referred to in rule 3 for special services, as for example :—

(1) assisting in detecting or preventing breaches of prison discipline or regulations ;

(2) success in teaching handicrafts ;

(3) special excellence in, or greatly increased outturn of, work of good quality ;

(4) protecting an officer of the prison from attack ;

(5) assisting an officer of the prison in the case of outbreak, fire or similar emergency ;

(6) economy in wearing clothes.

15. Special remission may be awarded—

(*a*) by the Superintendent to an amount not exceeding thirty days in one year ;

(*b*) by the Inspector General or the local Government to an amount not exceeding sixty days in one year.

Explanation.—For the purpose of this rule years shall be reckoned from the date of sentence, and any fraction of a year shall be reckoned as a complete year.

16. An award of special remission shall be entered on the history ticket of the prisoner as soon as possible after it is made, and the reasons for every award of special remission by a Superintendent shall be briefly recorded.

17. The total remission awarded to a prisoner under all these rules shall not, without the special sanction of the local Government, exceed one-fourth part of his sentence.

18. In calculating the date of release of a prisoner the number of days of remission earned shall be converted into months and days, at the rate of thirty days to each month.

19. When a life-convict being a class I prisoner has earned such remission as entitles him to release, the Superintendent shall report accordingly to the local Government with a view to the passing of orders under section 401 of the Code of Criminal Procedure, 1898.

20. Save as provided by rule 20, when a prisoner has earned such remission as entitles him to release, the Superintendent shall release him.

21. When a prisoner is released under rule 21, the total amount of remission earned by him shall be endorsed on his warrant and the endorsement shall be signed by the Superintendent.

22. When a prisoner is transferred to another jail, the total amount of remission earned by him up to the end of the preceding quarter shall be endorsed on his warrant and entered on his history ticket, these entries being signed by the Superintendent.

The receiving jail shall be responsible that the above information is duly obtained. Each jail at which a prisoner serves a portion of his sentence shall be held responsible for the correct calculation of the remission earned in that jail.

23. Remission sheets (or cards) shall be retained in the office of a jail for a period of one year after the release of the prisoner to whom they relate or his transfer to another jail.

NOTE.—(To rule 2). The case of all life-convicts and of all prisoners sentenced to more than 14 years' imprisonment or transportation or to transportation and imprisonment for terms exceeding in the aggregate 14 years shall, when the term of imprisonment undergone together with any remission earned under the rules amounts to 14 years, be submitted for the orders of the local Government in accordance with the instructions contained in the Home Department Resolution No. 159-67 (Jails), dated the 6th September 1905.

NOTE.—(To rule 4 (1). The intention of this rule is that if a prisoner's sentence or total of sentences is reduced on appeal to less than one year he shall cease to be eligible for ordinary remission under these rules and any remission that he may have earned prior to the reduction of his sentence or sentences shall be forfeited. See in this connection the definition of 'sentence' in rule 2 (*e*).

NOTE.—(To rules 20 and 21):—The intention of these rules is (*a*) that the case of class (1) life-convicts should be submitted for the special orders of the local Government in each case as to whether release should be granted and if so, on what conditions, (*b*) that class (2) convicts and term-convicts of class (1) should be released without the special orders of the local Government in each case but subject to such general orders as to release and such general conditions as to police surveillance during the period of sentence remitted, as the local Government may prescribe. (*c*) Class (3) prisoners should be released unconditionally on expiry of their sentence, less the period of remission earned.

N. B.—The above notes should not be regarded as part of the statutory rules; they have merely been inserted for convenience of reference and with the object of assisting officers to interpret the rules.
